(57) **CLAIM**
The ornamental design for a surface configuration of a front fender for a vehicle, as shown and described.

DESCRIPTION
This application is related to co-pending application Ser. No. 29/168,898, of the inventor, entitled “Surface Configuration of a Vehicle, Toy and/or Other Replicas.”
FIG. 1 is a front view of a first embodiment of a surface configuration of a front fender for a vehicle according to my novel design;
FIG. 2 is a perspective view of the first embodiment of the surface configuration of a front fender for a vehicle according to my novel design;
FIG. 3 is a perspective view of the first embodiment of the surface configuration of a front fender for a vehicle according to my novel design;
FIG. 4 is a front view of a second embodiment of the surface configuration of a front fender for a vehicle according to my novel design;
FIG. 5 is a perspective view of the second embodiment of the surface configuration of a front fender for a vehicle according to my novel design; and,
FIG. 6 is a perspective view of the second embodiment of the surface configuration of a front fender for a vehicle according to my novel design.
The broken lines included depict environment and are not part of the claimed design.
