(57) **CLAIM**

The ornamental design for a work surface support assembly, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the work surface support assembly showing our new design, wherein two illustrative work surfaces and an end panel for supporting one end of the assembly are illustrated in phantom to depict an illustrative environment but form no part of the claimed design;

FIG. 2 is a plan view of the work surface support assembly of FIG. 1;

FIG. 3 is a side, elevational view of the work surface support assembly of FIG. 1, the other side elevational view being a mirror image;

FIG. 4 is a bottom view of the work surface support assembly of FIG. 1;

Fig. 5 is a front, elevational view of the work surface support assembly of FIG. 1;

FIG. 6 is a rear, elevational view of the work surface support assembly of FIG. 1; and,

FIG. 7 is an enlarged, partial rear, elevational view of the work surface support assembly of FIG. 1.
