(57) CLAIM

The ornamental design for a chair, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material which is subject to copyright protection. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but otherwise reserves all copyright and trade dress rights whatsoever.

FIG. 1 is a perspective view of my design for a chair, made to look as if it were principally made out of bows and arrows supporting a sling seat.

FIG. 2 is a left side view thereof, the opposite side being mirror image thereof.

FIG. 3 is a front view thereof.

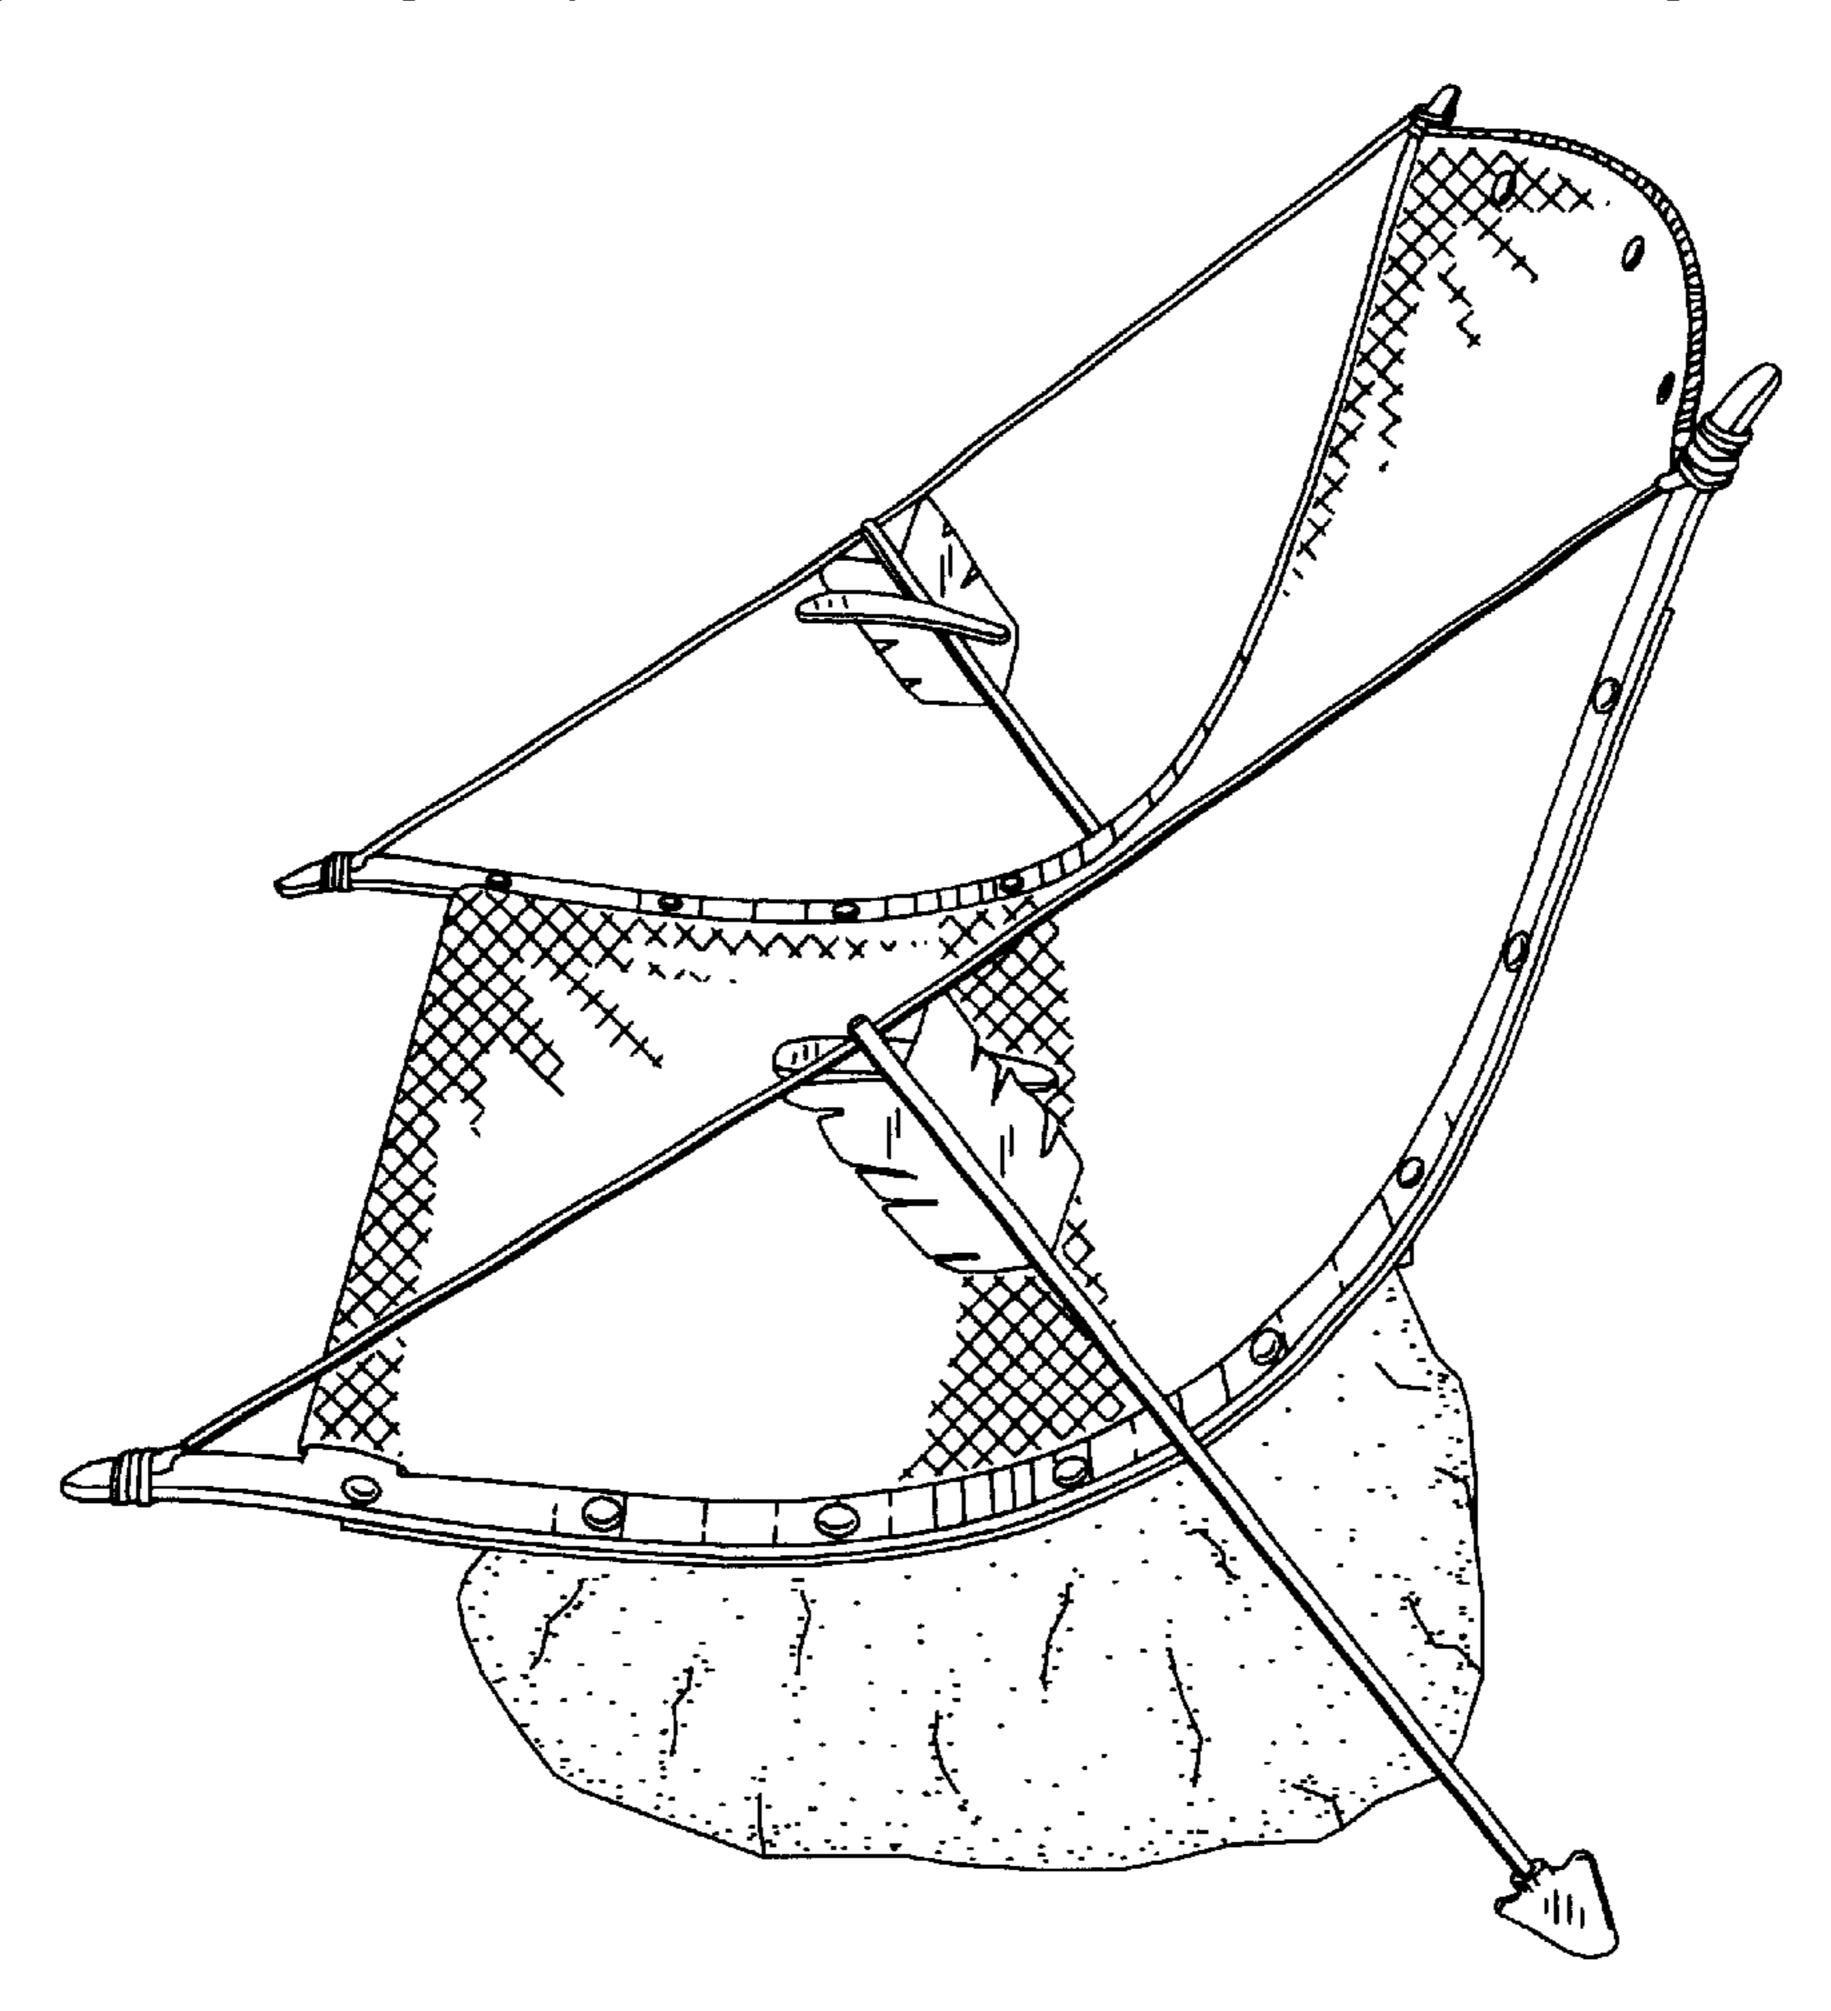

FIG. 4 is a rear view thereof.

