(57) **CLAIM**

The ornamental design for a dome-shaped reclosable lid and removable closure tab, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of the design for a dome-shaped reclosable lid and removable closure tab according to the invention illustrating the closure tab in a closed position; FIG. 2 is a perspective view of the design for the dome-shaped reclosable lid and removable closure tab according to the invention illustrating the closure tab in an open position; FIG. 3 is a top plan view of the design for the dome-shaped reclosable lid and removable closure tab according to the invention illustrating the closure tab in the closed position of FIG. 1; FIG. 4 is a bottom plan view of the design for the dome-shaped reclosable lid and removable closure tab according to the invention illustrating the closure tab in the closed position of FIG. 1; FIG. 5 is a front elevational view of the design for the dome-shaped reclosable lid and removable closure tab according to the invention illustrating the closure tab in the open position of FIG. 2;

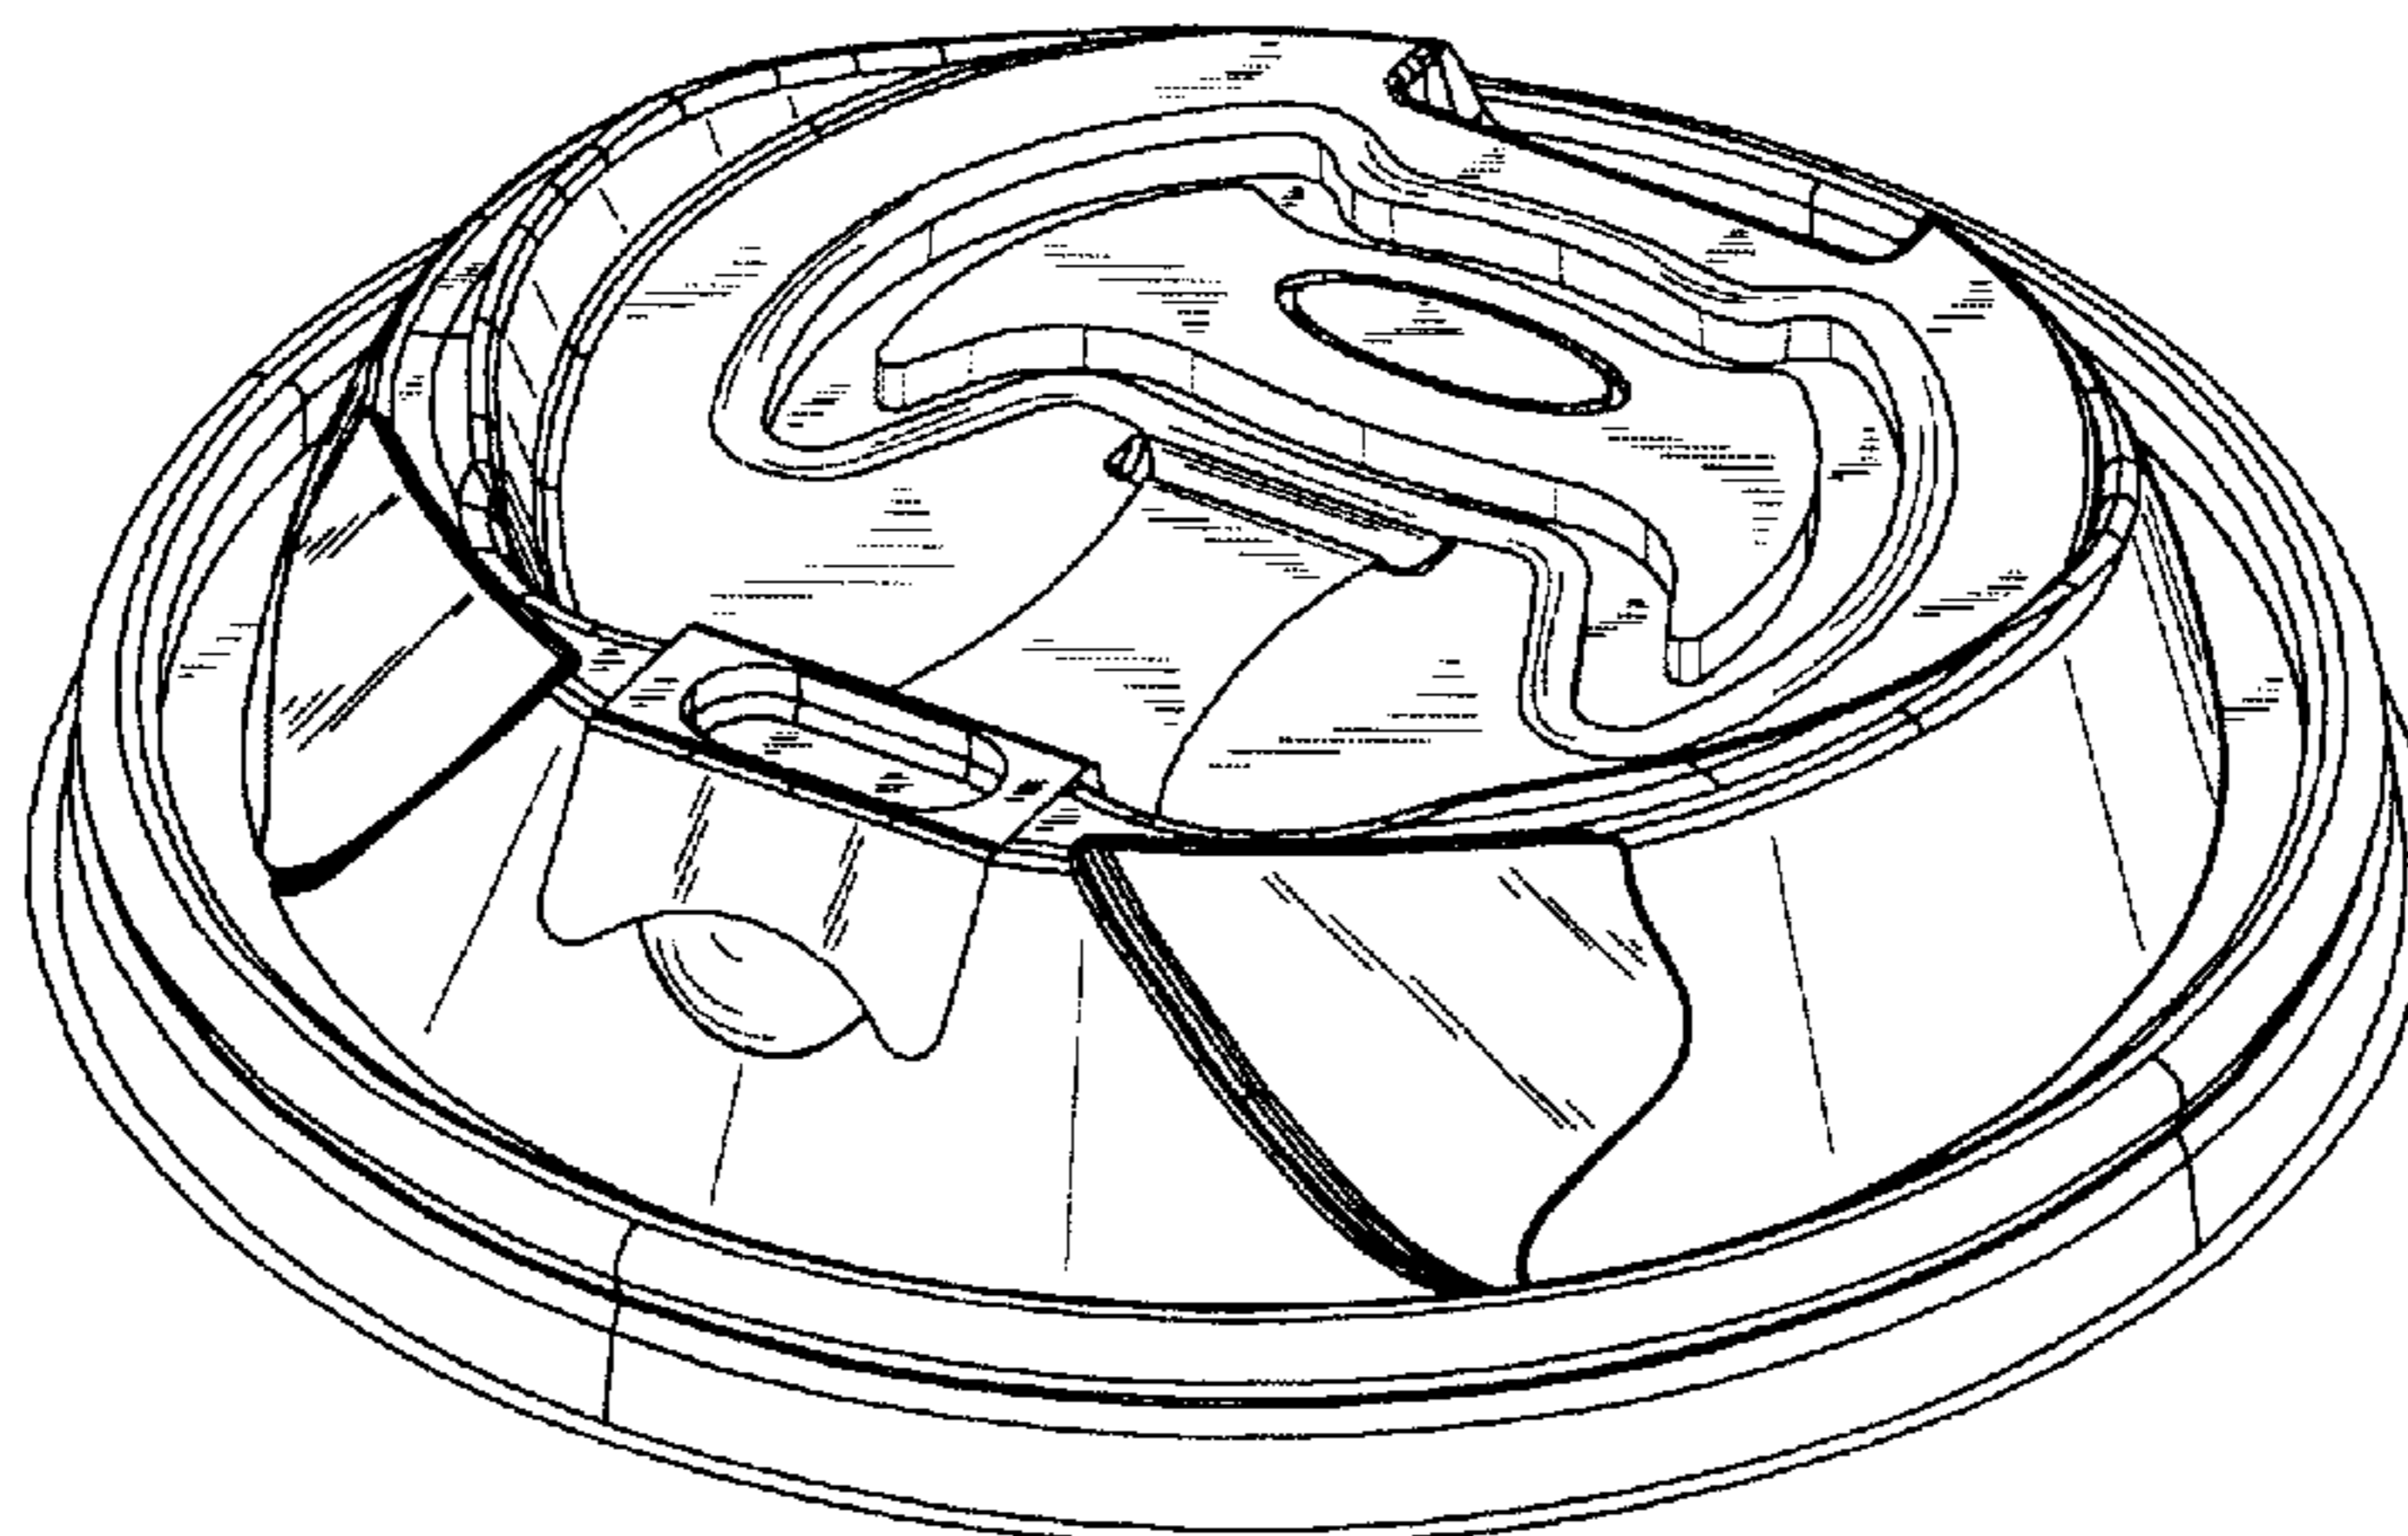

