(57) **CLAIM**

We claim the ornamental design for a swinging gate, as shown and described.

FIG. 1 is a top front perspective view of a swinging gate with a double U-shaped central lock showing my new design;

FIG. 2 is an enlarged front elevational view thereof with parts broken away for clarity of illustration, the rear elevational view being the mirror image thereof;

FIG. 3 is a left end elevational view thereof;

FIG. 4 is a right end elevational view thereof;

FIG. 5 is a top plan view thereof;

FIG. 6 is a bottom plan view thereof;

FIG. 7 is a top plan view thereof with the lock removed and the gate being swung on its aligned tee connector hinges;

FIG. 8 is a top plan view of an alternate embodiment with a single capped central lock; and,

FIG. 9 is a front elevational view thereof with parts broken away for clarity of illustration. The opposite gate being substantially identical, except that the connector hinges are offset towards the center of the rail, as illustrated to the right side of the center post lock.

The broken lines are for illustrative purposes only and form no part of the claimed design.
