(57) **CLAIM**

The ornamental design for a mesh drawer, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a first, embodiment of a mesh drawer showing our new design;

FIG. 2 is a front view thereof;

FIG. 3 is a rear view thereof;

FIG. 4 is a right side view thereof, the left side view being identical thereto;

FIG. 5 is a top view thereof;

FIG. 6 is a bottom view thereof;

FIG. 7 is a partial, enlarged view of a corner of the mesh drawer of FIG. 1, wherein the frame and mesh material visible through the corner have been removed for clarity;

FIG. 8 is a perspective view of a second, embodiment of a mesh drawer showing our new design;

FIG. 9 is a perspective view of a third, embodiment of a mesh drawer showing our new design;

FIG. 10 is a perspective view of a fourth, embodiment of a mesh drawer showing our new design; and,

FIG. 11 is an enlarged view of an exemplary mesh used in the embodiments of FIGS. 1–10.

The jagged broken lines surrounding a U-shaped opening in FIGS. 1, 2, and 9 in the drawings, indicating that no particular handle shape is being claimed in those figures, represent boundaries of the designs claimed in those figures and form no part of the claimed design. The pair of adjacent, spaced jagged broken lines in the drawings form no part of the claimed design and the portions between such pairs of jagged, broken lines are broken away to disclose indeterminate length. In the drawings, the mesh material that may be visible through each U-shaped opening, the corner openings, and the holes in the mesh is not shown for clarity.
