(57) **CLAIM**

The container for dispensing granular material for repairing divots on a golf course, as shown and described.

DESCRIPTION

FIG. 1 is a front, left side and top perspective view of a container for dispensing granular material for repairing divots on a golf course wherein the top has a curvilinear extending member for defining a dispensing opening with a clip holding member being shown in phantom;

FIG. 2 is a back, bottom and right side perspective view of the container for dispensing granular material for repairing divots on a golf course of FIG. 1 with a clip holding member being shown in phantom;

FIG. 3 is a front elevational view of the container for dispensing granular material for repairing divots on a golf course of FIG. 1;

FIG. 4 is a right side elevational view of the container for dispensing granular material for repairing divots on a golf course of FIG. 1 with a clip holding member being shown in phantom;

FIG. 5 is a top plan view of the container for dispensing granular material for repairing divots on a golf course of FIG. 1 with a clip holding member being shown in phantom;

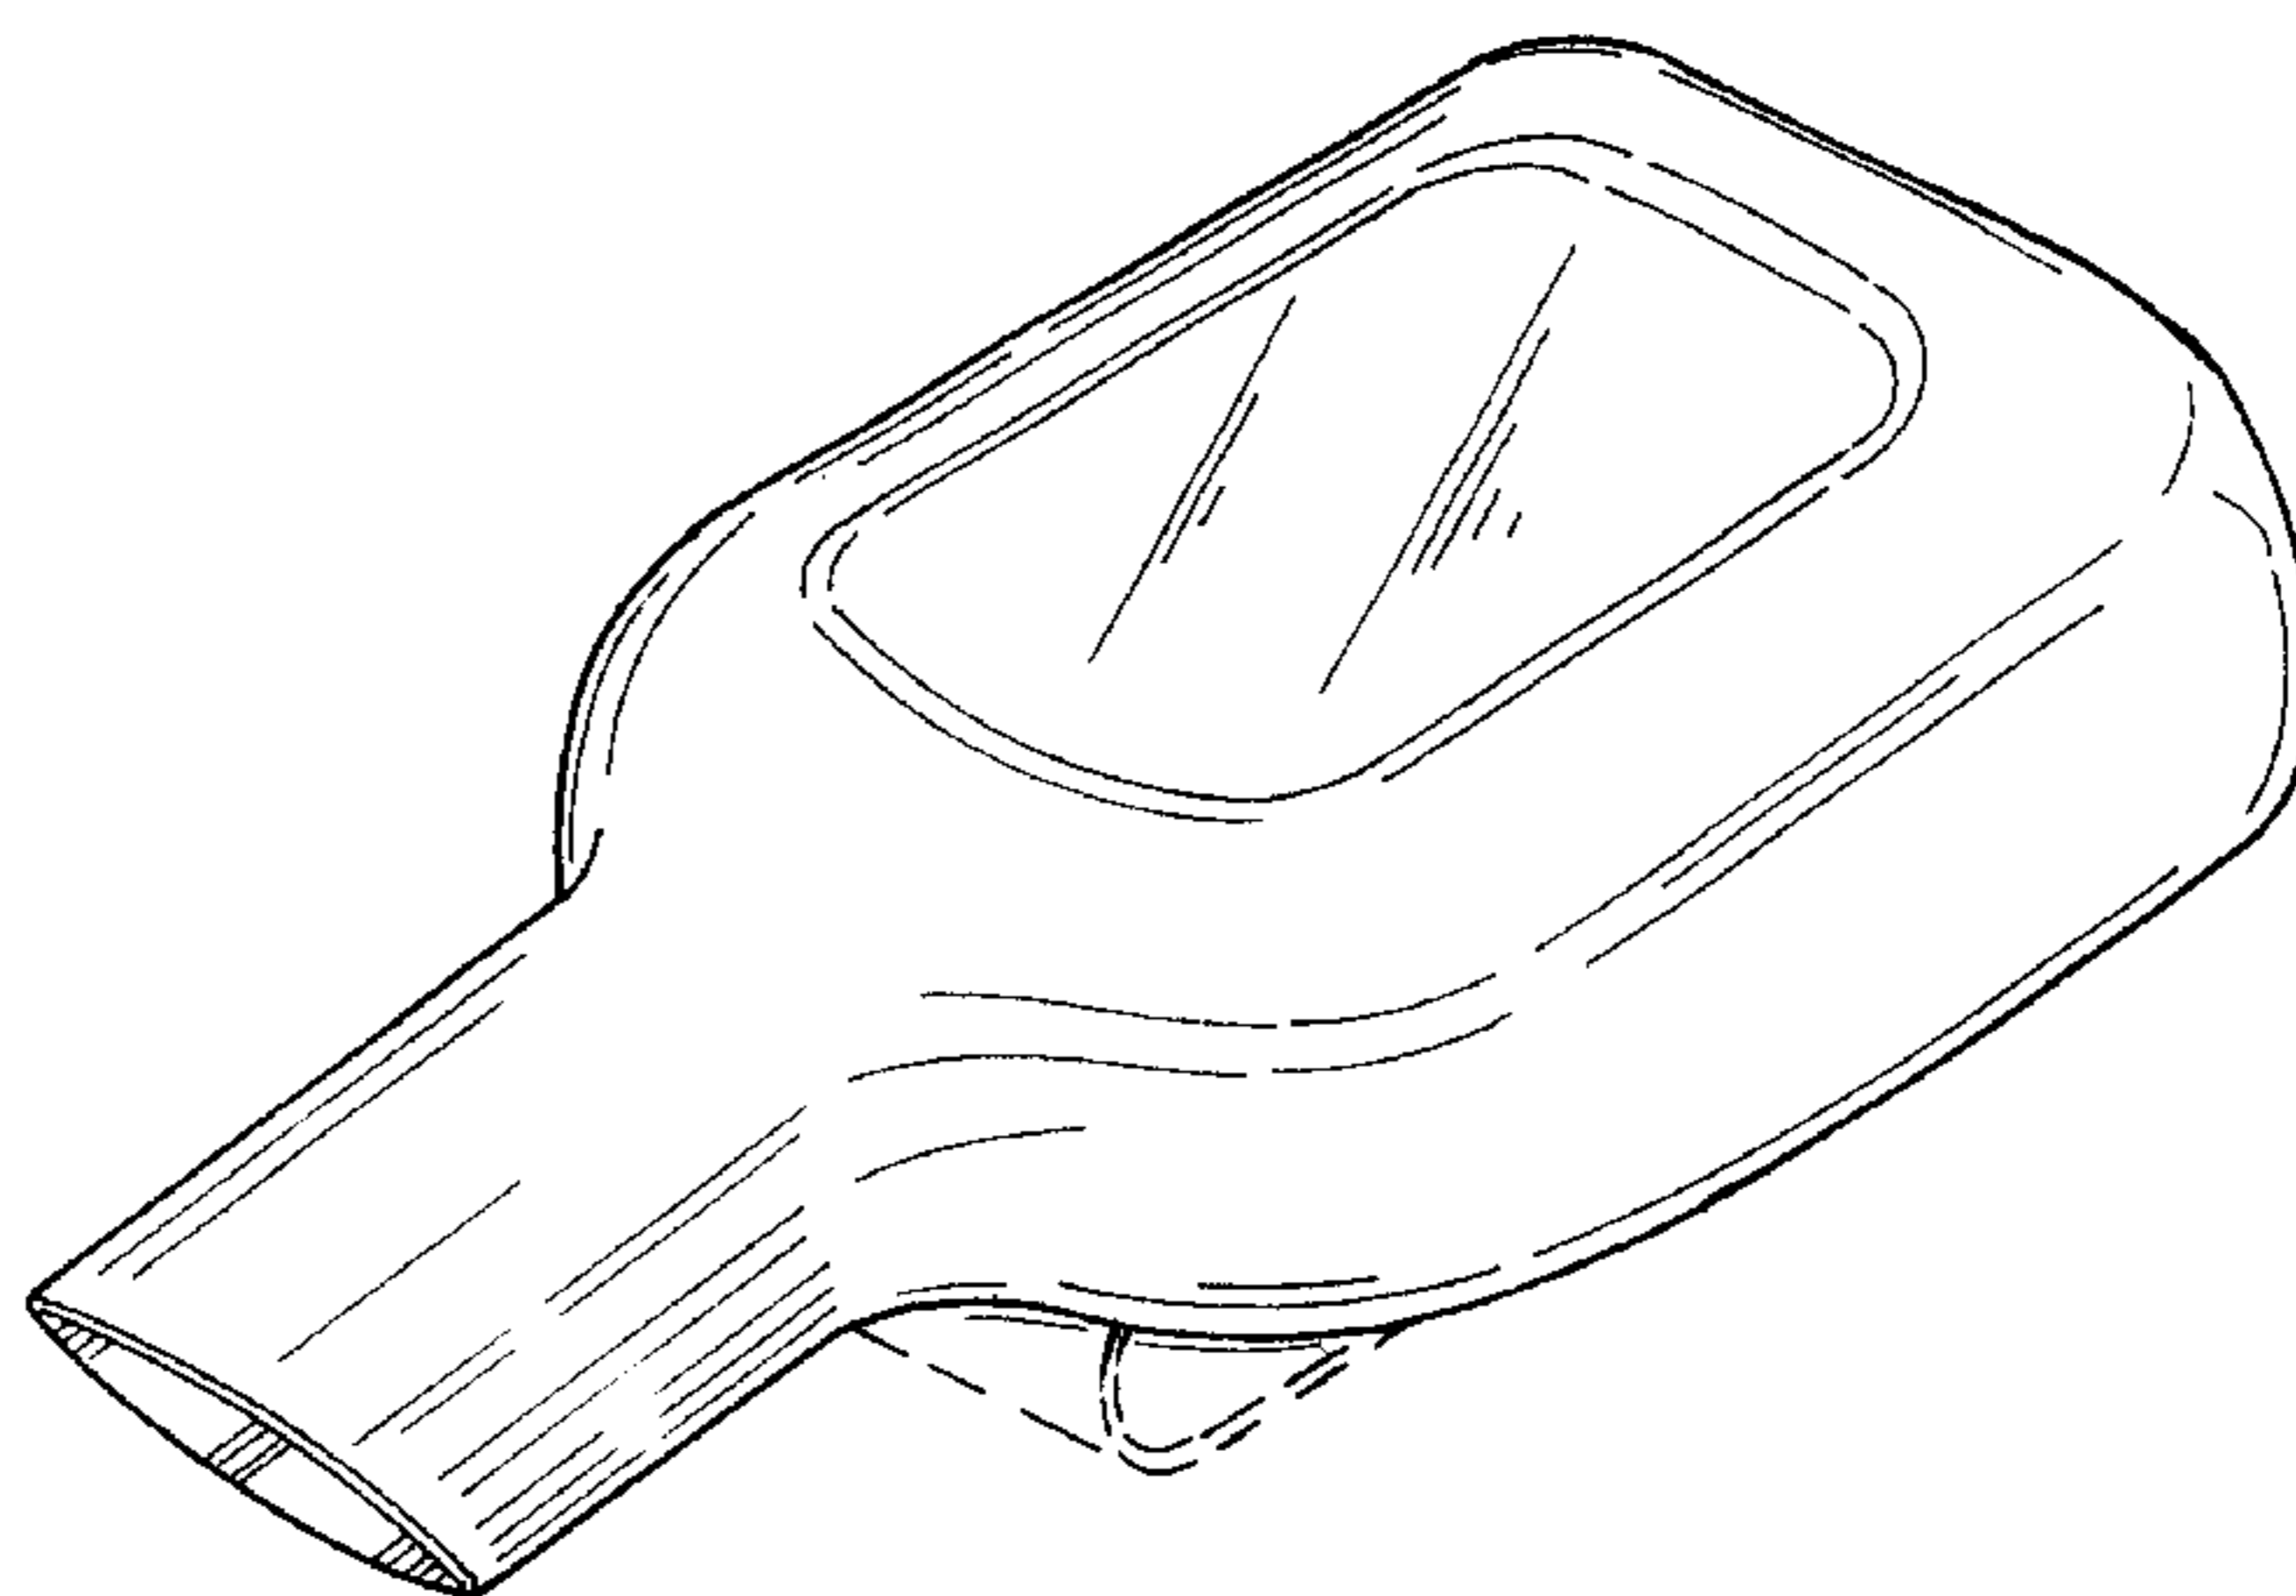

FIG. 6 is a bottom plan view of the container for dispensing granular material for repairing divots on a golf course of FIG. 1 with a clip holding member being shown in phantom;

FIG. 7 is a left side view of a container for dispensing granular material for repairing divots on a golf course of FIG. 1 with a clip holding member being shown in phantom; and,

FIG. 8 is a rear view of the container for dispensing granular material for repairing divots on a golf course of FIG. 1 with a clip holding member being shown in phantom.

The broken lines showing of the clip holding member for supporting the container is for illustrative purposes only, and forms no part of the design.
