(57) **CLAIM**

The ornamental design for a line locator, as shown and described.

DESCRIPTION

FIG. 1 is a left side top view of an embodiment of a line locator according to the present invention.

FIG. 2 is a back view of an embodiment of a line locator according to the present invention.

FIG. 3 is a side view of an embodiment of a line locator according to the present invention, the opposite side being the mirror image of the side shown in this Figure.

FIG. 4 is a front view of an embodiment of a line locator according to the present invention.

FIG. 5 shows a top view of an embodiment of a line locator according to the present invention.

FIG. 6 shows a bottom view of an embodiment of a line locator according to the present invention; and,

FIG. 7 shows a left side top view of a line locator according to another embodiment of the present invention where the line locator is colored, for example orange and black, with the shaded and light regions indicating the coloration, for example the shaded is orange.