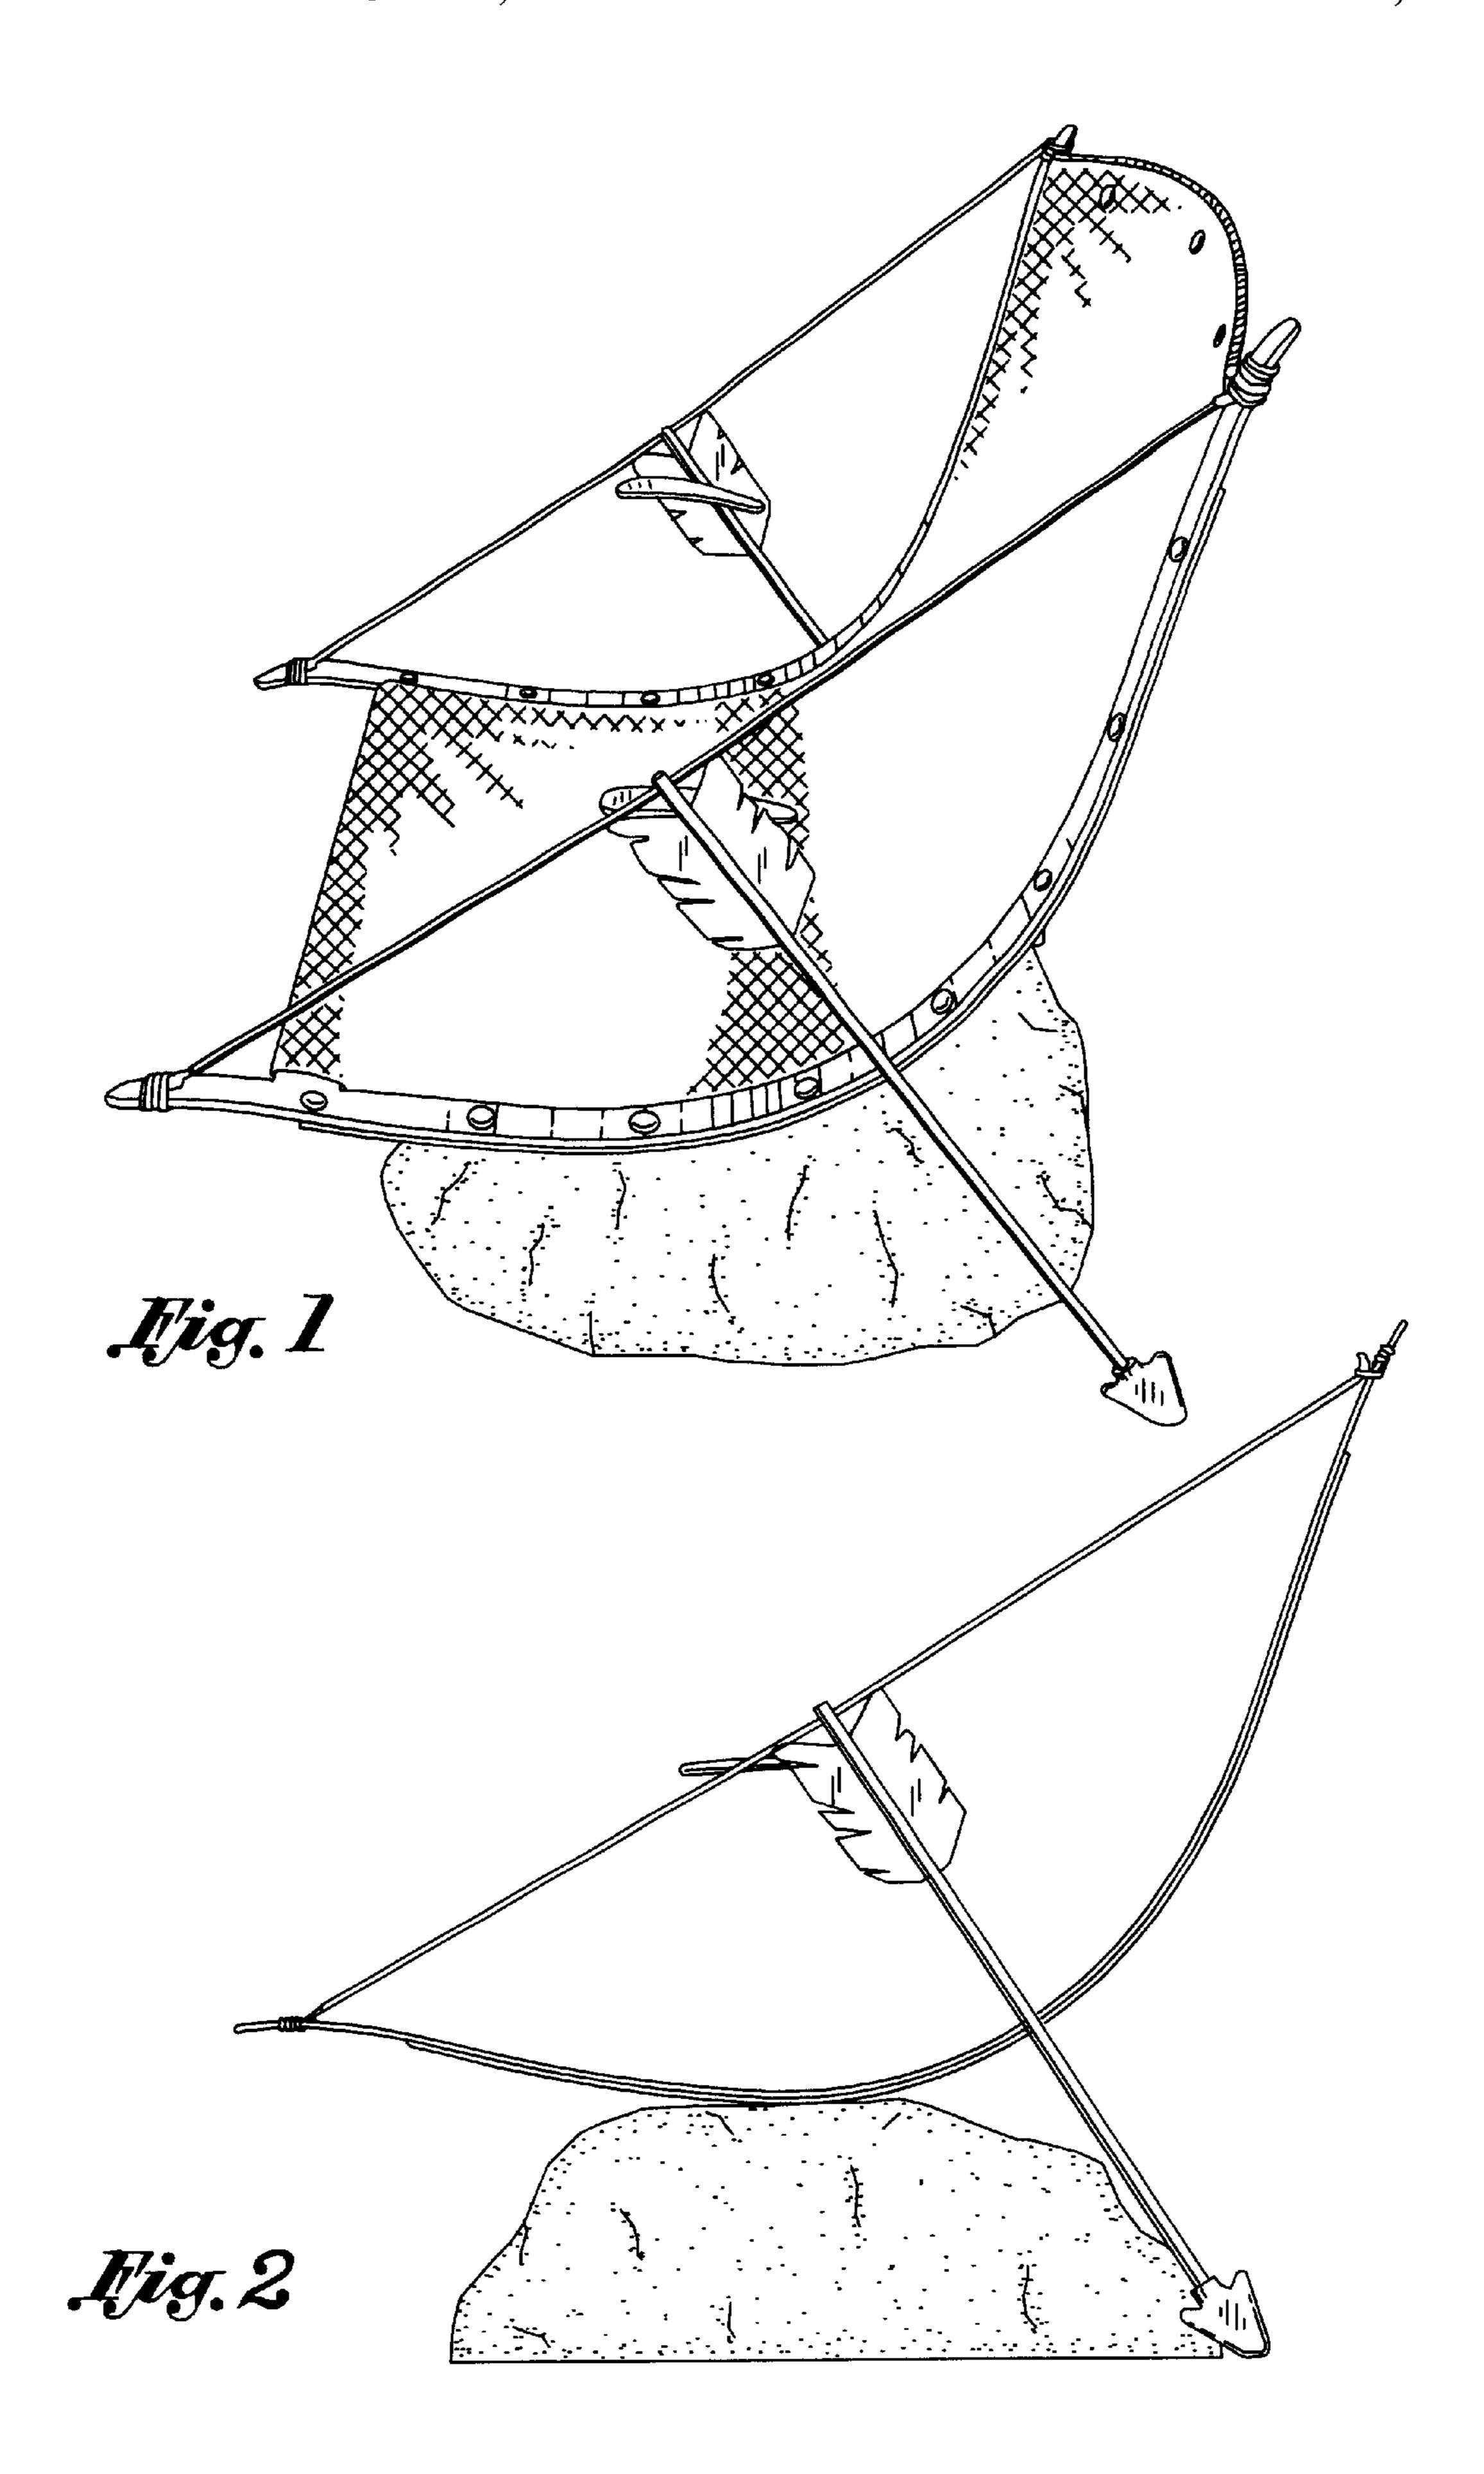

FIG. 5 is a top