(57) **CLAIM**

The ornamental design for a surface pattern for sheet goods,
as shown and described.

DESCRIPTION

The FIGURE is a plan view of the surface pattern for sheet
goods, it being understood that the broken lines define a
portion of the sheet good and indicate that the pattern
continues indeterminately in one or more directions and
repeats uniformly throughout the length and width of the
sheet good. The broken lines form no part of the claimed
design.
