(57) **CLAIM**

The design for an apron, as shown and described.

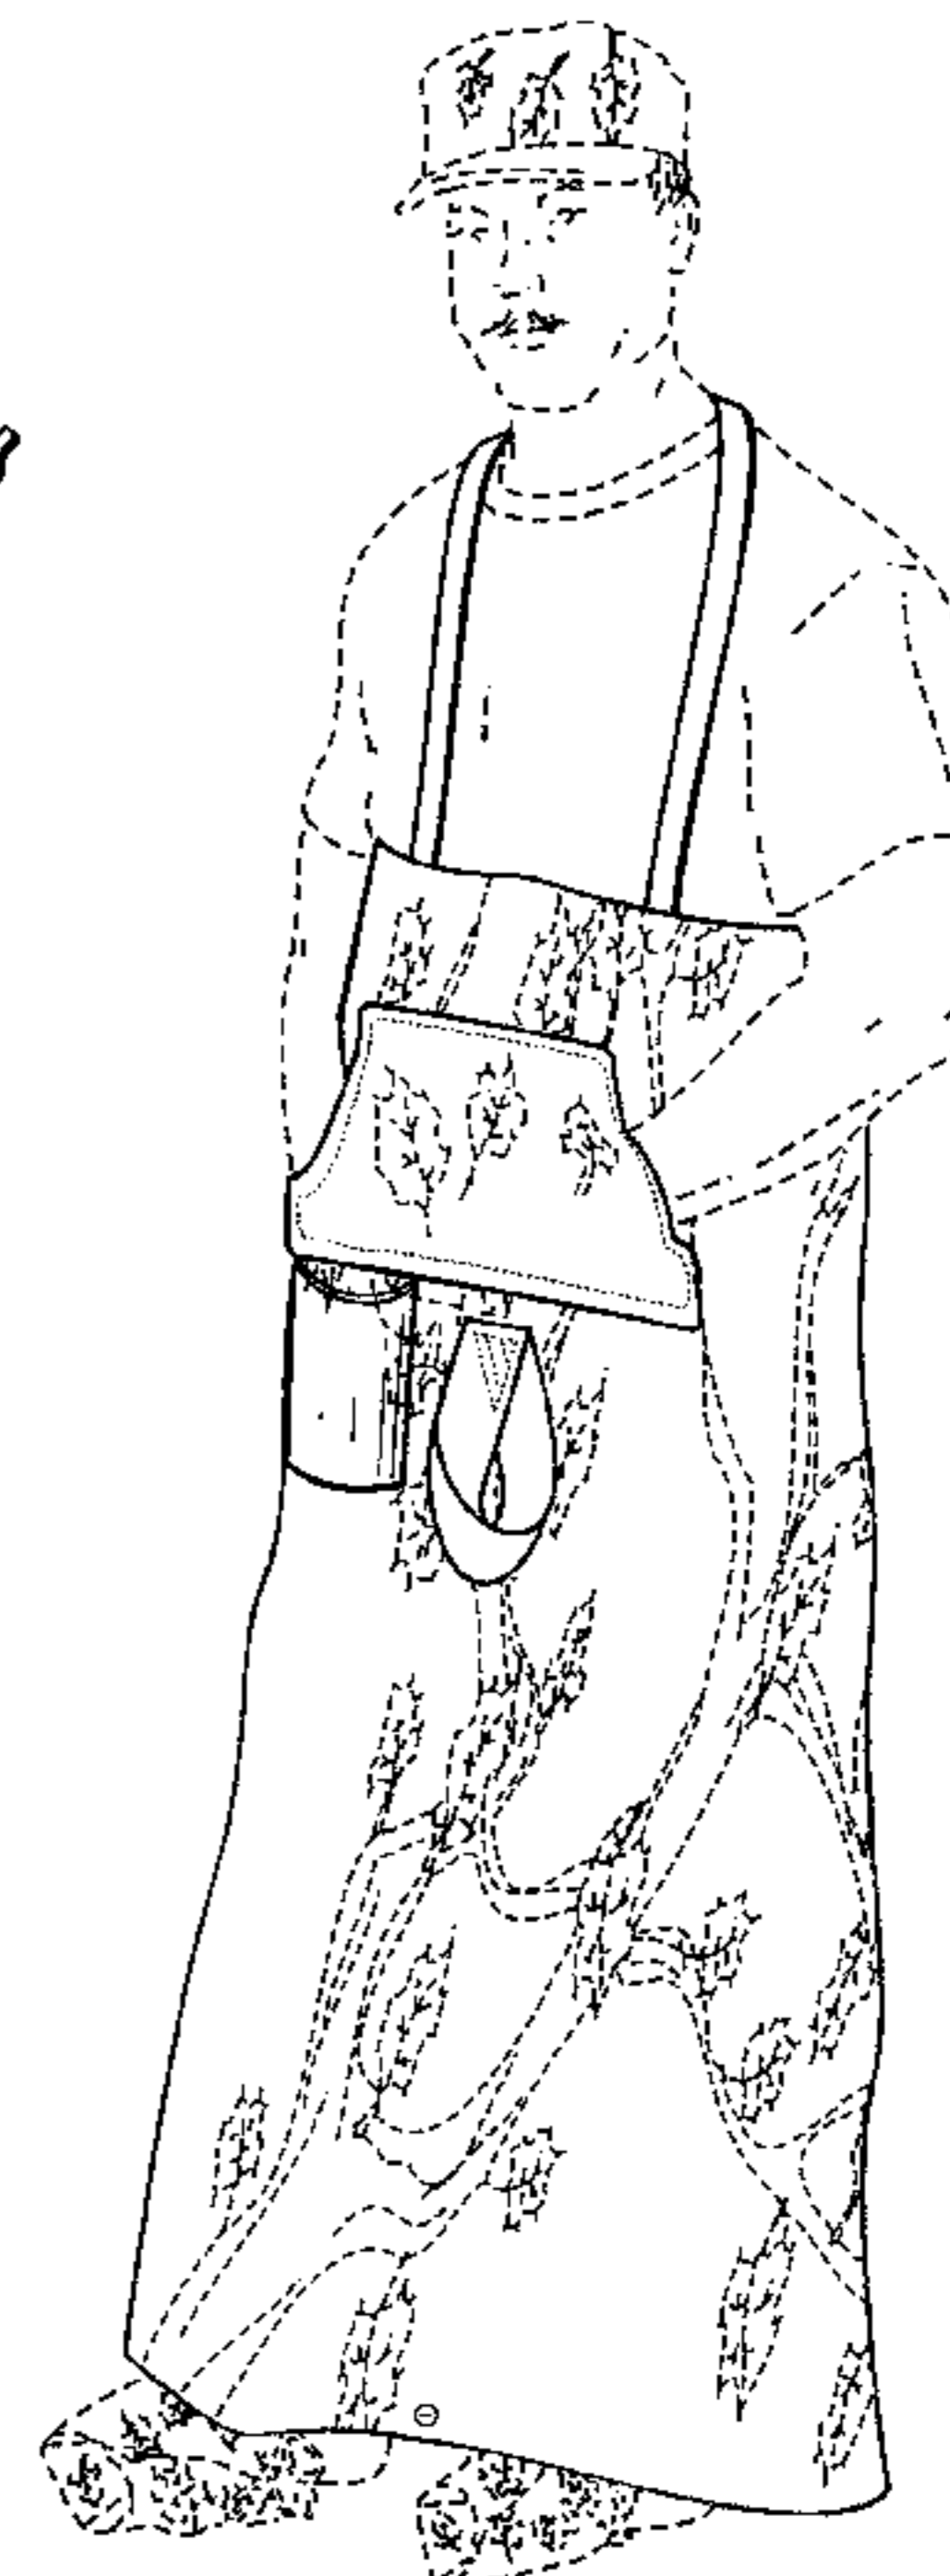

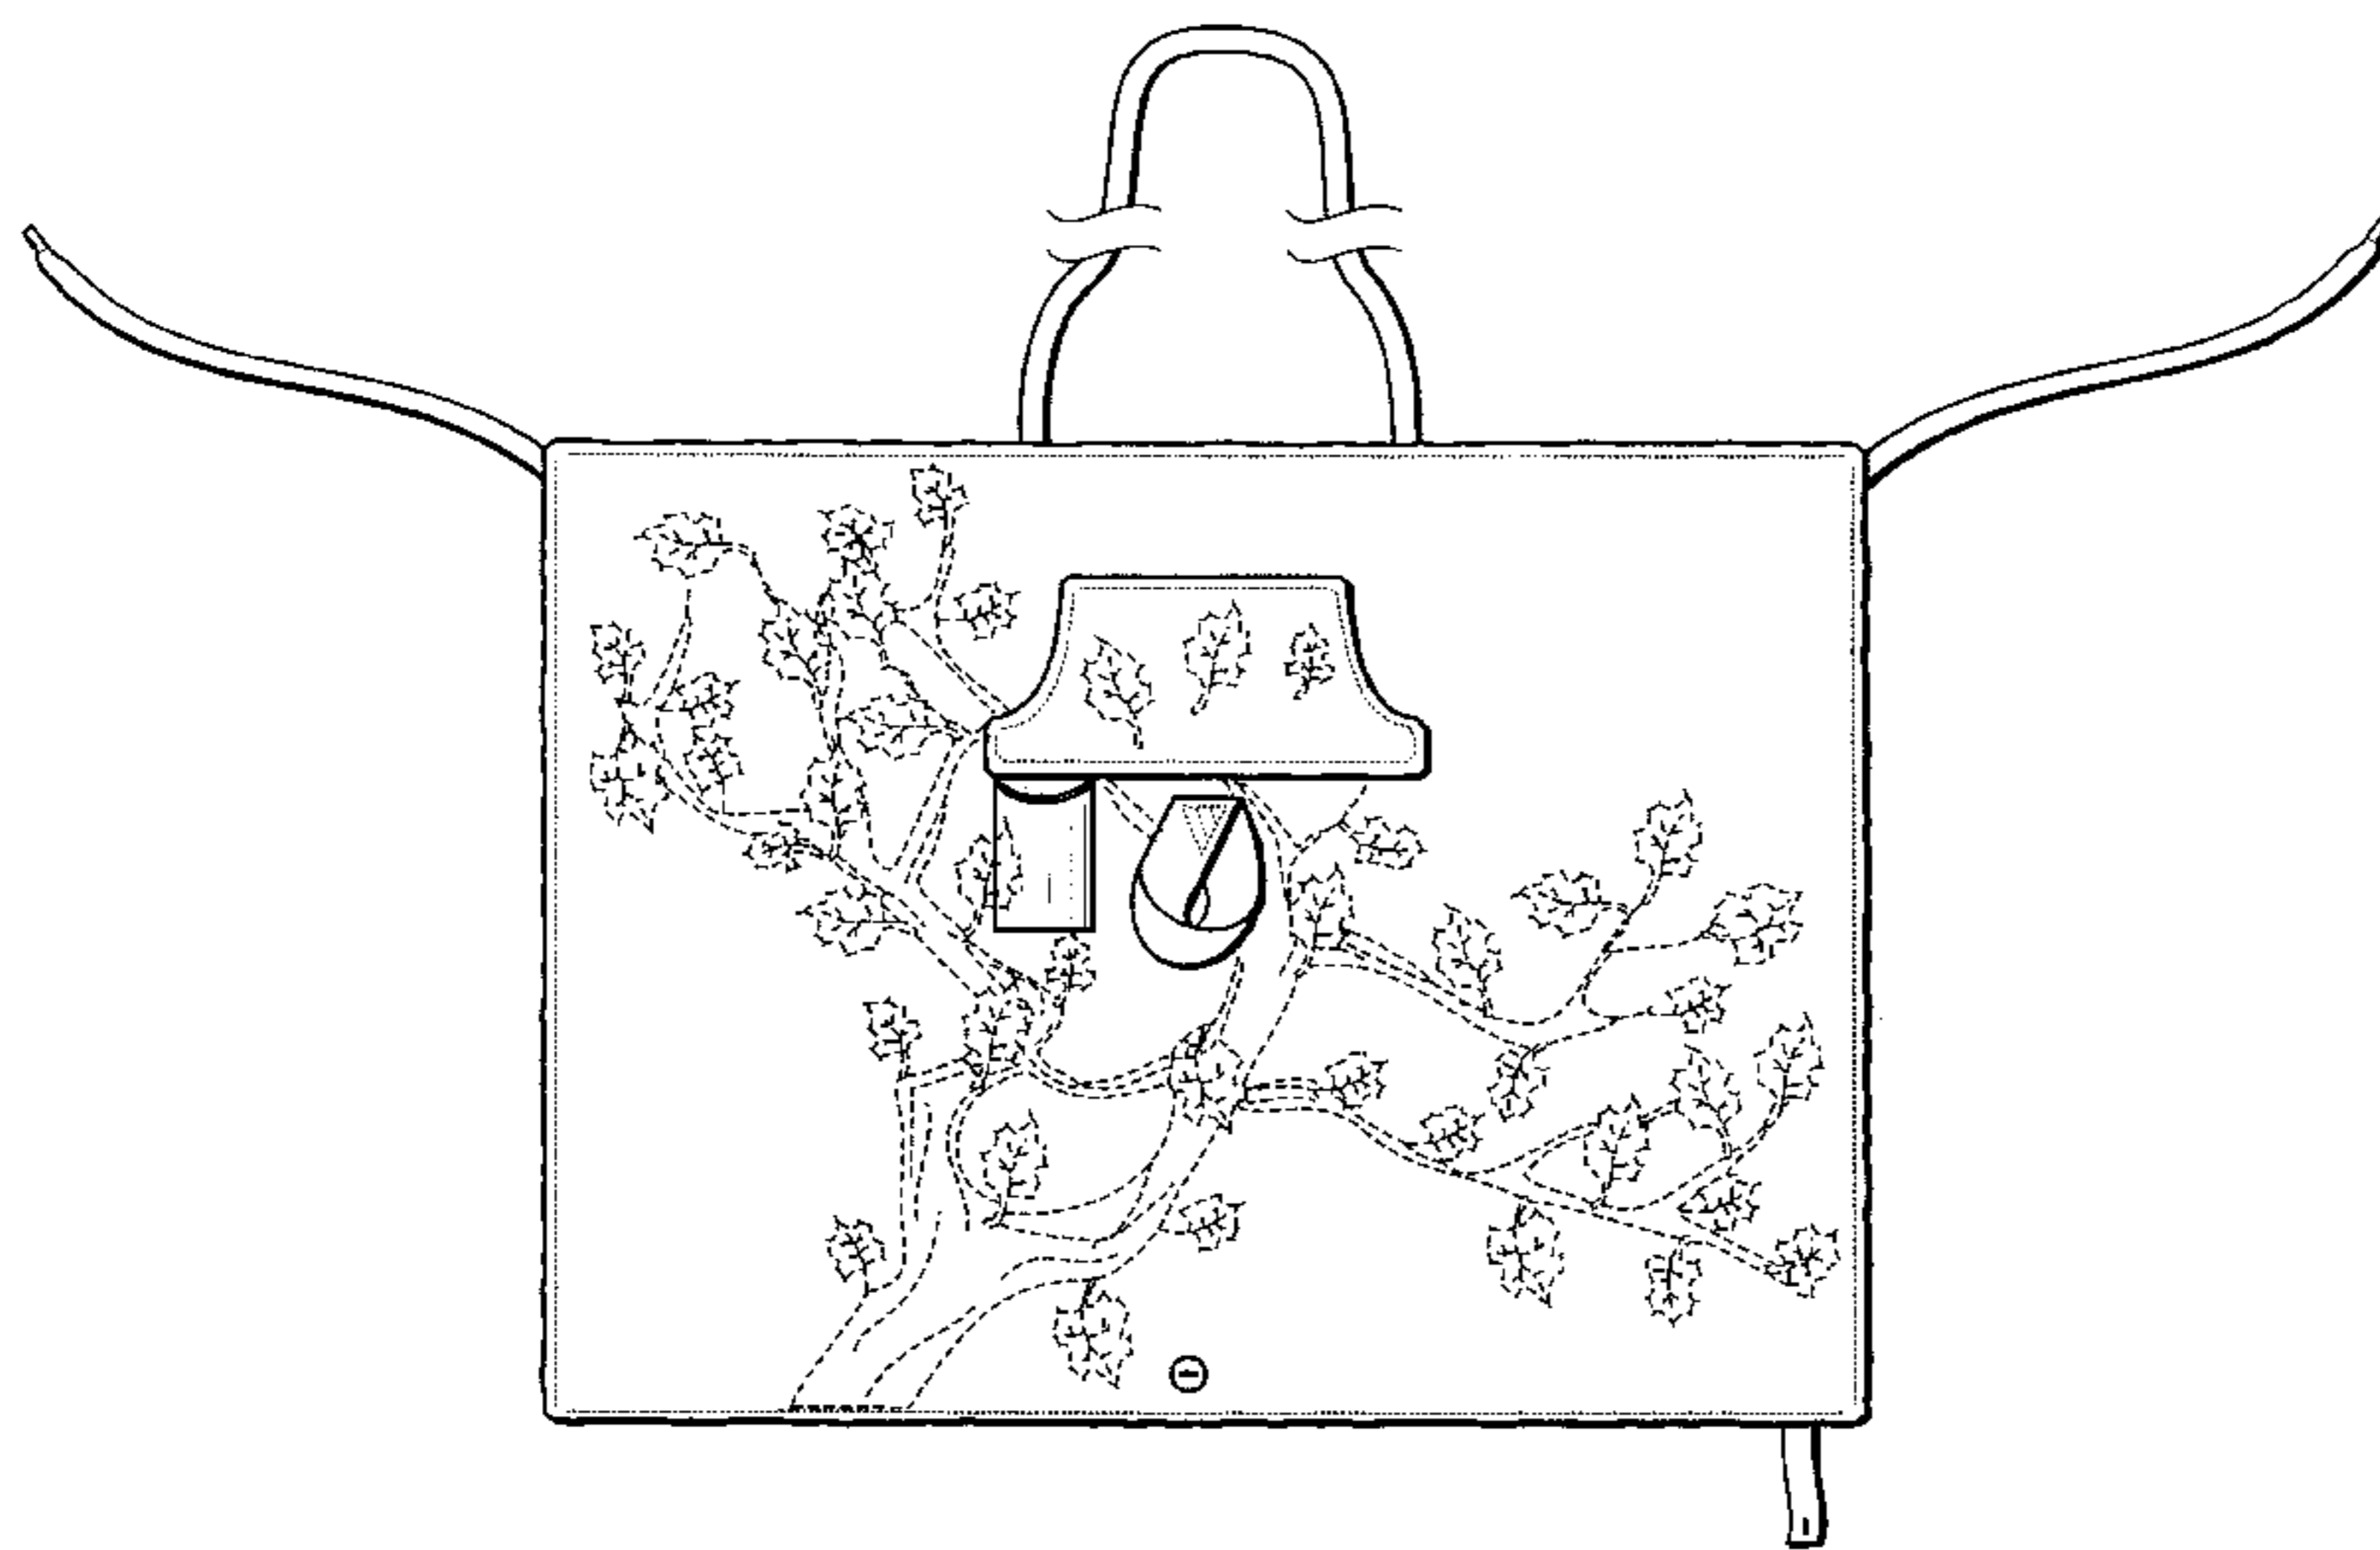

**DESCRIPTION**

FIG. 1 is a front elevational view of an apron showing my new design, the top strap being understood to have an indeterminate length. The broken lines showing a surface print are included to illustrate the possible environment, but forms no part of the claim; and,

FIG. 2 is a perspective view thereof, shown in use, the broken lines partially showing a human form being included to illustrate the use of the design, but forming no part of the claim.

The broken lines shown on the surface of the apron, on the pocket and loop in the views are understood to represent stitching.
