(57) **CLAIM**

The ornamental design for a battery, as shown and described.

DESCRIPTION

The patent application file contains photographic drawings executed in color. Copies of this patent with color photographs will be provided by the Patent & Trademark Office upon request and payment of the necessary fee.

FIG. 1 is a bottom and side perspective view of a battery showing my new design;

FIG. 2 is a second bottom and side perspective view thereof;

FIG. 3 is a top and side perspective view thereof;

FIG. 4 is a second top and side perspective view thereof;

FIG. 5 is a side elevational view thereof;

FIG. 6 is a second side elevational view thereof with different lighting than FIG. 5;

FIG. 7 is a third side elevational view thereof with different lighting than FIGS. 5 and 6;

FIG. 8 is a front plan view of a label that contains the holographic pattern that is formed about the battery of my design;

FIG. 9 is a second front plan view thereof with different lighting than FIG. 8; and,

FIG. 10 is a third front plan view thereof with different lighting than FIGS. 8 and 9.

The claimed design is embodied in the appearance of the battery with the label attached as shown in FIGS. 1–7. The label is shown separately in FIGS. 8–10 in order to disclose aspects of the design that may not be apparent from the other views.

The battery includes a holographic pattern formed on a label that is positioned on the outside surface thereof. The varying stages of the appearance and pattern of colors of the holographic pattern are only partially identified by the formal photographic drawings, but are apparent from the sample batteries and labels submitted herewith.
