(57) **CLAIM**

The ornamental design for a remote control leash, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a remote control leash showing my new design.

FIG. 2 is a rear view of the remote control leash.

FIG. 3 is a top view of the remote control leash.

FIG. 4 is a side view of the remote control leash;

FIG. 5 is an opposite side view of the remote control leash; and,

FIG. 6 is a perspective view of the remote control leash.

The broken line showing of the remote control is for illustrative purposes only and forms no part of the claimed design. The leash portion of the remote control leash is shown broken away to indicate indeterminate length.
