(57) **CLAIM**

I claim the ornamental design for a radiator for heat generating components in electronic equipment, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a radiator for heat generating components in electronic equipment according to the present invention.

FIG. 2 is a front view of the radiator according to the present invention; the rear view of the radiator is a mirror image of FIG. 2.

FIG. 3 is a left side view of the radiator according to the present invention.

FIG. 4 is a right side view of the radiator according to the present invention.

FIG. 5 is a top plan view of the radiator according to the present invention.

FIG. 6 is a bottom plan view of the radiator according to the present invention; and,

FIG. 7 is a perspective view illustrating use of the radiator according to the present invention.

The broken lines in the figures indicate environmental elements for illustrative purposes only and form no part of the claimed design.
