(57)       **CLAIM**

The ornamental design for a surface configuration of a side mirror for a vehicle, as shown and described.

**DESCRIPTION**

This application is related to co-pending application Ser. No. 29/168,898, of the inventor, entitled “Surface Configuration of a Vehicle, Toy and/or Other Replicas.”

FIG. 1 is a perspective view from the rear of a first embodiment of a surface configuration of a side mirror for a vehicle according to my novel design;

FIG. 2 is a front view of the first embodiment of the surface configuration of a side mirror for a vehicle according to my novel design;

FIG. 3 is a rear view of the first embodiment of the surface configuration of a side mirror for a vehicle according to my novel design;

FIG. 4 is a perspective view from the side of the first embodiment of the surface configuration of a side mirror for a vehicle according to my novel design;

FIG. 5 is a top view of the first embodiment of the surface configuration of a side mirror for a vehicle according to my novel design;

FIG. 6 is a perspective view from the rear of a second embodiment of the surface configuration of a side mirror for a vehicle according to my novel design;

FIG. 7 is a front view of the second embodiment of the surface configuration of a side mirror for a vehicle according to my novel design;

FIG. 8 is a rear view of the second embodiment of the surface configuration of a side mirror for a vehicle according to my novel design;

FIG. 9 is a perspective view from the side of the second embodiment of the surface configuration of a side mirror for a vehicle according to my novel design; and,

FIG. 10 is a top view of the second embodiment of the surface configuration of a side mirror for a vehicle according to my novel design.

The broken lines included depict environment and are not part of the claimed design.