FIG. 6 is a rear elevational view of the design for the dome-shaped reclosable lid and removable closure tab according to the invention illustrating the closure tab in the closed position of FIG. 1;

FIG. 7 is a right side view of the design for the dome-shaped reclosable lid and removable closure tab according to the invention illustrating the closure tab in the closed position of FIG. 1. The left side view is a mirror image of the right side view;

FIG. 8 is a perspective view of the design for the dome-shaped reclosable lid and removable closure tab according to the invention illustrating the dome-shaped reclosable lid with the closure tab removed;

FIG. 9 is a top plan view of the design for the dome-shaped reclosable lid and removable closure tab according to the invention illustrating the dome-shaped reclosable lid with the closure tab removed;

FIG. 10 is a bottom plan view of the design for the dome-shaped reclosable lid and removable closure tab according to the invention illustrating the dome-shaped reclosable lid with the closure tab removed;

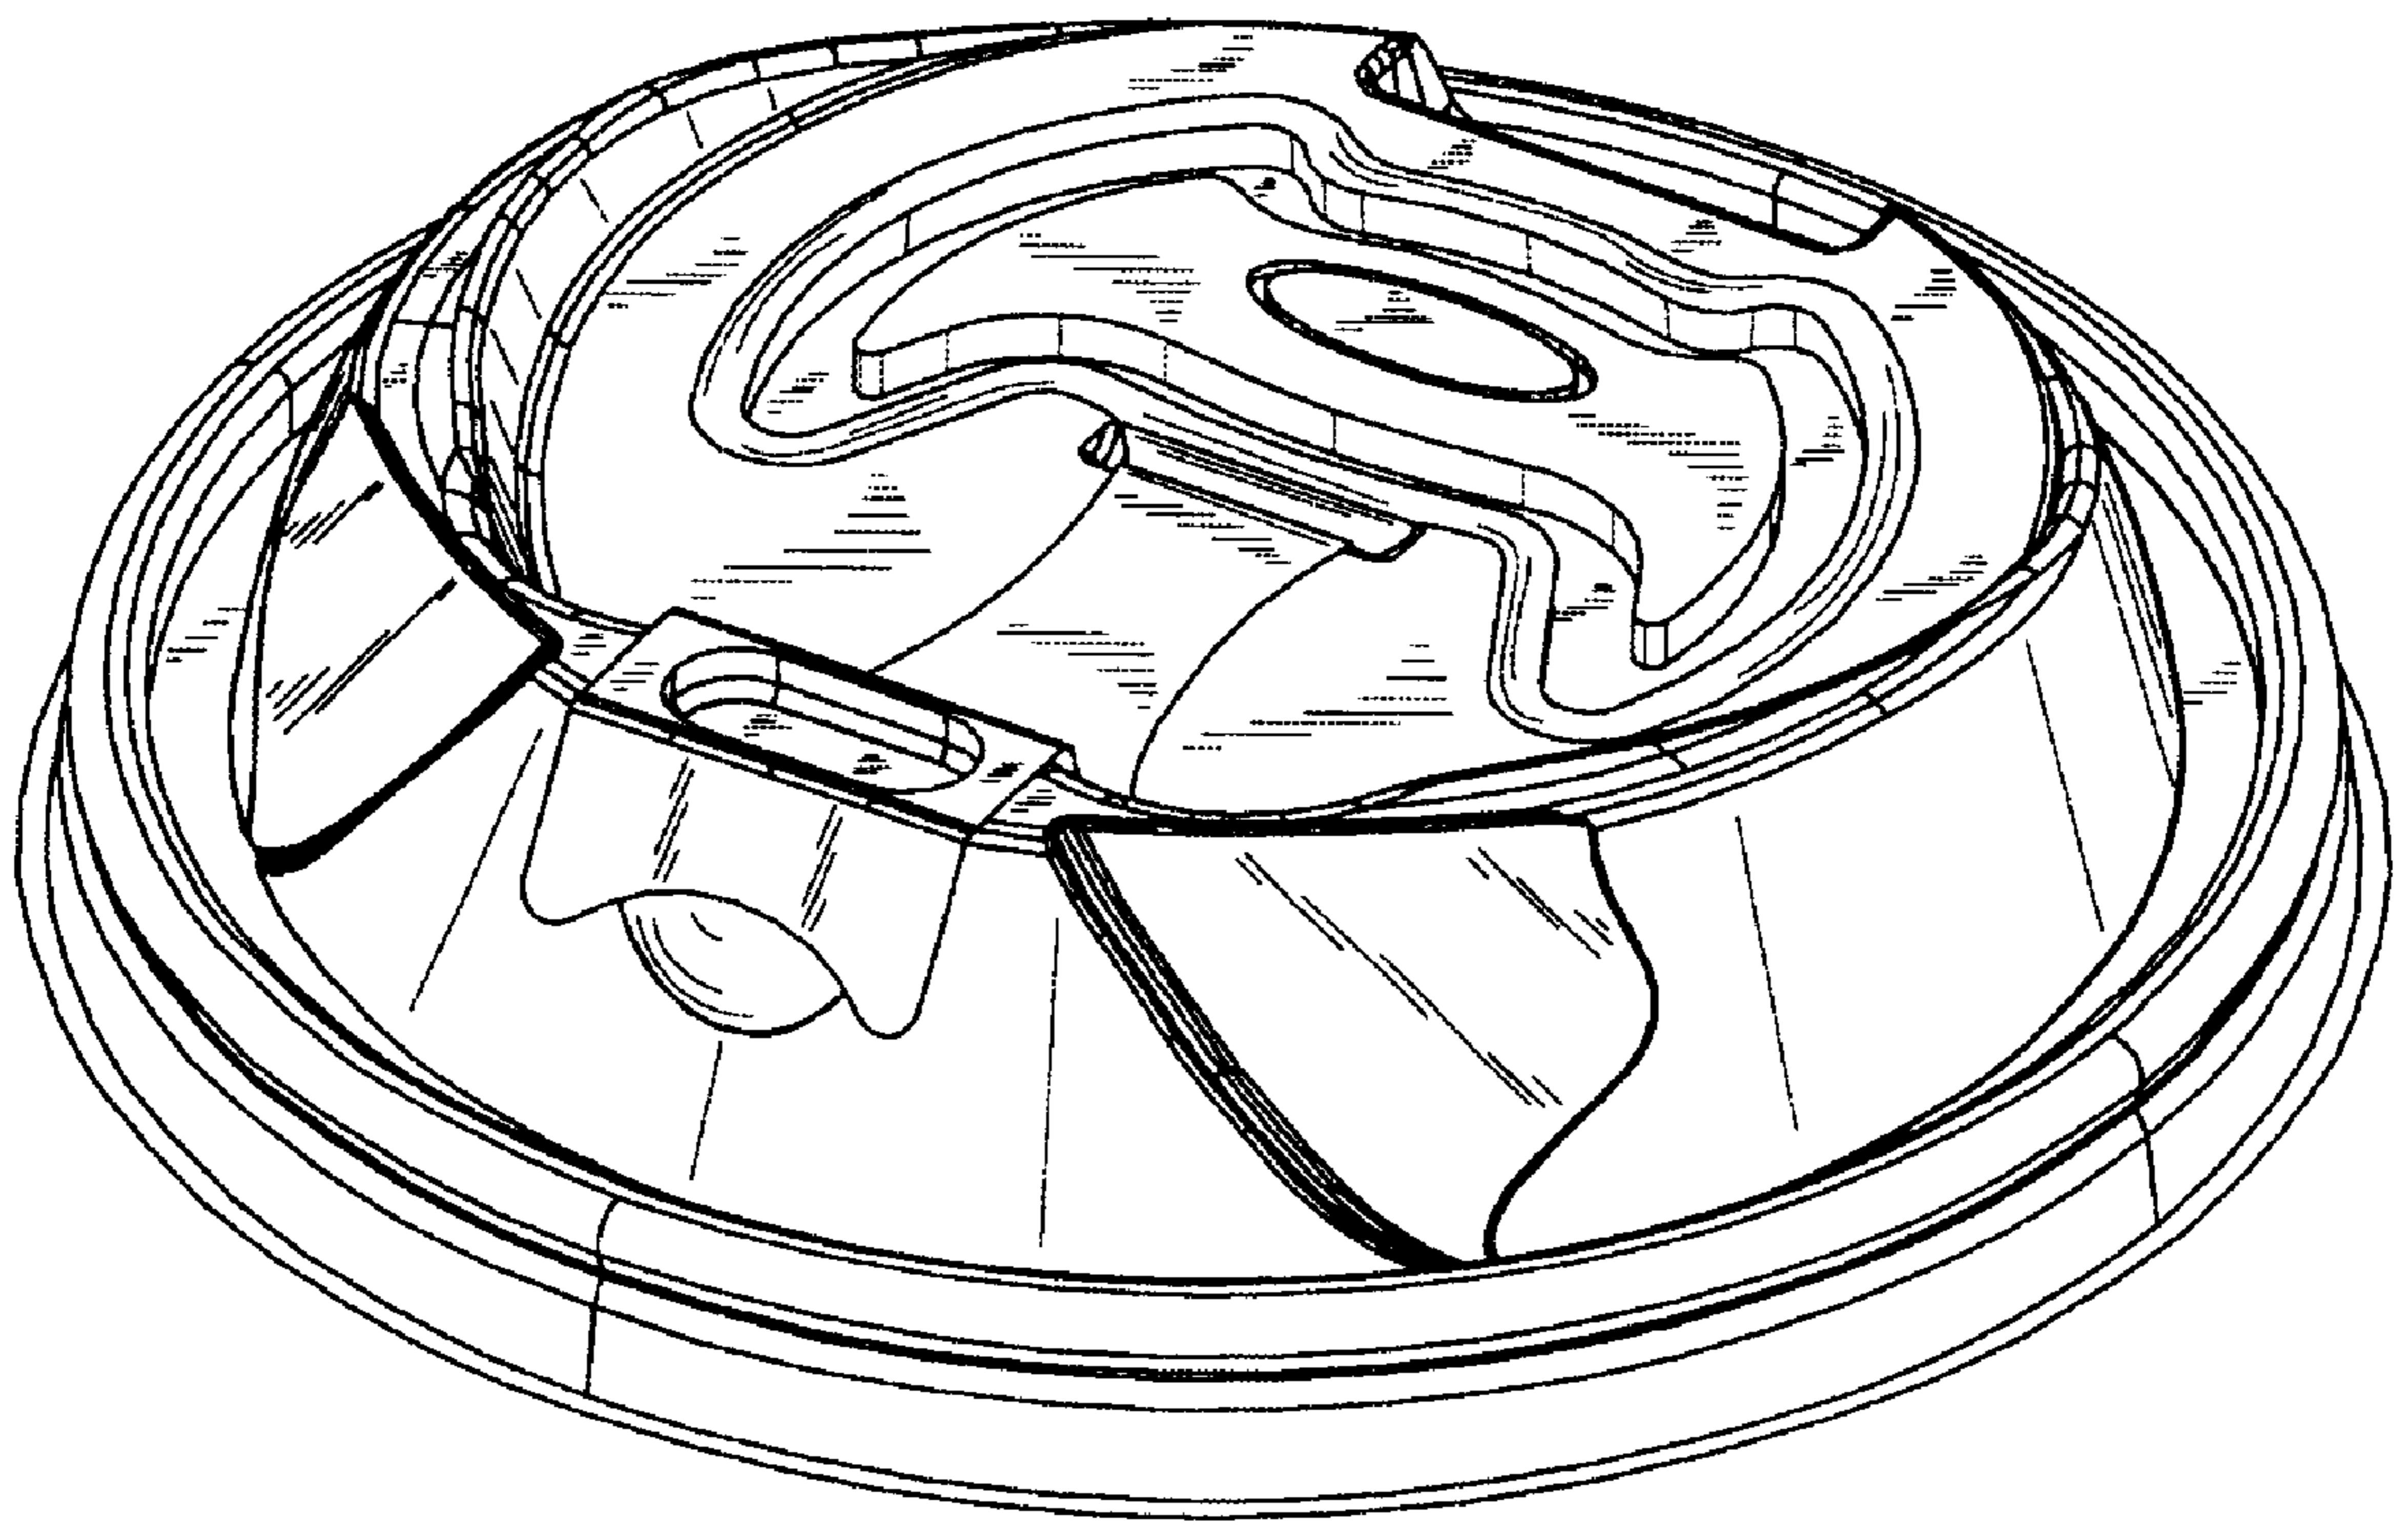

FIG. 11 is a front elevational view of the design for the dome-shaped