(57) **CLAIM**

A novel design for string-enclosing tubes for a sports racquet, as shown and described.

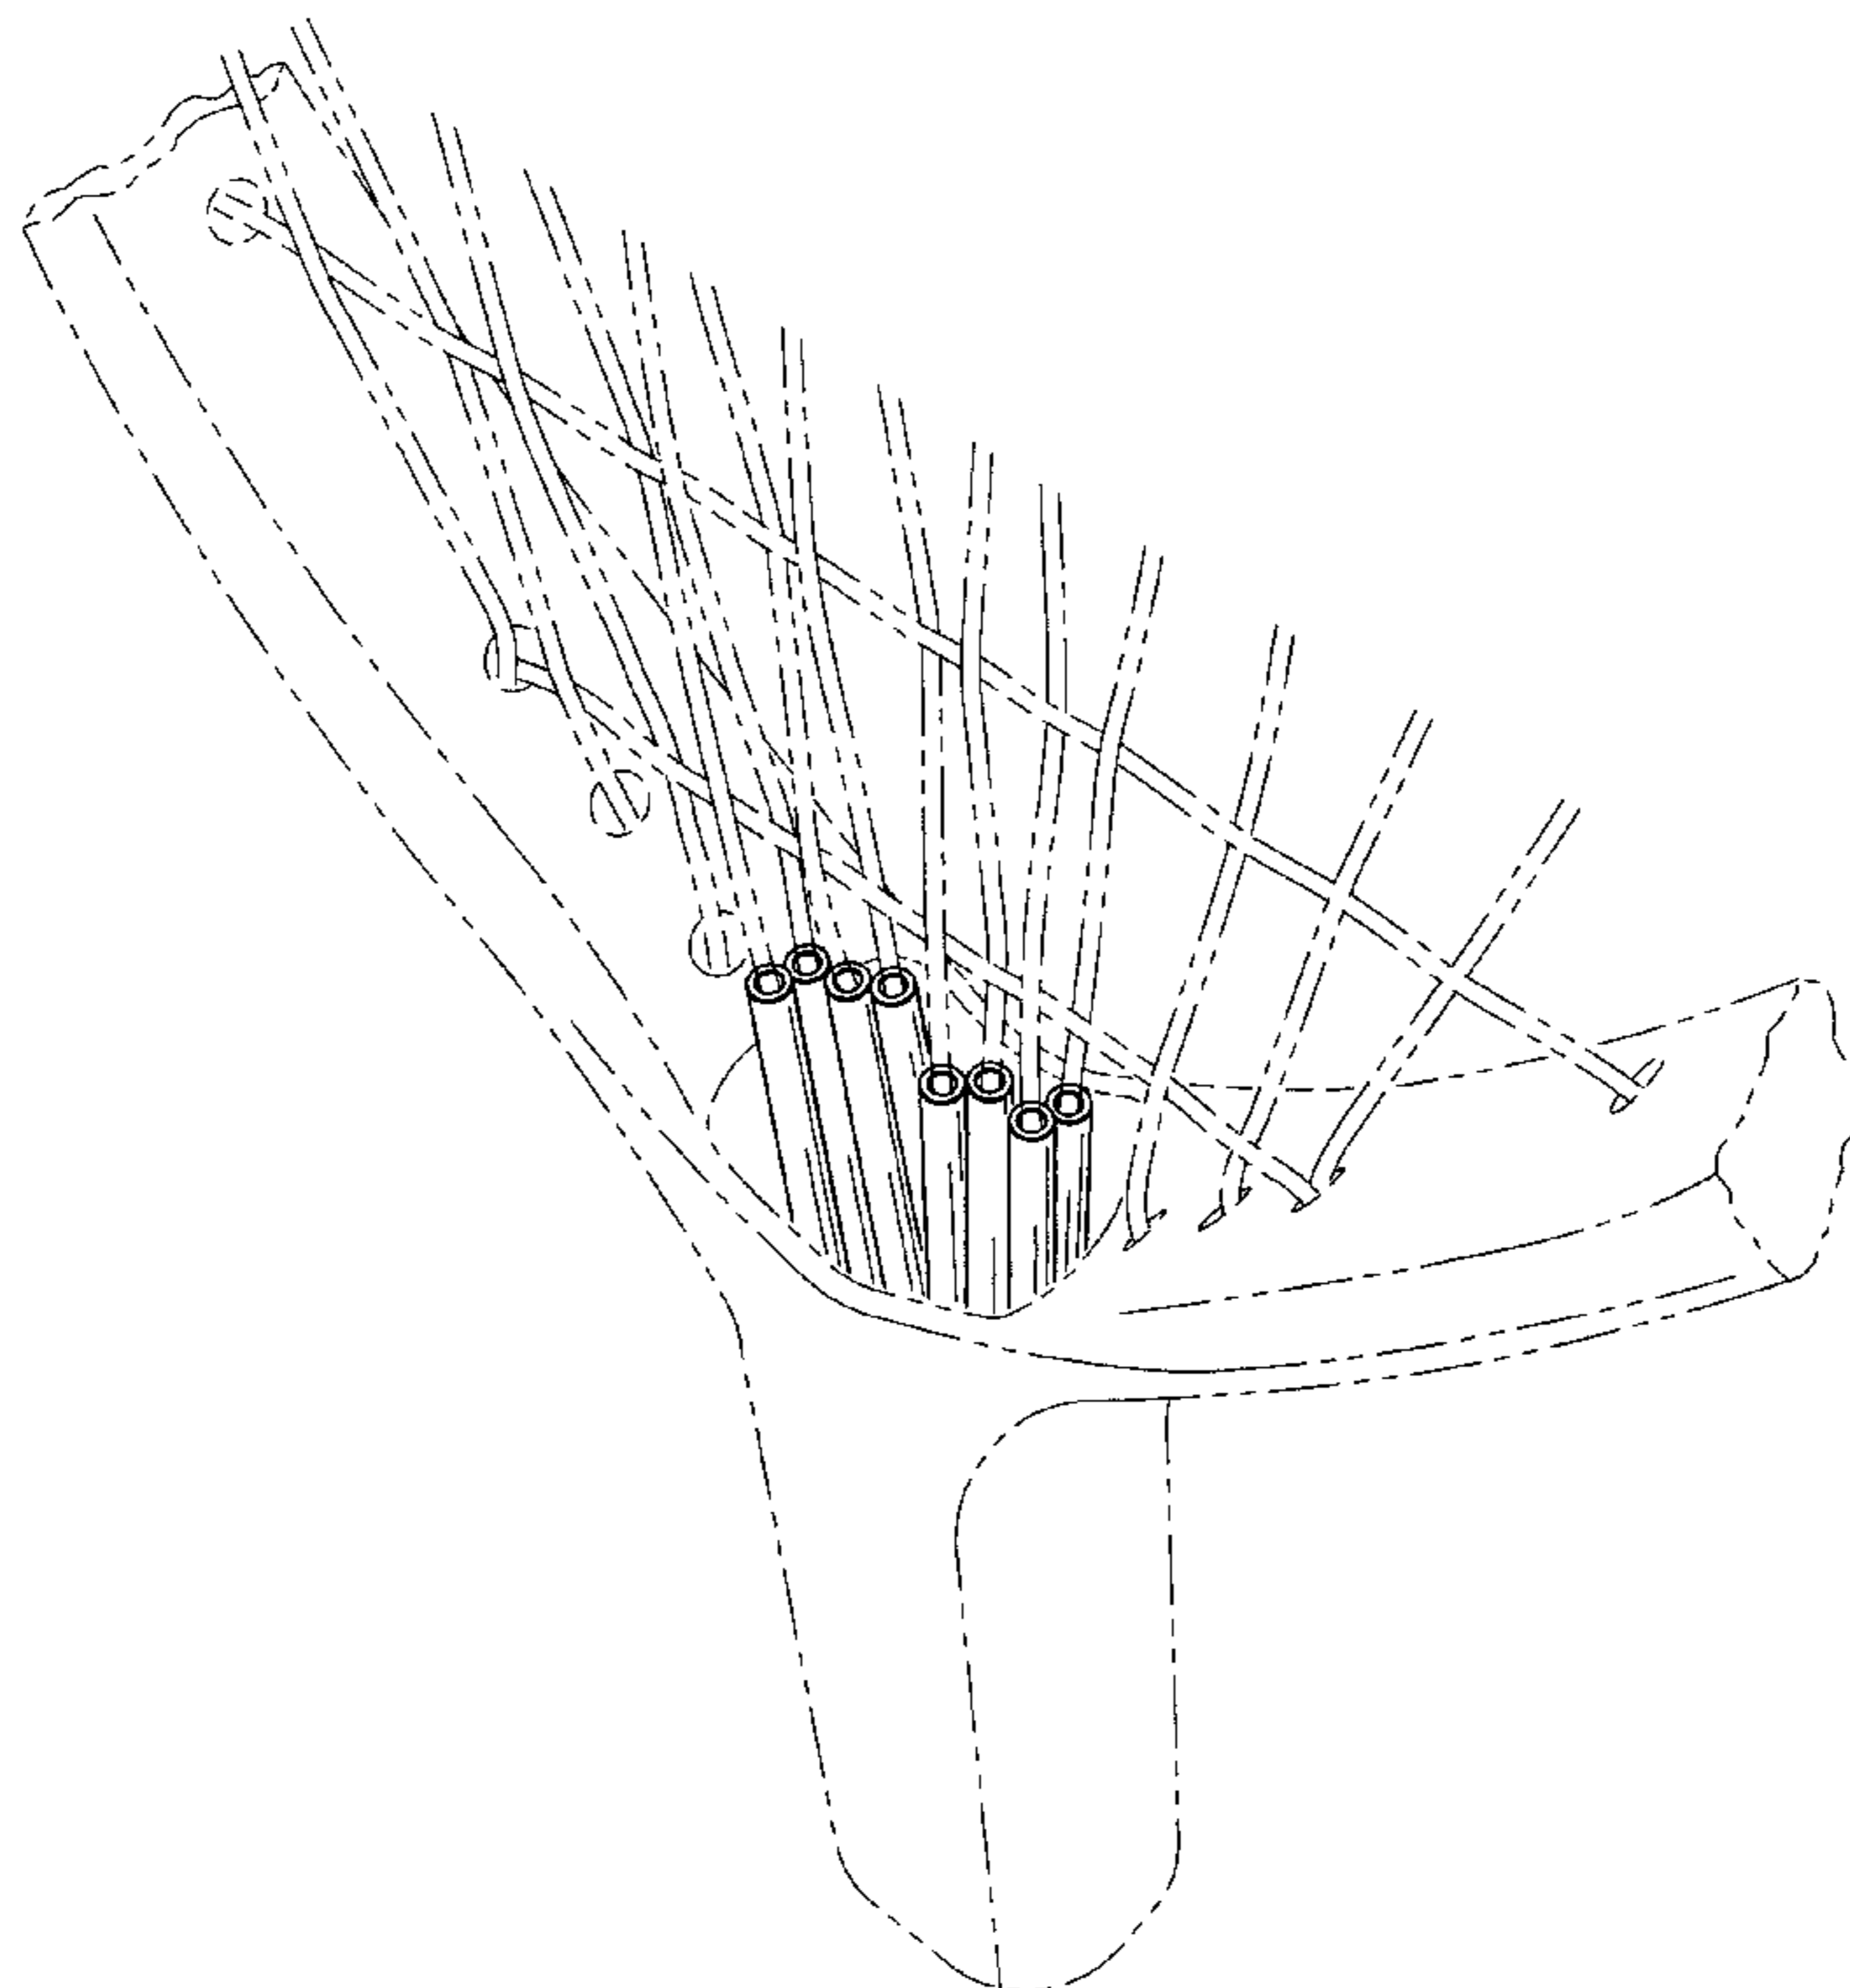

DESCRIPTION

FIG. 1 is a top perspective view of my design, environmental structure herein being shown in phantom line and forming no part of my design, a rear elevational view being substantially identical in mirror image to the front elevational view; and,

FIG. 2 is a front elevational view of my design.

Top and side views of the design are occluded by environmental structure and are not seen by the ordinary observer. The bottom is unadorned and forms no portion of my design.
