(57) **CLAIM**

The ornamental design for a footswitch, as shown and described.

DESCRIPTION

FIG. 1 is a top, rear, right perspective view of the footswitch of the present invention.

FIG. 2 is a top plan view of the footswitch of the present invention.

FIG. 3 is a bottom plan view of the footswitch of the present invention.

FIG. 4 is a right side elevational view of the footswitch of the present invention.

FIG. 5 is a front elevational view of the footswitch of the present invention; and,

FIG. 6 is a rear elevational view of the footswitch of the present invention.

The footswitch of the present invention is used in combination with a surgical console used to control various pneumatic and electronic surgical tools as well as irrigation and aspiration used during ophthalmic surgery.
