(57) **CLAIM**

The ornamental design for a digital timepiece display, as shown and described.

DESCRIPTION

FIG. **1** is a front elevational view of a digital display panel for an electronic timepiece showing my new design with all elements in an activated condition;

FIG. **2** is a front elevational view thereof with specific elements activated to show 24:00 hours in a typical time-keeping mode;

FIG. **3** is a front elevational view thereof with specific elements activated to show 12:00 hours in a typical time-keeping mode;

FIG. **4** is a front elevational view thereof with specific elements activated to show 07 hours and 56 minutes in a typical timekeeping mode;

FIG. **5** is a front elevational view thereof with specific elements activated to show 08 hours and 39 minutes in a typical timekeeping mode;

FIG. **6** is a front elevational view thereof with specific elements activated to show January 1st in a typical calendar mode;

FIG. **7** is a front elevational view thereof with specific elements activated to show December 25th in a typical calendar mode; and,

FIG. **8** is a front elevational view thereof with specific elements activated to show September 17th in a typical calendar mode.
