(57) **CLAIM**

The ornamental design for a diagnostic console, as shown and described.

**DESCRIPTION**

The diagnostic console of the present invention is used to make ultrasonic measurements of the human body, such as the eye.

FIG. 1 is a top, front, left perspective view of the diagnostic console of the present invention.

FIG. 2 is a right side elevational view of the diagnostic console of the present invention.

FIG. 3 is a left side elevational view of the diagnostic console of the present invention.

FIG. 4 is a rear elevational view of the diagnostic console of the present invention.

FIG. 5 is a front elevational view of the diagnostic console of the present invention.

FIG. 6 is a top plan view of the diagnostic console of the present invention; and,

FIG. 7 is a bottom plan view of the diagnostic console of the present invention.
