(57) **CLAIM**

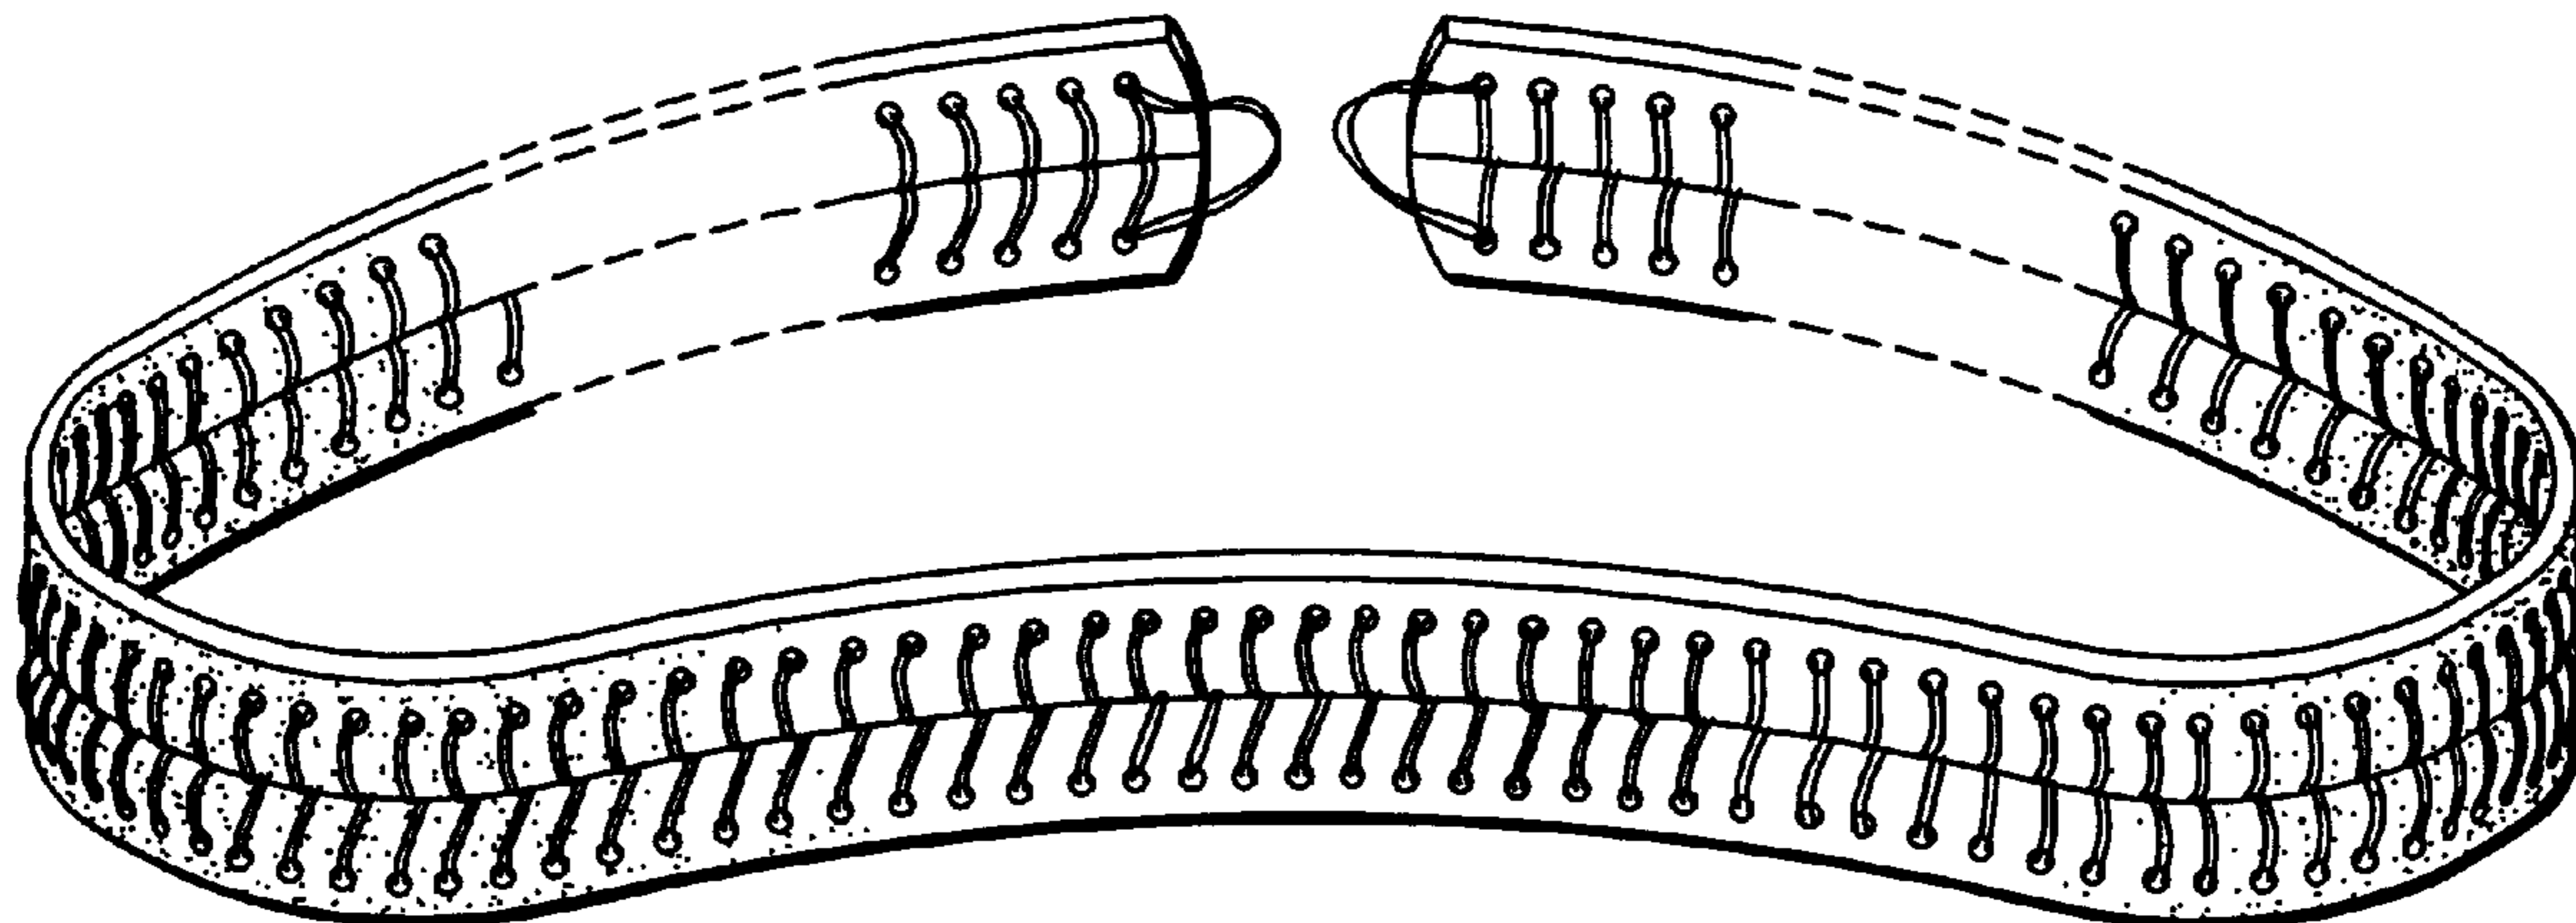

The ornamental design for a band for personal adornment of cropped baseball stitching, as shown and described.

FIG. 1 is a substantially top perspective view of a band for personal adornment of cropped baseball stitching showing my new design (the comparable bottom perspective view being evident therefrom) (for ease of illustration, the cropped baseball stitching is intended to uniformly continue throughout the broken line continuations thereof), wherein a given charm or ornament as well as a clasp are shown by the remainder of the broken lines for illustrative purposes only and form no part of the claimed design;

FIG. 2 is a front elevational view of the band for personal adornment of cropped baseball stitching of FIG. 1, as shown in isolation and in a substantially stretched-out condition (for ease of illustration, the cropped baseball stitching is intended to uniformly continue throughout the broken line continuation thereof and is broken clean at the left and right extremes of the view); and,

FIG. 3 is a front perspective view of the band for personal adornment of cropped baseball stitching, comparable to FIG. 1 except shown in isolation and taken from a shallow angle viewpoint (the rear and side views being evident therefrom) (for ease of illustration, the cropped baseball stitching is intended to uniformly continue throughout the broken line continuations thereof).