reclosable lid and removable closure tab according to the invention illustrating the dome-shaped reclosable lid with the closure tab removed;

FIG. 12 is a rear elevational view of the design for the dome-shaped reclosable lid and removable closure tab according to the invention illustrating the dome-shaped reclosable lid with the closure tab removed; and,

FIG. 13 is a right side view of the design for the dome-shaped reclosable lid and removable closure tab according to the invention illustrating the dome-shaped reclosable lid with the closure tab removed: The left side view is a mirror image of the right side view.

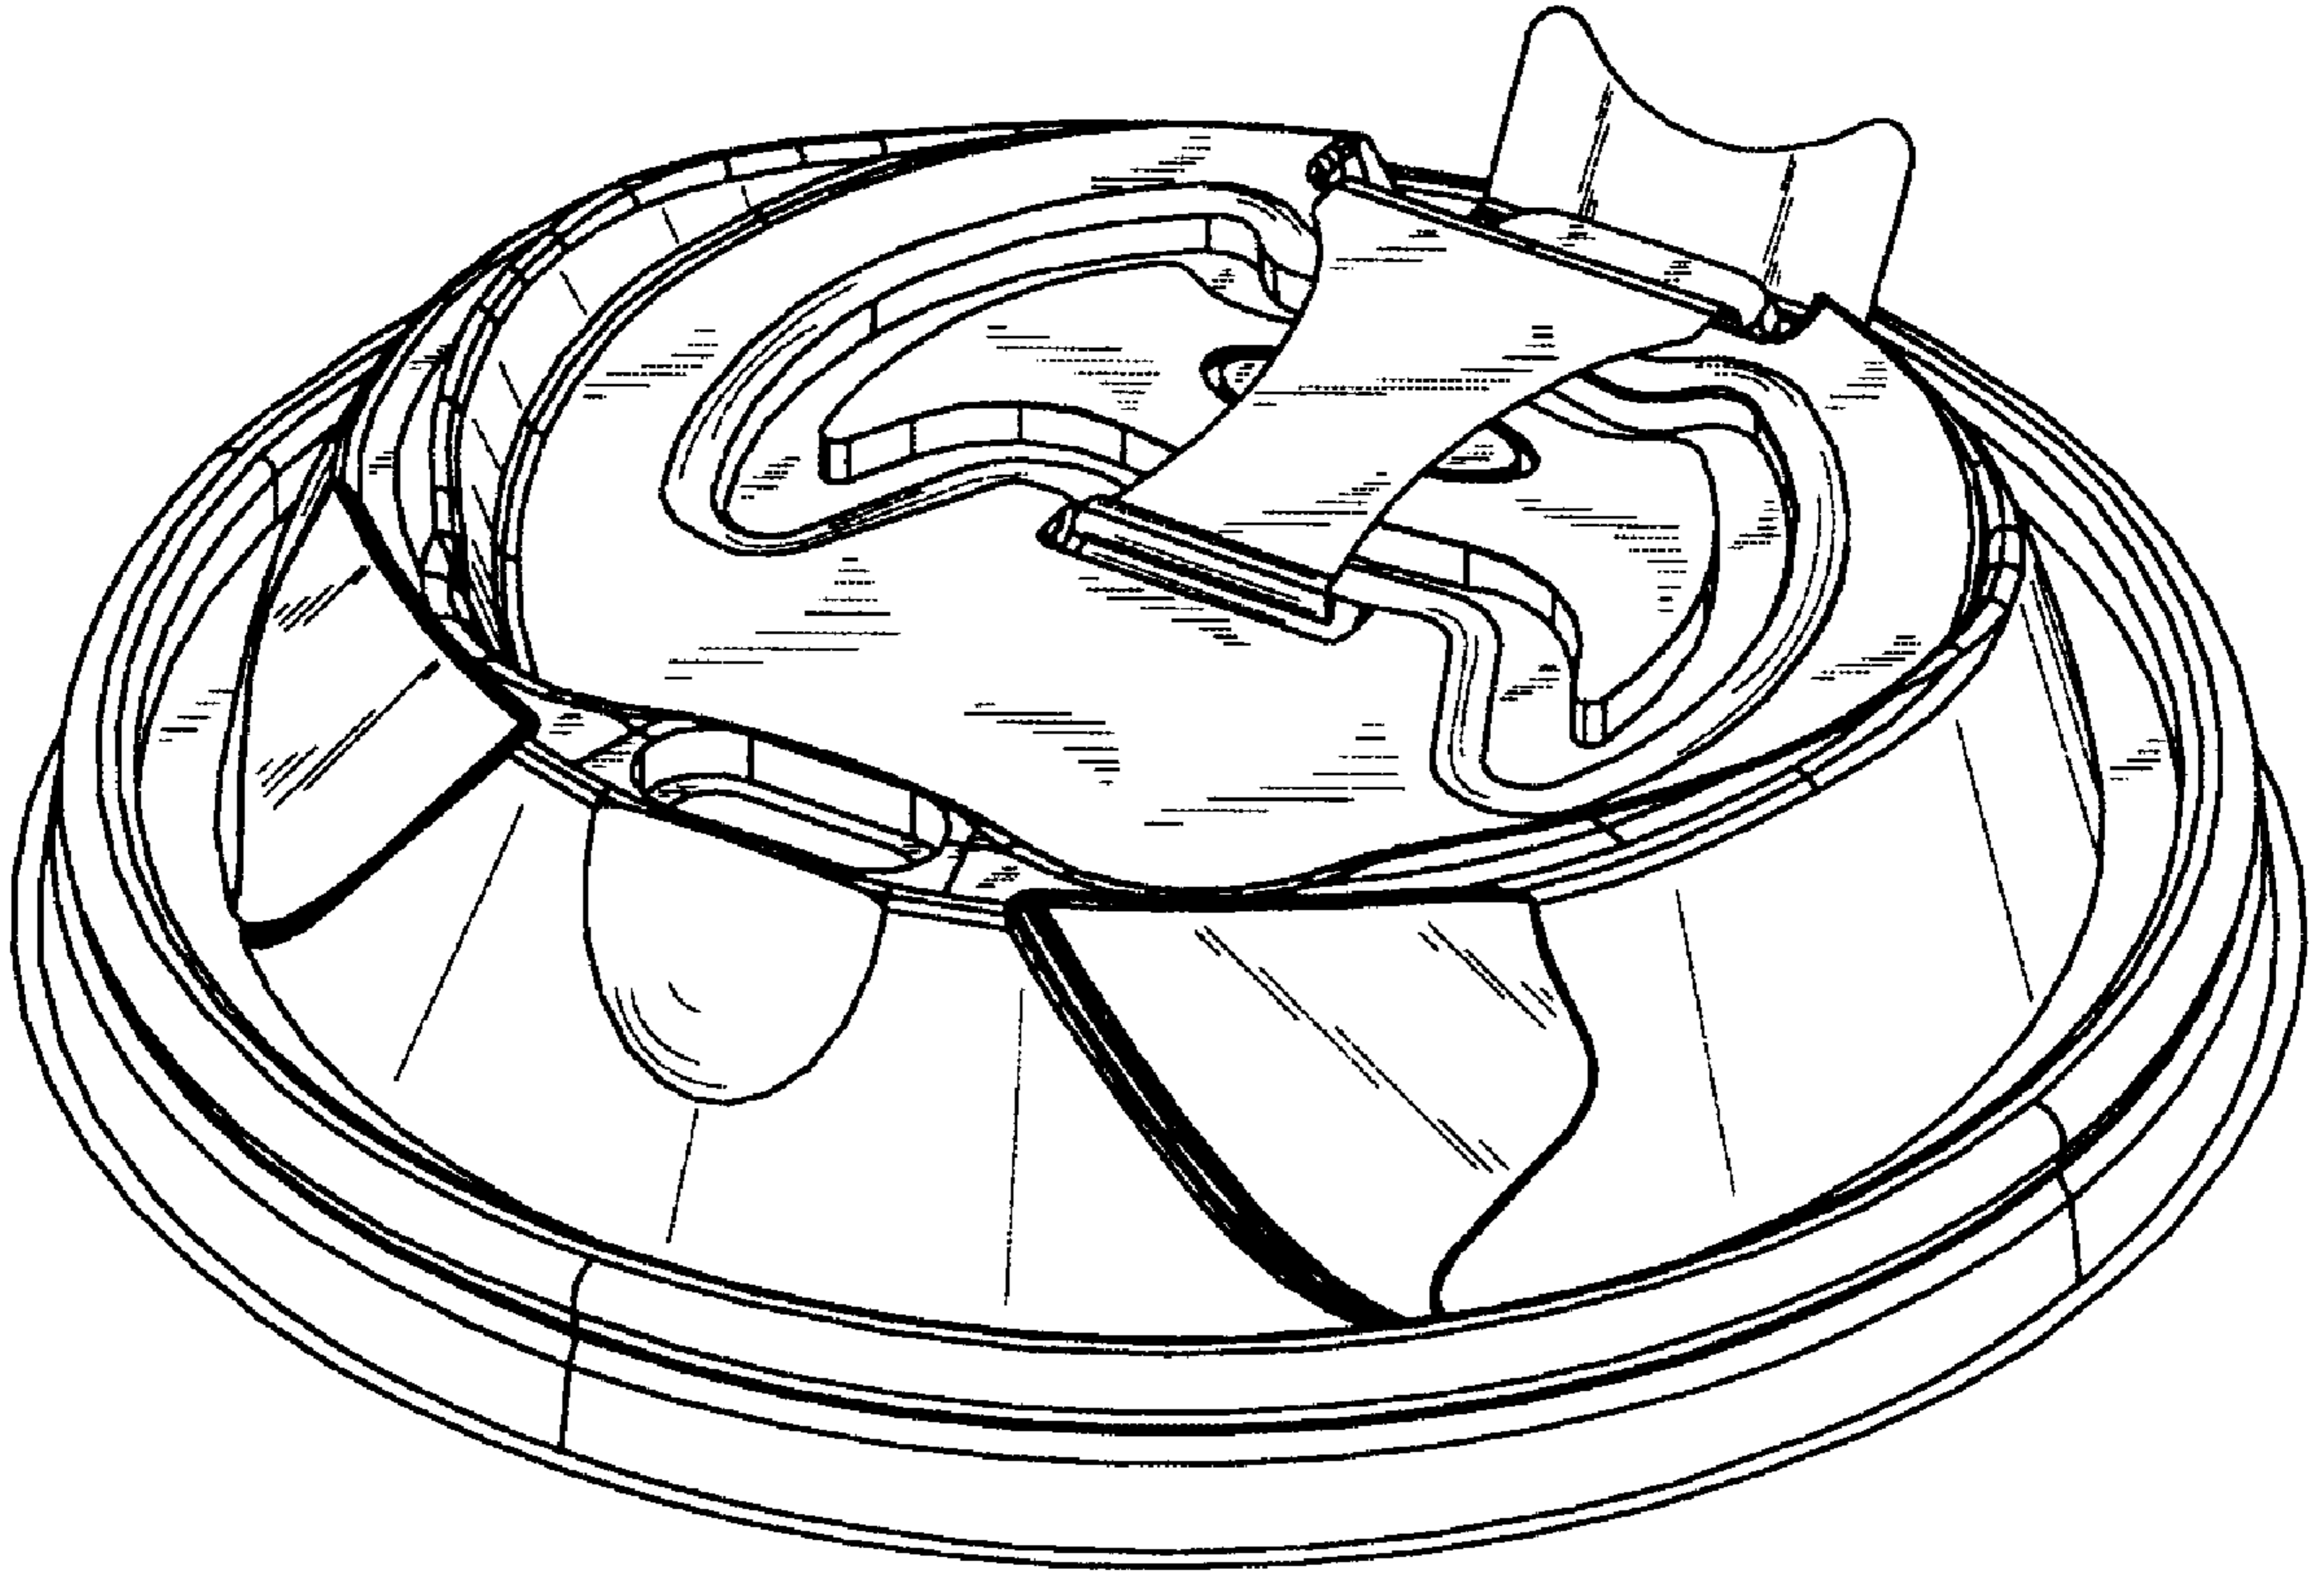

The dome-shaped reclosable lid and removable closure tab are made from a thermomoldable plastic.