view thereof; and,

FIG. 6 is a bottom view thereof.

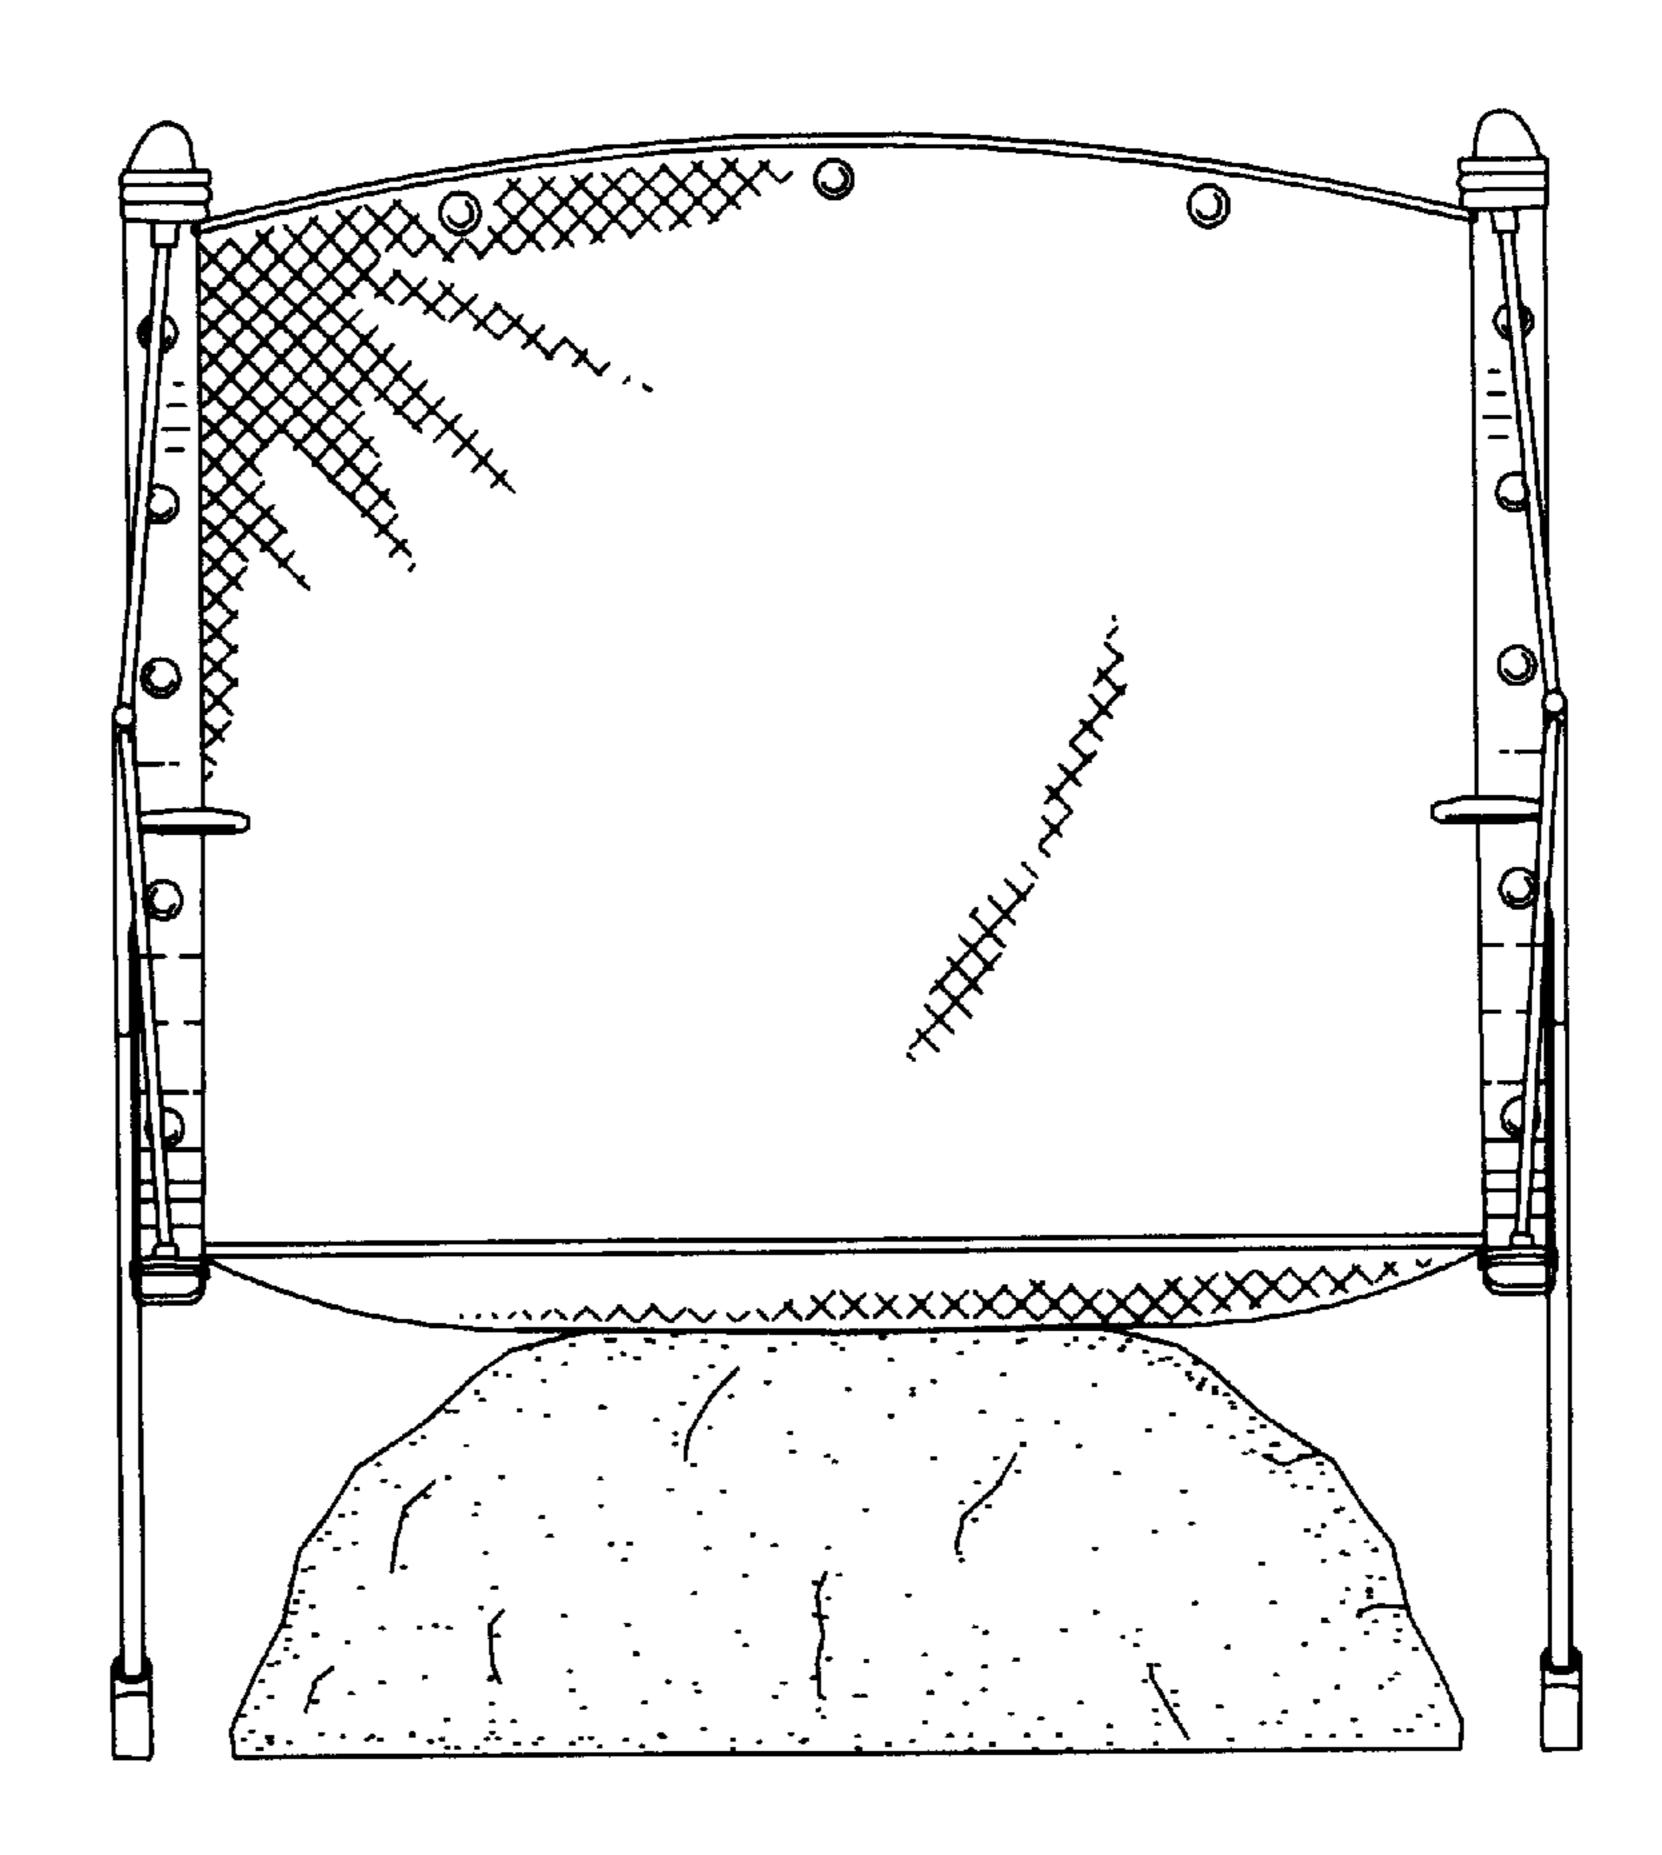

The fragmented cross-hatching shown on the sling seat is understood to represent fabric and would be continuous though the circumscribed area.
