(57) **CLAIM**

The ornamental design for an electrical interconnect having an integral resilient portion, as shown and described.

DESCRIPTION

This patent application is related to a patent application of the same applicant entitled “Electrical Interconnect having an Integral Helically Shaped Resilient Portion” simultaneously filed and copending with this application.

FIG. 1 is a top front perspective view of an electrical interconnect having an integral resilient portion showing my new design.

FIG. 2 is a side elevational view thereof.

FIG. 3 is a top elevational view thereof; and,

FIG. 4 is a bottom elevational view thereof.
