DESCRIPTION

FIG. 1 is a perspective view of an enclosure for computer and audio visual cables concealable in a table top in an open position. The broken lines are to illustrate an environment only and form no part of the claimed design.

FIG. 2 is a perspective view thereof in a concealed position. The broken lines are to illustrate an environment only and form no part of the claimed design.

FIG. 3 is a front elevational view thereof in the open position. The broken lines are to illustrate an environment only and form no part of the claimed design.

FIG. 4 is a right side elevational view thereof in the open position, a left side elevational view thereof in the open position is a mirror image of the right side elevational view thereof in the open position. The broken lines are to illustrate an environment only and form no part of the claimed design; and,

FIG. 5 is a top plan view thereof in the concealed position. The appearance of the bottom forms no part of the claimed design.
