(57) **CLAIM**

The ornamental design for a phone charger display package, as shown and described.

**DESCRIPTION**

A portion of the disclosure of this design patent document

contains material which is subject to copyright protection. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the U.S. Patent and Trademark Office patent files or records, but otherwise reserves all rights under the copyright laws of the United States. (17 U.S.C. § 106).

The present invention is a new, original and ornamental design for a phone charger display package, reference being made to the accompanying drawings, such drawings comprising a part of this design patent document.

FIG. 1 is a front perspective view of an assembled phone charger display package, in accordance with the present invention.

FIG. 2 is a rear perspective view of an assembled phone charger display package, in accordance with the present invention.

FIG. 3 is an exploded front plan view of the embodiment shown in FIG. 1 of a phone charger display package, in accordance with the present invention.

FIG. 4 is an exploded right side elevation view of the embodiment shown in FIG. 1 of a phone charger display package, in accordance with the present invention. The left side view is a mirror image of the right side view and is not shown.

FIG. 5 is an exploded rear plan view of the embodiment shown in FIG. 2 of a phone charger display package, in accordance with the present invention.

FIG. 6 is an exploded right side elevation view of the embodiment shown in FIG. 2 of a phone charger display package, in accordance with the present invention.

FIG. 7 is an exploded top view of a phone charger display package, in accordance with the present invention; and,

FIG. 8 is an exploded bottom view of a phone charger display package, in accordance with the present invention. The broken lines showing of a bubble is for illustrative purpose only and form no part of the claimed design.
