(57) **CLAIM**

The ornamental design for a supporting device for human forearm, as shown and described.

DESCRIPTION

FIG. 1 is a side view of a supporting device for human forearm, showing our new design, connected to a work surface;

FIG. 2 is a side perspective view thereof;

FIG. 3 is a front elevated view thereof;

FIG. 4 is a side perspective view thereof, slightly rotated from FIG. 2; and,

FIG. 5 is a front view thereof.

The supporting device for human forearm is for use at a computer work space near a computer mouse.

The broken lines showing of work a table, pad and mouse are for illustrative purposes only and forms no part of the claimed design.
