(57) **CLAIM**

We claim the ornamental design for an agitator auger flighting, substantially as shown.

DESCRIPTION

FIG. 1 is a perspective view of the agitator auger flighting, showing a tapered barrel in phantom lines and forming no part of the claimed design.

FIG. 2 is a front elevational view of the agitator auger flighting design, showing the tapered barrel in phantom lines.

FIG. 3 is a side elevational view taken from the left side of FIG. 2.

FIG. 4 is a rear elevational view taken from the rear of FIG. 2.

FIG. 5 is a side elevational view taken from the left side of FIG. 2.

FIG. 6 is a top plan view thereof.

FIG. 7 is a bottom plan view thereof.

FIG. 8 is a modified form of the design showing the agitator auger flighting and showing a cylindrical auger barrel in phantom lines and forming no part of the claimed design.

FIG. 9 is a front elevational view thereof.

FIG. 10 is a side elevational view taken from the right of FIG. 9.

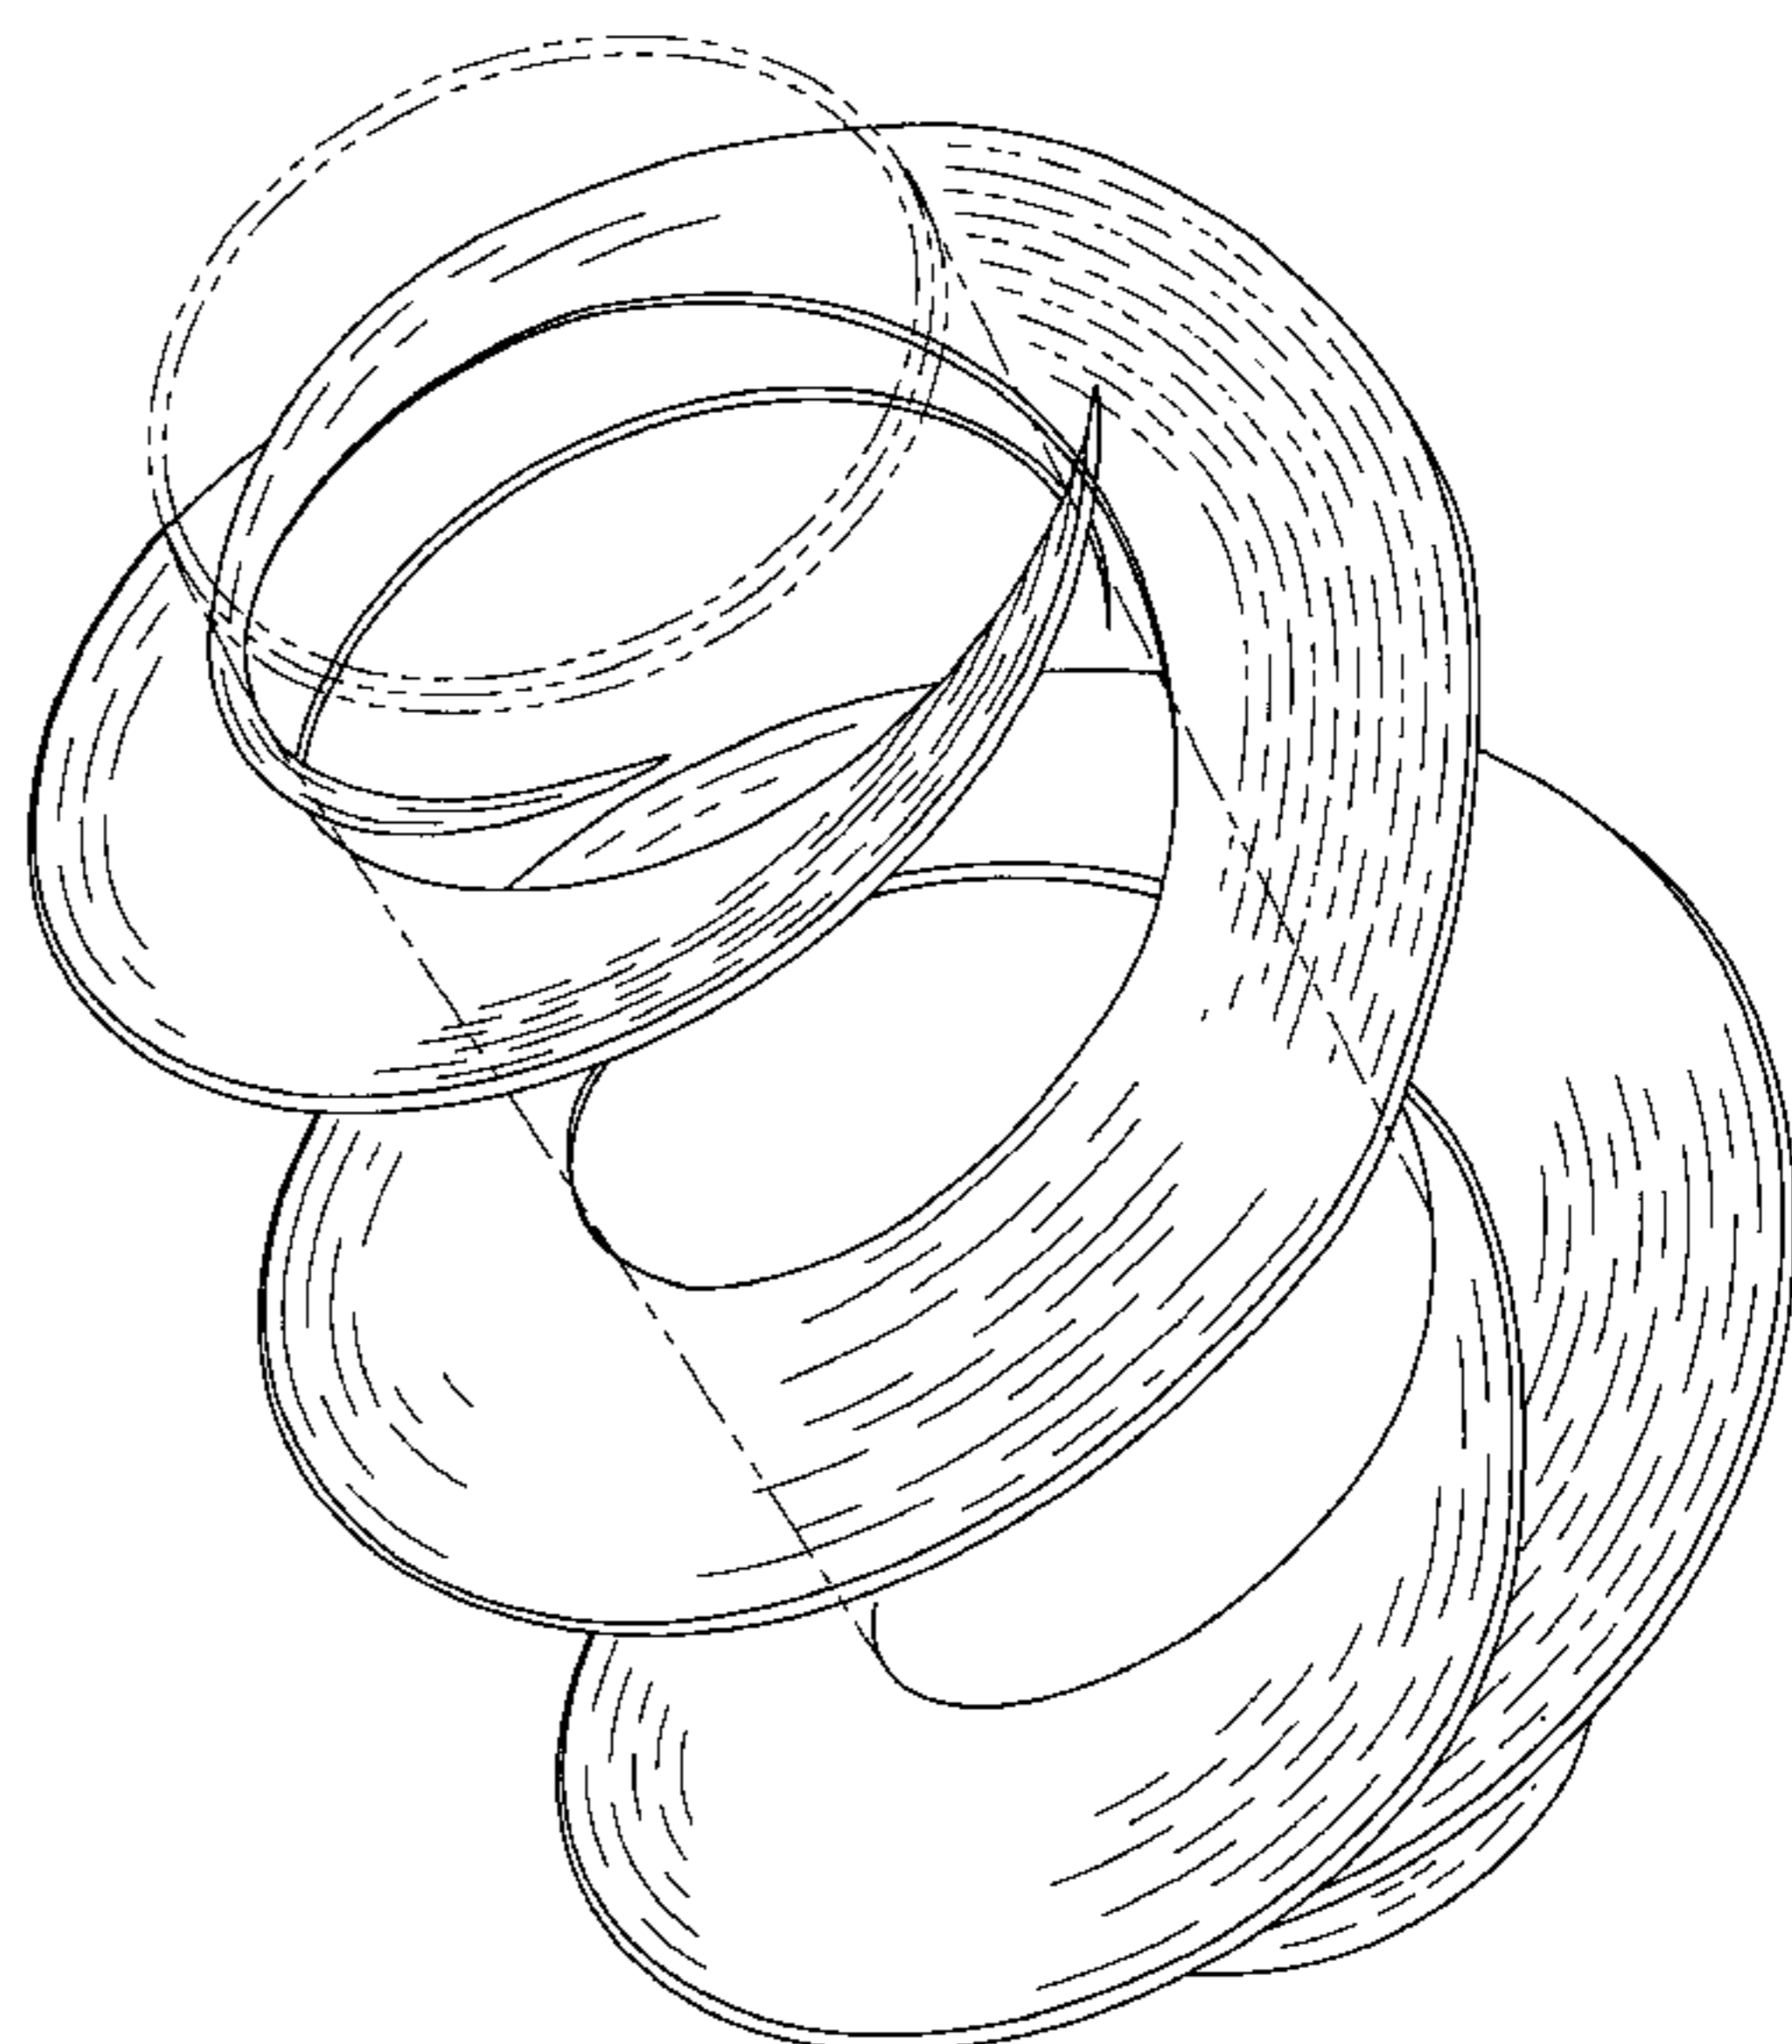

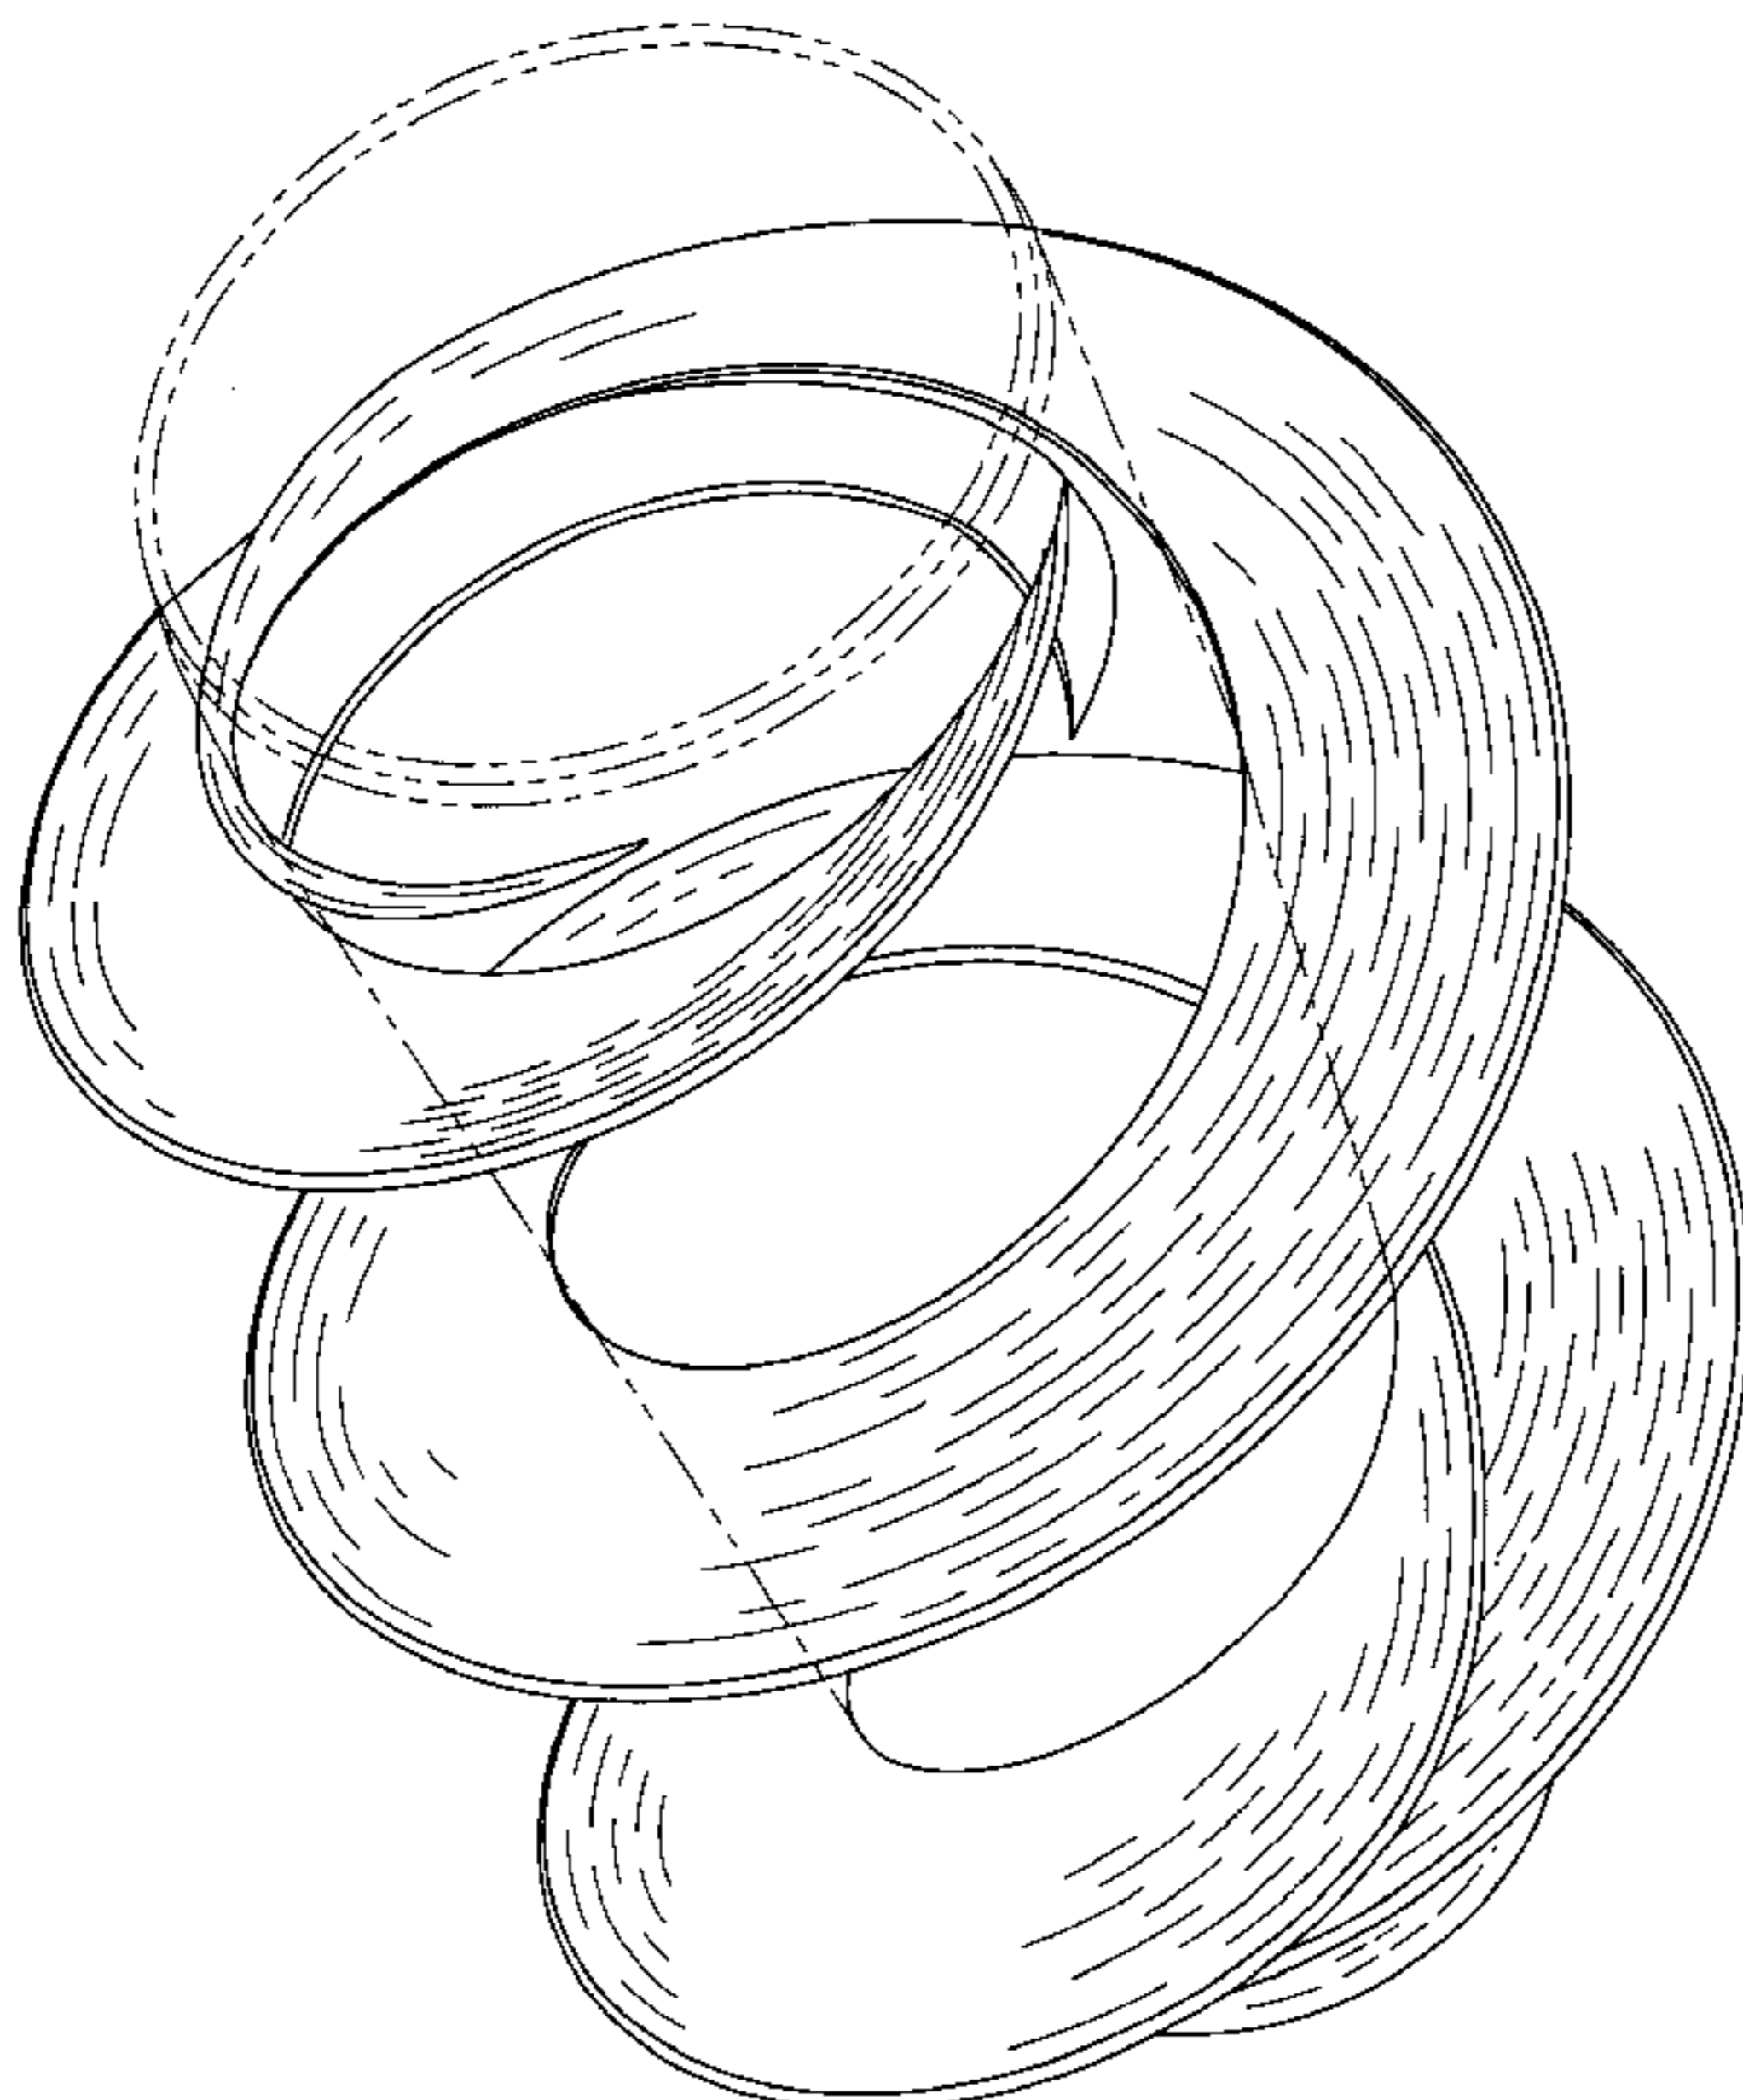

FIG. 11 is a side elevational view taken from the left of FIG. 9.

FIG. 12 is a rear elevational view taken from the rear of FIG. 9.

FIG. 13 is a top plan view thereof; and,

FIG. 14 is a bottom plan view thereof.
