(57) CLAIM

The ornamental design for a camouflage pattern applied to material, as shown and described.

DESCRIPTION

The FIGURE is a top plan view of a camouflage pattern applied to material showing my new design. The broken line about the outer perimeter depicts the material to which the camouflage pattern is applied and is not part of the design. The vertical dashed lines represent the repeating unit of the pattern and are not part of the design. The vertical and horizontal sinusoidal shaped white lines, which are not part of the claimed design, indicate that the design continues indeterminately in both length and width.
