(57) **CLAIM**

The ornamental design for table and support elements of a folding table with seats, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of table and support elements of a folding table with seats.

FIG. 2 is a top plan view of table and support elements of the folding table with seats.

FIG. 3 is a right side elevational view of table and support elements of the folding table with seats. A left side elevational view of the table and support elements of the folding table with seats is not shown as it is a mirror image of the right side elevational view.

FIG. 4 is a front elevational view of table and support elements of the folding table with seats. A rear side elevational view of the table and support elements of the folding table with seats is not shown as it is a mirror image of the front side elevational view; and,

FIG. 5 is a bottom plan view of table and support elements of the folding table with seats.

The broken lines are directed to the environmental structure defining the boundary of the claimed portions of the table and support elements and form no part of the claimed design.
