(57) **CLAIM**

The ornamental design for a front panel for a circuit sled module, as shown and described.

DESCRIPTION

The present invention comprises a front panel for a circuit sled module. It is used to assist in the insertion and extraction of a circuit sled module from a mount or tray which holds several such circuit sled modules.

FIG. 1 shown a front panel attached to a circuit sled module.

FIG. 2 shows a front panel for a circuit sled module viewed from the back.

FIG. 3 shows a front panel for a circuit sled module viewed from the right side.

FIG. 4 shows a front panel for a circuit sled module viewed from the top.

FIG. 5 shows a front panel for a circuit sled module viewed from the front.

FIG. 6 shows a front panel for a circuit sled module viewed from the bottom.

FIG. 7 shows a front panel for a circuit sled module viewed from the left side.

FIG. 8 shows a perspective view of a front panel for a circuit sled module viewed from the front left; and,

FIG. 9 shows a perspective view of a front panel for a circuit sled module viewed from the back right.

A front panel design, as shown in FIG. 1, attaches to a circuit sled module. The broken line showings of the circuit sled module, grounding tabs, hooks and screws are for illustrative purposes only and forms no part of the claimed design.
