(57) **CLAIM**

The ornamental design for a sphere holder, as shown and described.

**DESCRIPTION**

A portion of the disclosure of this patent document contains material to which a claim for copyright is made. The

copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but reserves all other copyrights whatsoever.

The intended use of said sphere holder is to hold and support in a decorative manner such spherical items as an electric light bulb, candle, oil lamp, etc., but not necessarily limited to such items.

FIG. 1 is a perspective view of a sphere holder showing my new design therefore;

FIG. 2 is a plan thereof;

FIG. 3 is an elevation of the front thereof;

FIG. 4 is an elevation of the right side thereof, it being understood that the left elevation is a mirror image of FIG. 4;

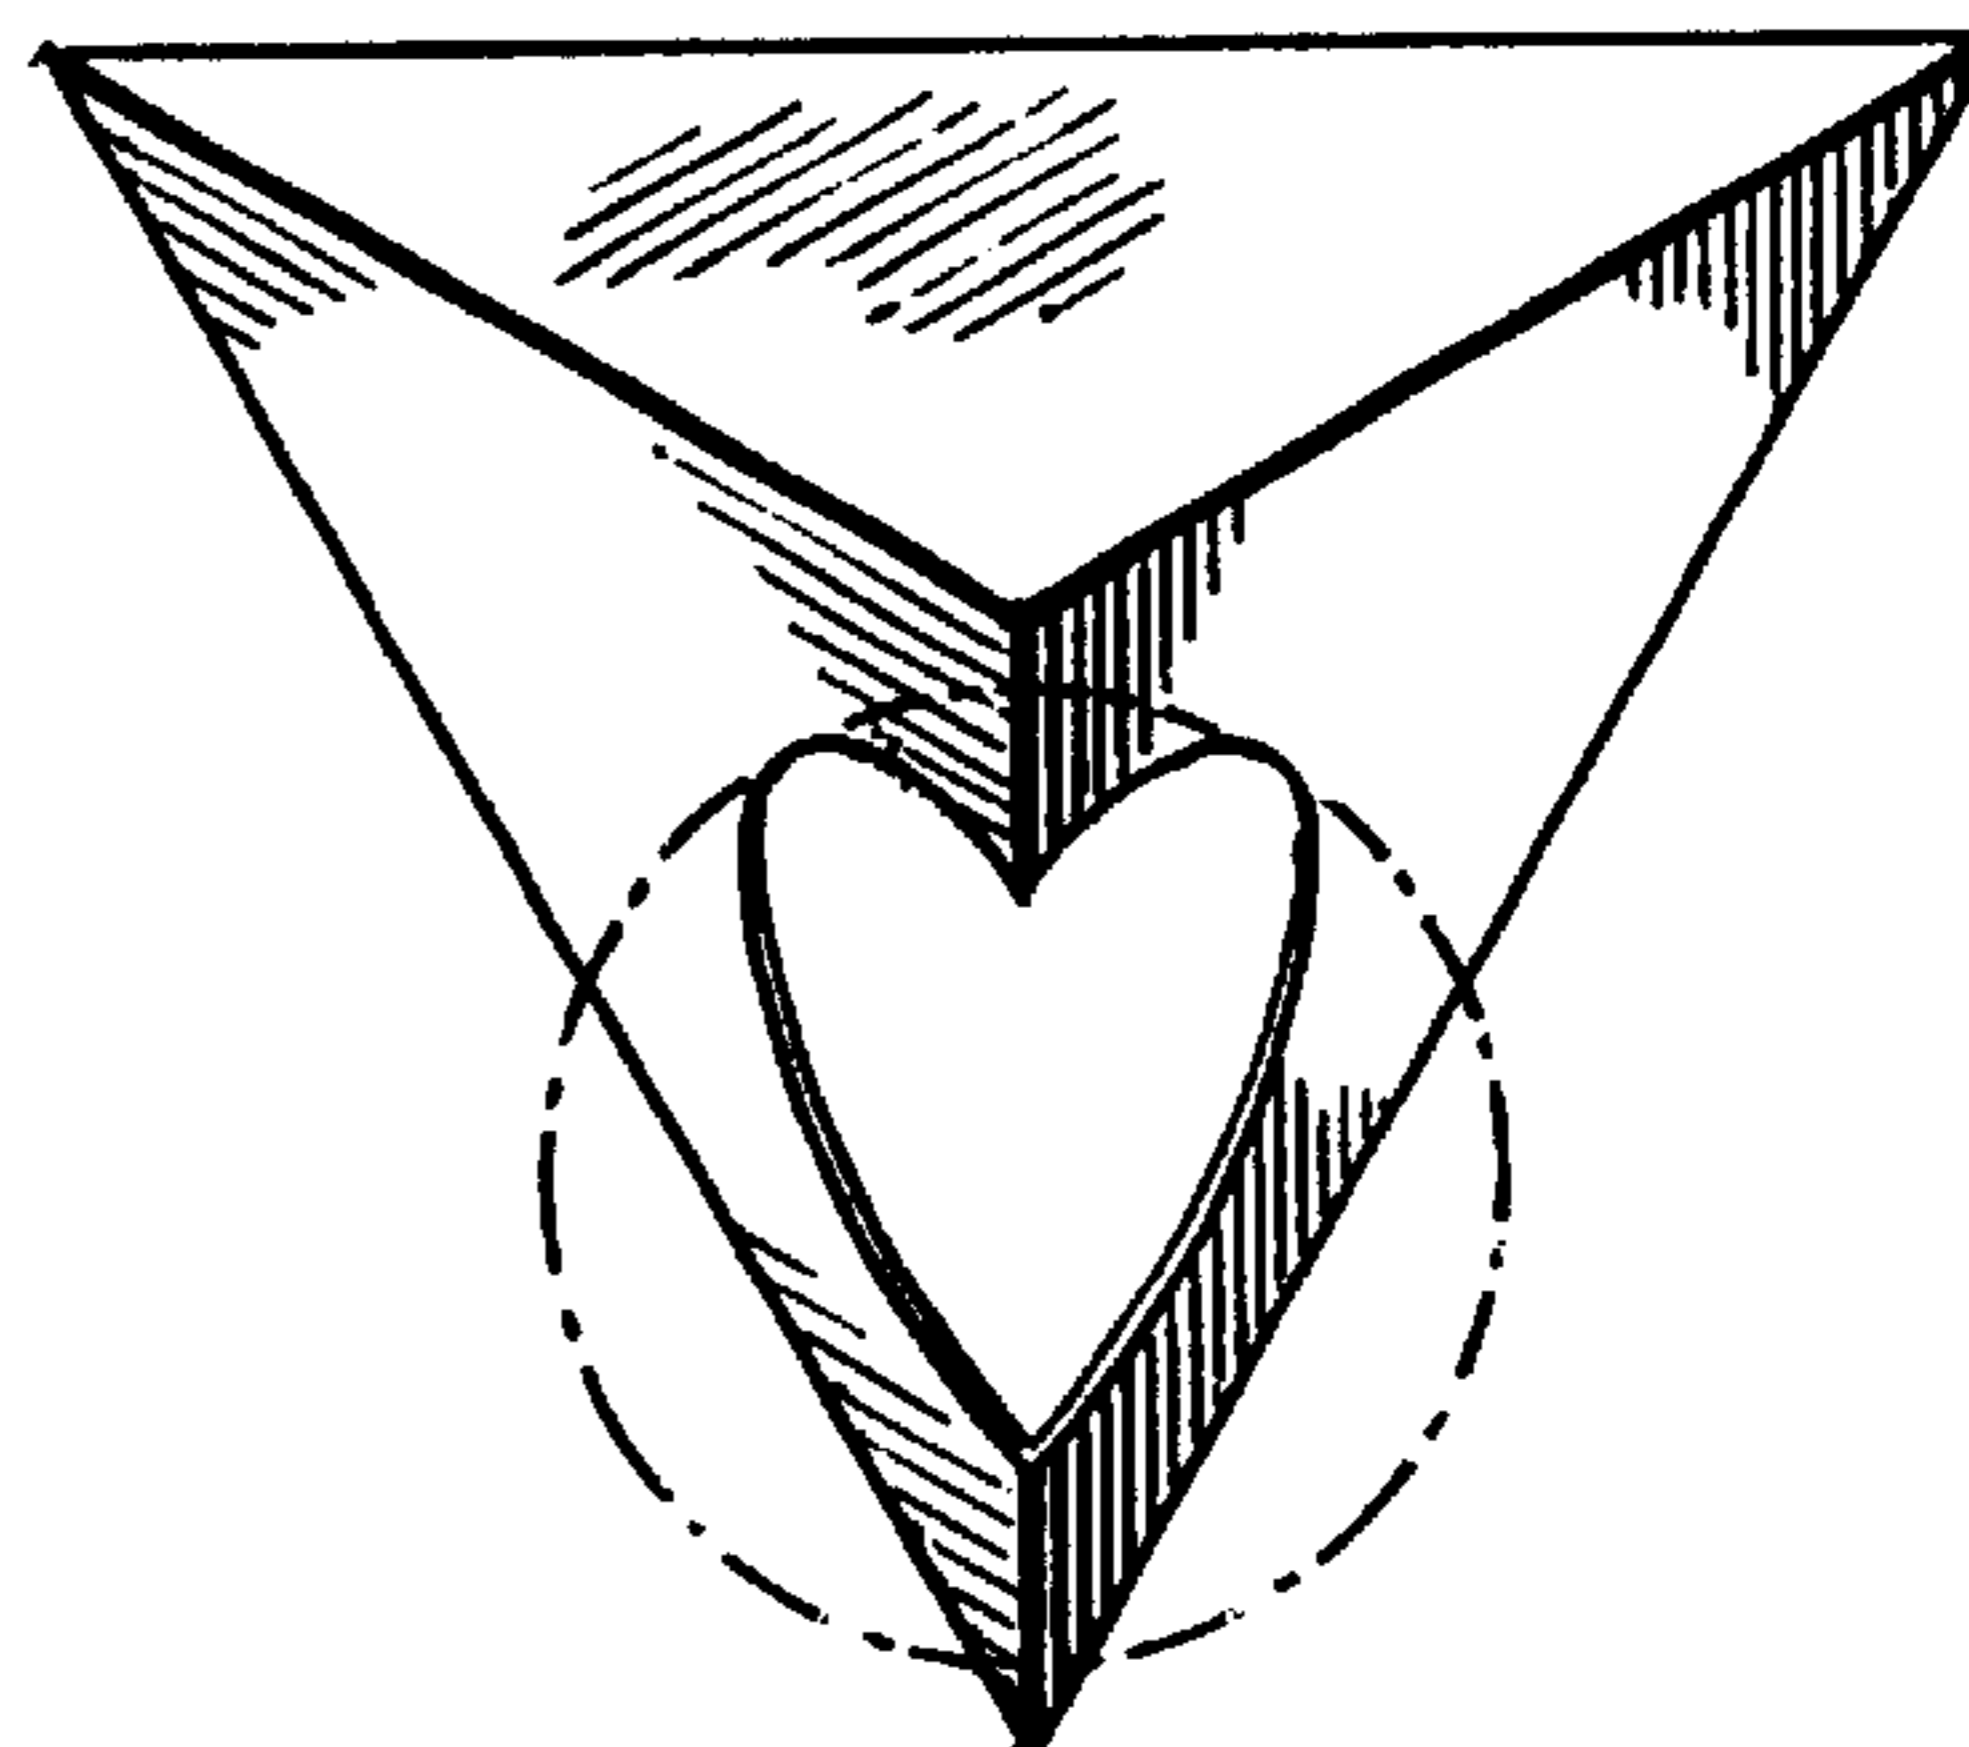

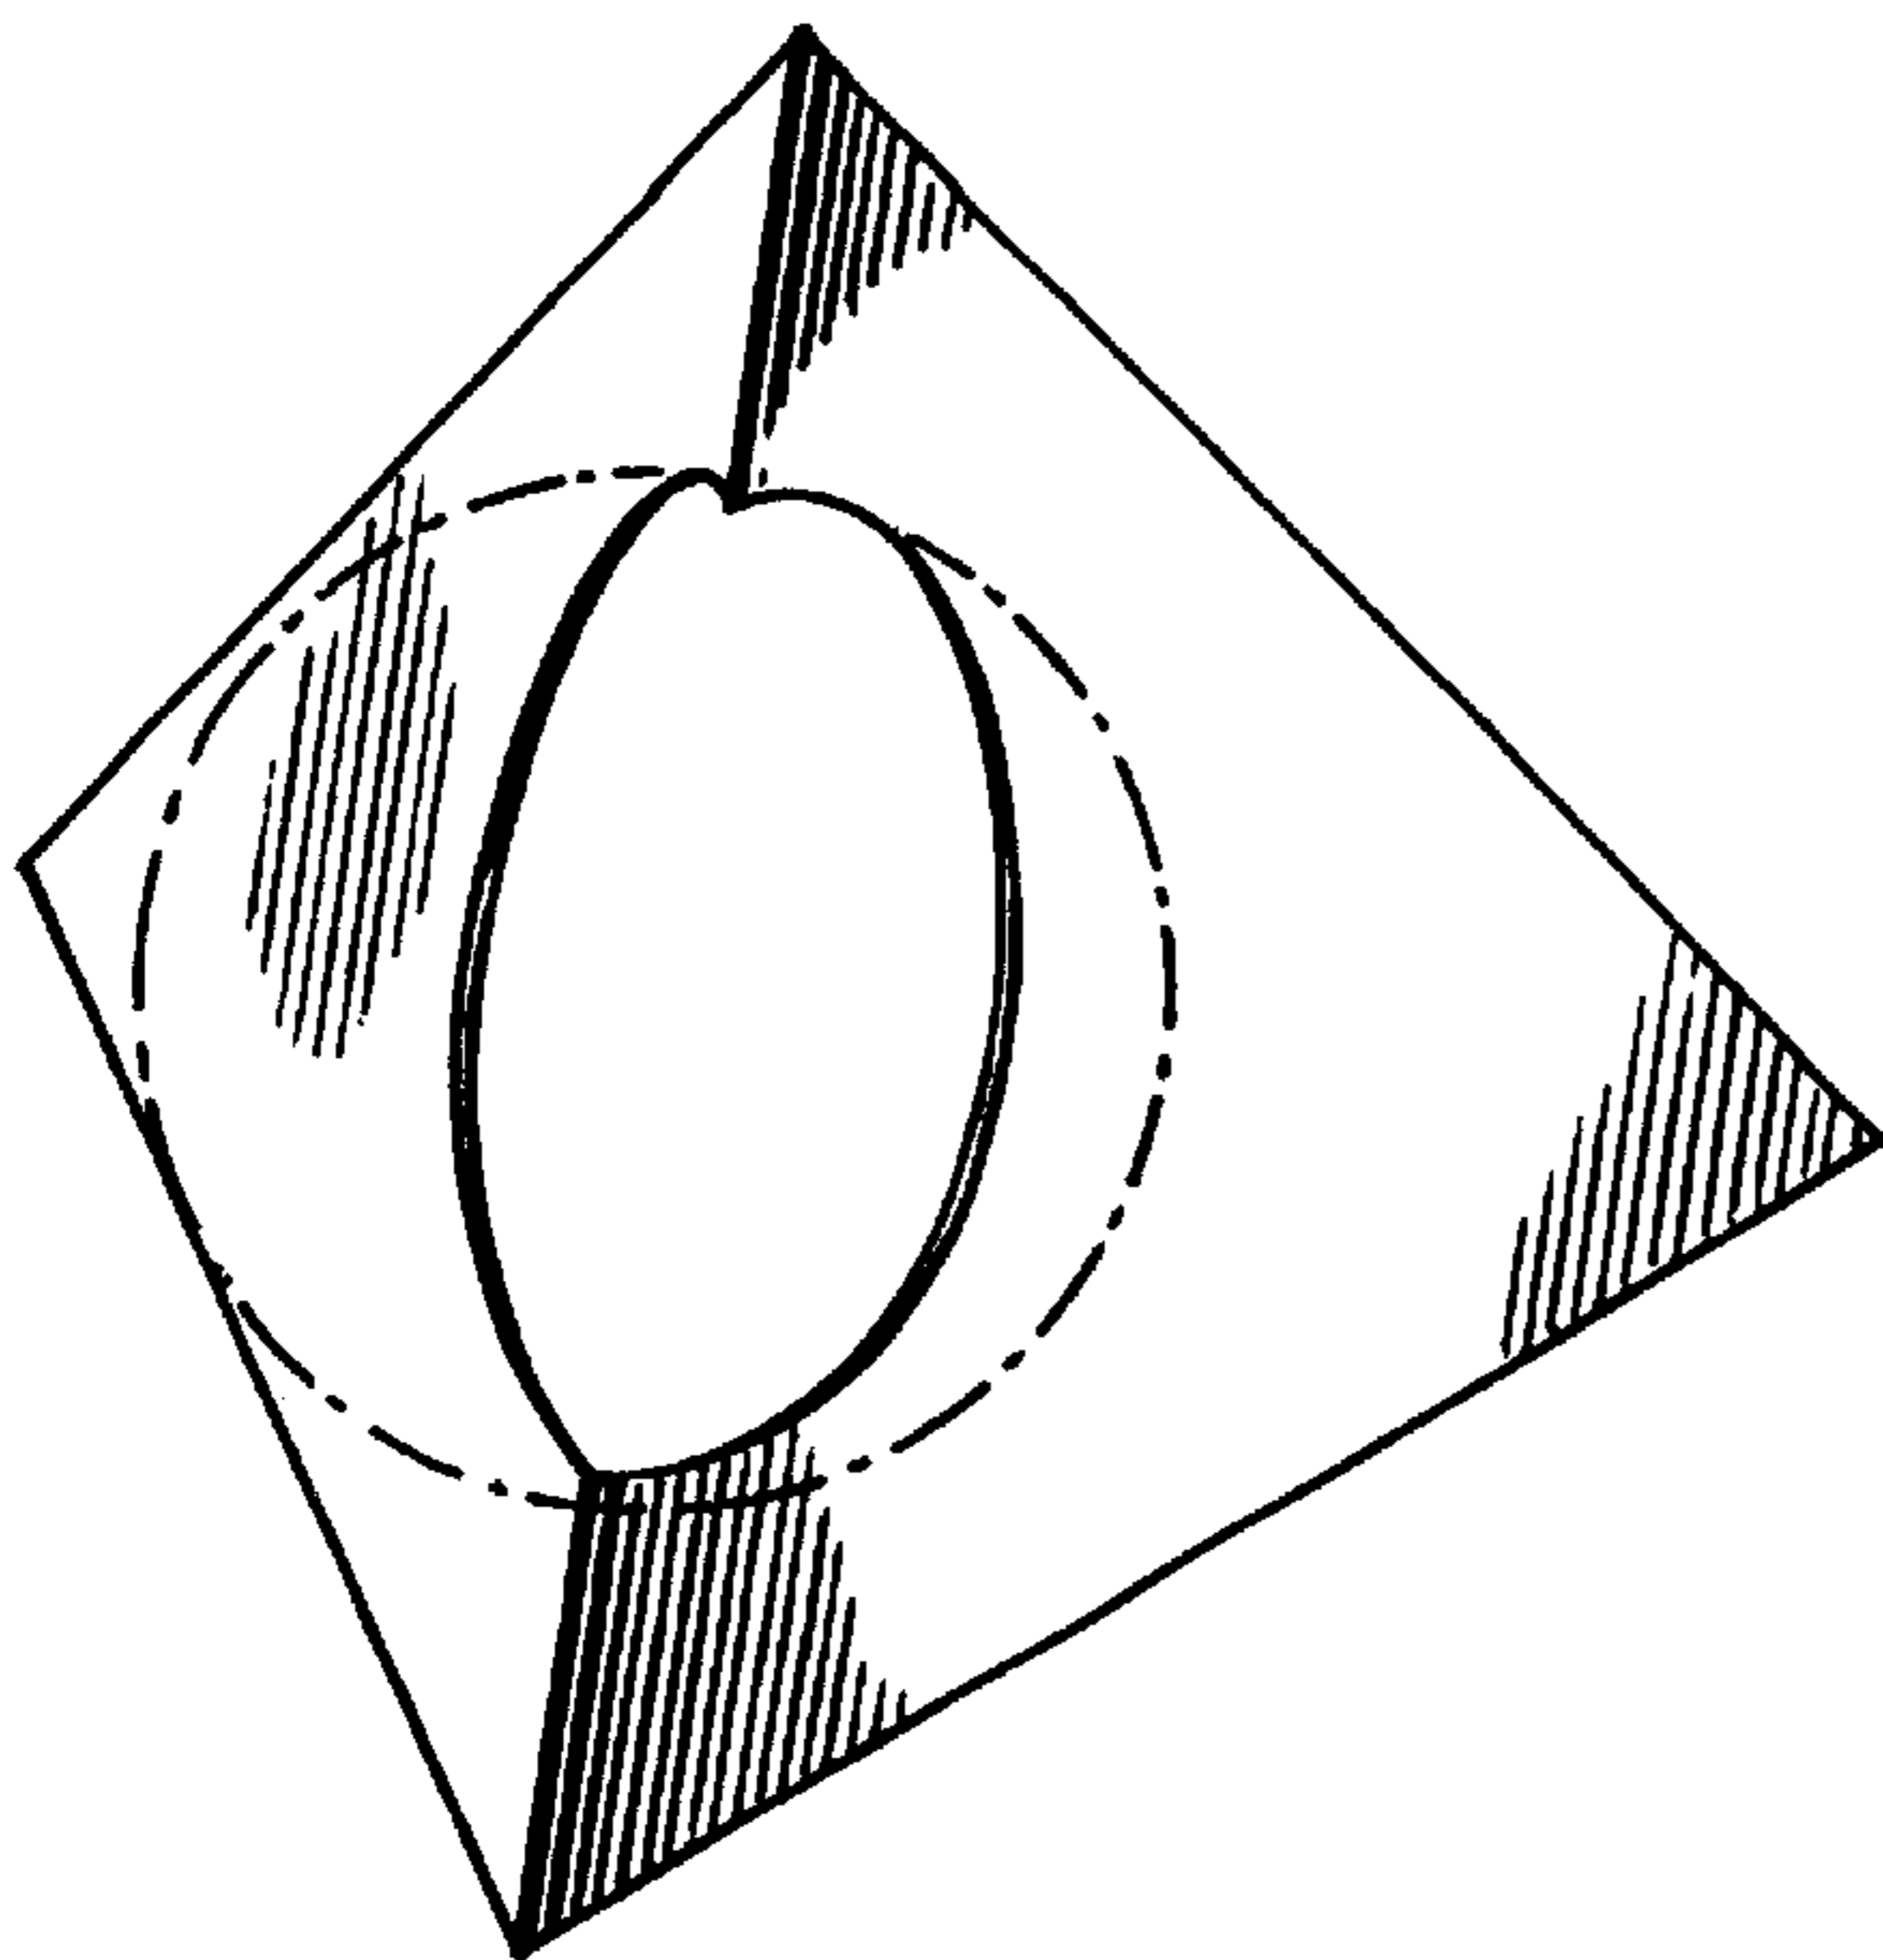

FIG. 5 is an elevation of the rear side thereof; and,

FIG. 6 is a view looking perpendicular to the plane of the right side thereof.

The dotted lines are showing the object being held and are provided for environmental purposes only and form no part of the claimed design.

The bottom view has been omitted since it is flat and unornamented.
