(57) **CLAIM**

We claim the ornamental design for a dome stake tiedown, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view looking downwardly toward the top, front side, and left side of the dome stake tiedown

according to a first embodiment of the present invention;

FIG. 2 is a front elevation of the dome stake tiedown depicted in FIG. 1;

FIG. 3 is a right side elevation of the dome stake tiedown depicted in FIG. 1;

FIG. 4 is a rear elevation of the dome stake tiedown depicted in FIG. 1;

FIG. 5 is a left side elevation of the dome stake tiedown depicted in FIG. 1;

FIG. 6 is a top plan view of the dome stake tiedown depicted in FIG. 1;

FIG. 7 is a bottom plan view of the dome stake tiedown depicted in FIG. 1;

FIG. 8 is an isometric view looking downwardly toward the top, front side, and left side of the dome stake tiedown according to a second embodiment of the present invention;

FIG. 9 is a top plan view of the dome stake tiedown depicted in FIG. 8;

FIG. 10 is a bottom plan view of the dome stake tiedown depicted in FIG. 8, wherein the front elevation, the right side elevation, the rear elevation, and the left side elevation are similar in appearance to FIGS. 2-5, respectively;

FIG. 11 is an isometric view looking downwardly toward the top, front side, and left side of the dome stake tiedown according to a third embodiment of the present invention;

FIG. 12 is a top plan view of the dome stake tiedown depicted in FIG. 11; and,

FIG. 13 is a bottom plan view of the dome stake tiedown depicted in FIG. 11, wherein the front elevation, the right side elevation, the rear elevation, and the left side elevation are similar in appearance to FIGS. 2-5, respectively.
