(57) **CLAIM**

The ornamental design for a crib, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a crib, showing my new design. The broken line showing of the mattress is for environmental purposes only and forms no part of the invention;

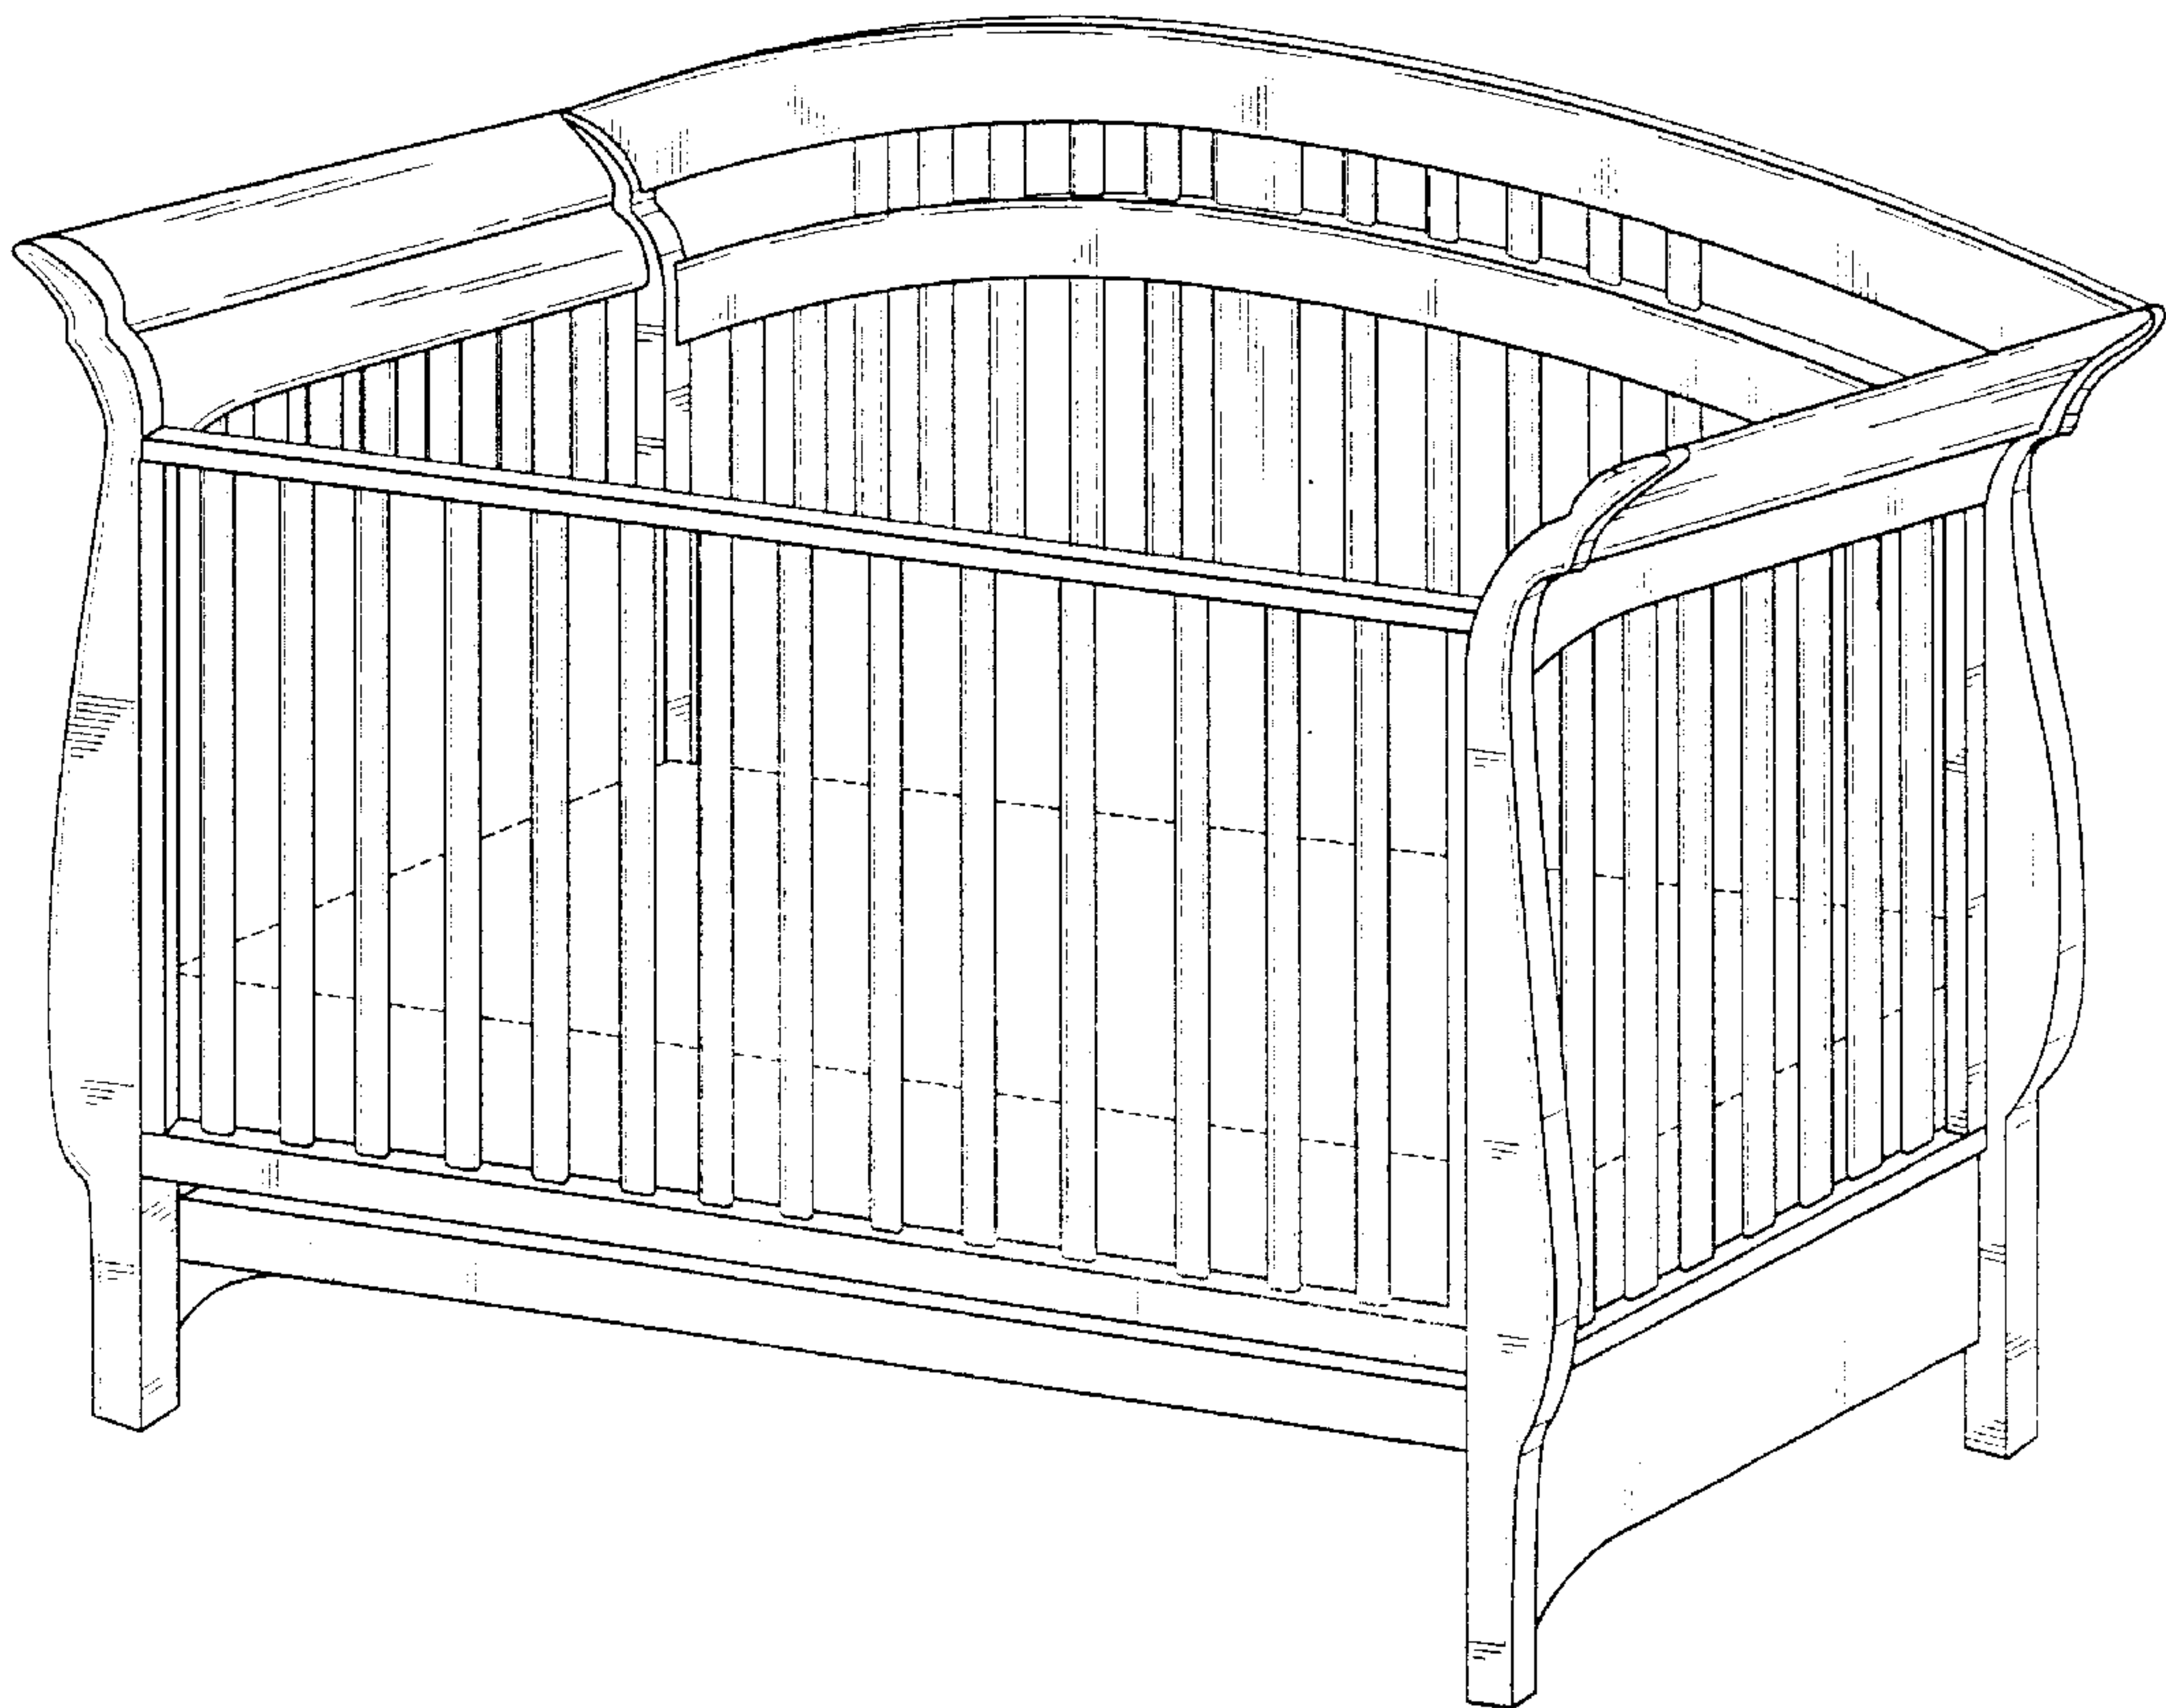

FIG. 2 is a left side elevational view of the crib of FIG. 1, the right side elevational view thereof being the mirror image of FIG. 2;

FIG. 3 is a front elevational view of the crib of FIG. 1;

FIG. 4 is a rear elevational view thereof; and,

FIG. 5 is a greatly enlarged sectional view taken along line 5—5 of FIG. 3, showing the cross-sectional configurations of the wide central vertical slat of the rear side or head of the crib and two adjacent narrow vertical slats, one above and one below the lower curved rail at the top of the crib head, the cross-sectional configuration of the narrow vertical slats being the same and being representative of the cross-sections of all vertical slats of both left and right sides and of the front side or foot of the crib as well as the remainder of the vertical slats on the rear side or head thereof.
