(57) **CLAIM**

The ornamental design for a therapeutic laser light emitting device, as shown.

DESCRIPTION

The subject matter of the present design relates to a laser light emitting device, and in particular to a device for irradiating the human body or parts thereof with biostimulative, low-level red laser light.

FIG. 1 is a top perspective view of the therapeutic laser light emitting device of the present invention;

FIG. 2 is a side view of the therapeutic laser light emitting device; and,

FIG. 3 is a bottom perspective view of the therapeutic laser light emitting device.
