CLAIM

The ornamental design for a structural member, as shown and described.

DESCRIPTION

FIG. 1 is a left hand side perspective view of a structural member of the right hand side perspective view being a mirror image thereof;  
FIG. 2 is a front view of the member of FIG. 1, the rear view being the same as the front view;  
FIG. 3 is a right side view of the member of FIG. 1, the left side view being the same as the right side view; and,  
FIG. 4 is a top plan view of the member of FIG. 1, the bottom plan view being the same as the top plan view.  
The structural member is broken in the center to indicate indeterminate length.
