(57) **CLAIM**

The ornamental design for a foldable musical instrument stand, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective open view of the foldable musical instrument stand of my invention, which is suitable for holding a guitar (not shown) at rest;

FIG. 2 is a front elevational, open view of the foldable musical instrument stand of my invention;

FIG. 3 is a rear elevational, open view of the foldable musical instrument stand of my invention, which is a reverse view of FIG. 2;

FIG. 4 is a side open view of the foldable musical instrument stand of my invention, which is based on FIG. 3, rotated ninety degrees leftwardly about a vertical axis;

FIG. 5 is a side, open view of the foldable musical instrument stand of my invention, which is a reverse view of FIG. 4;

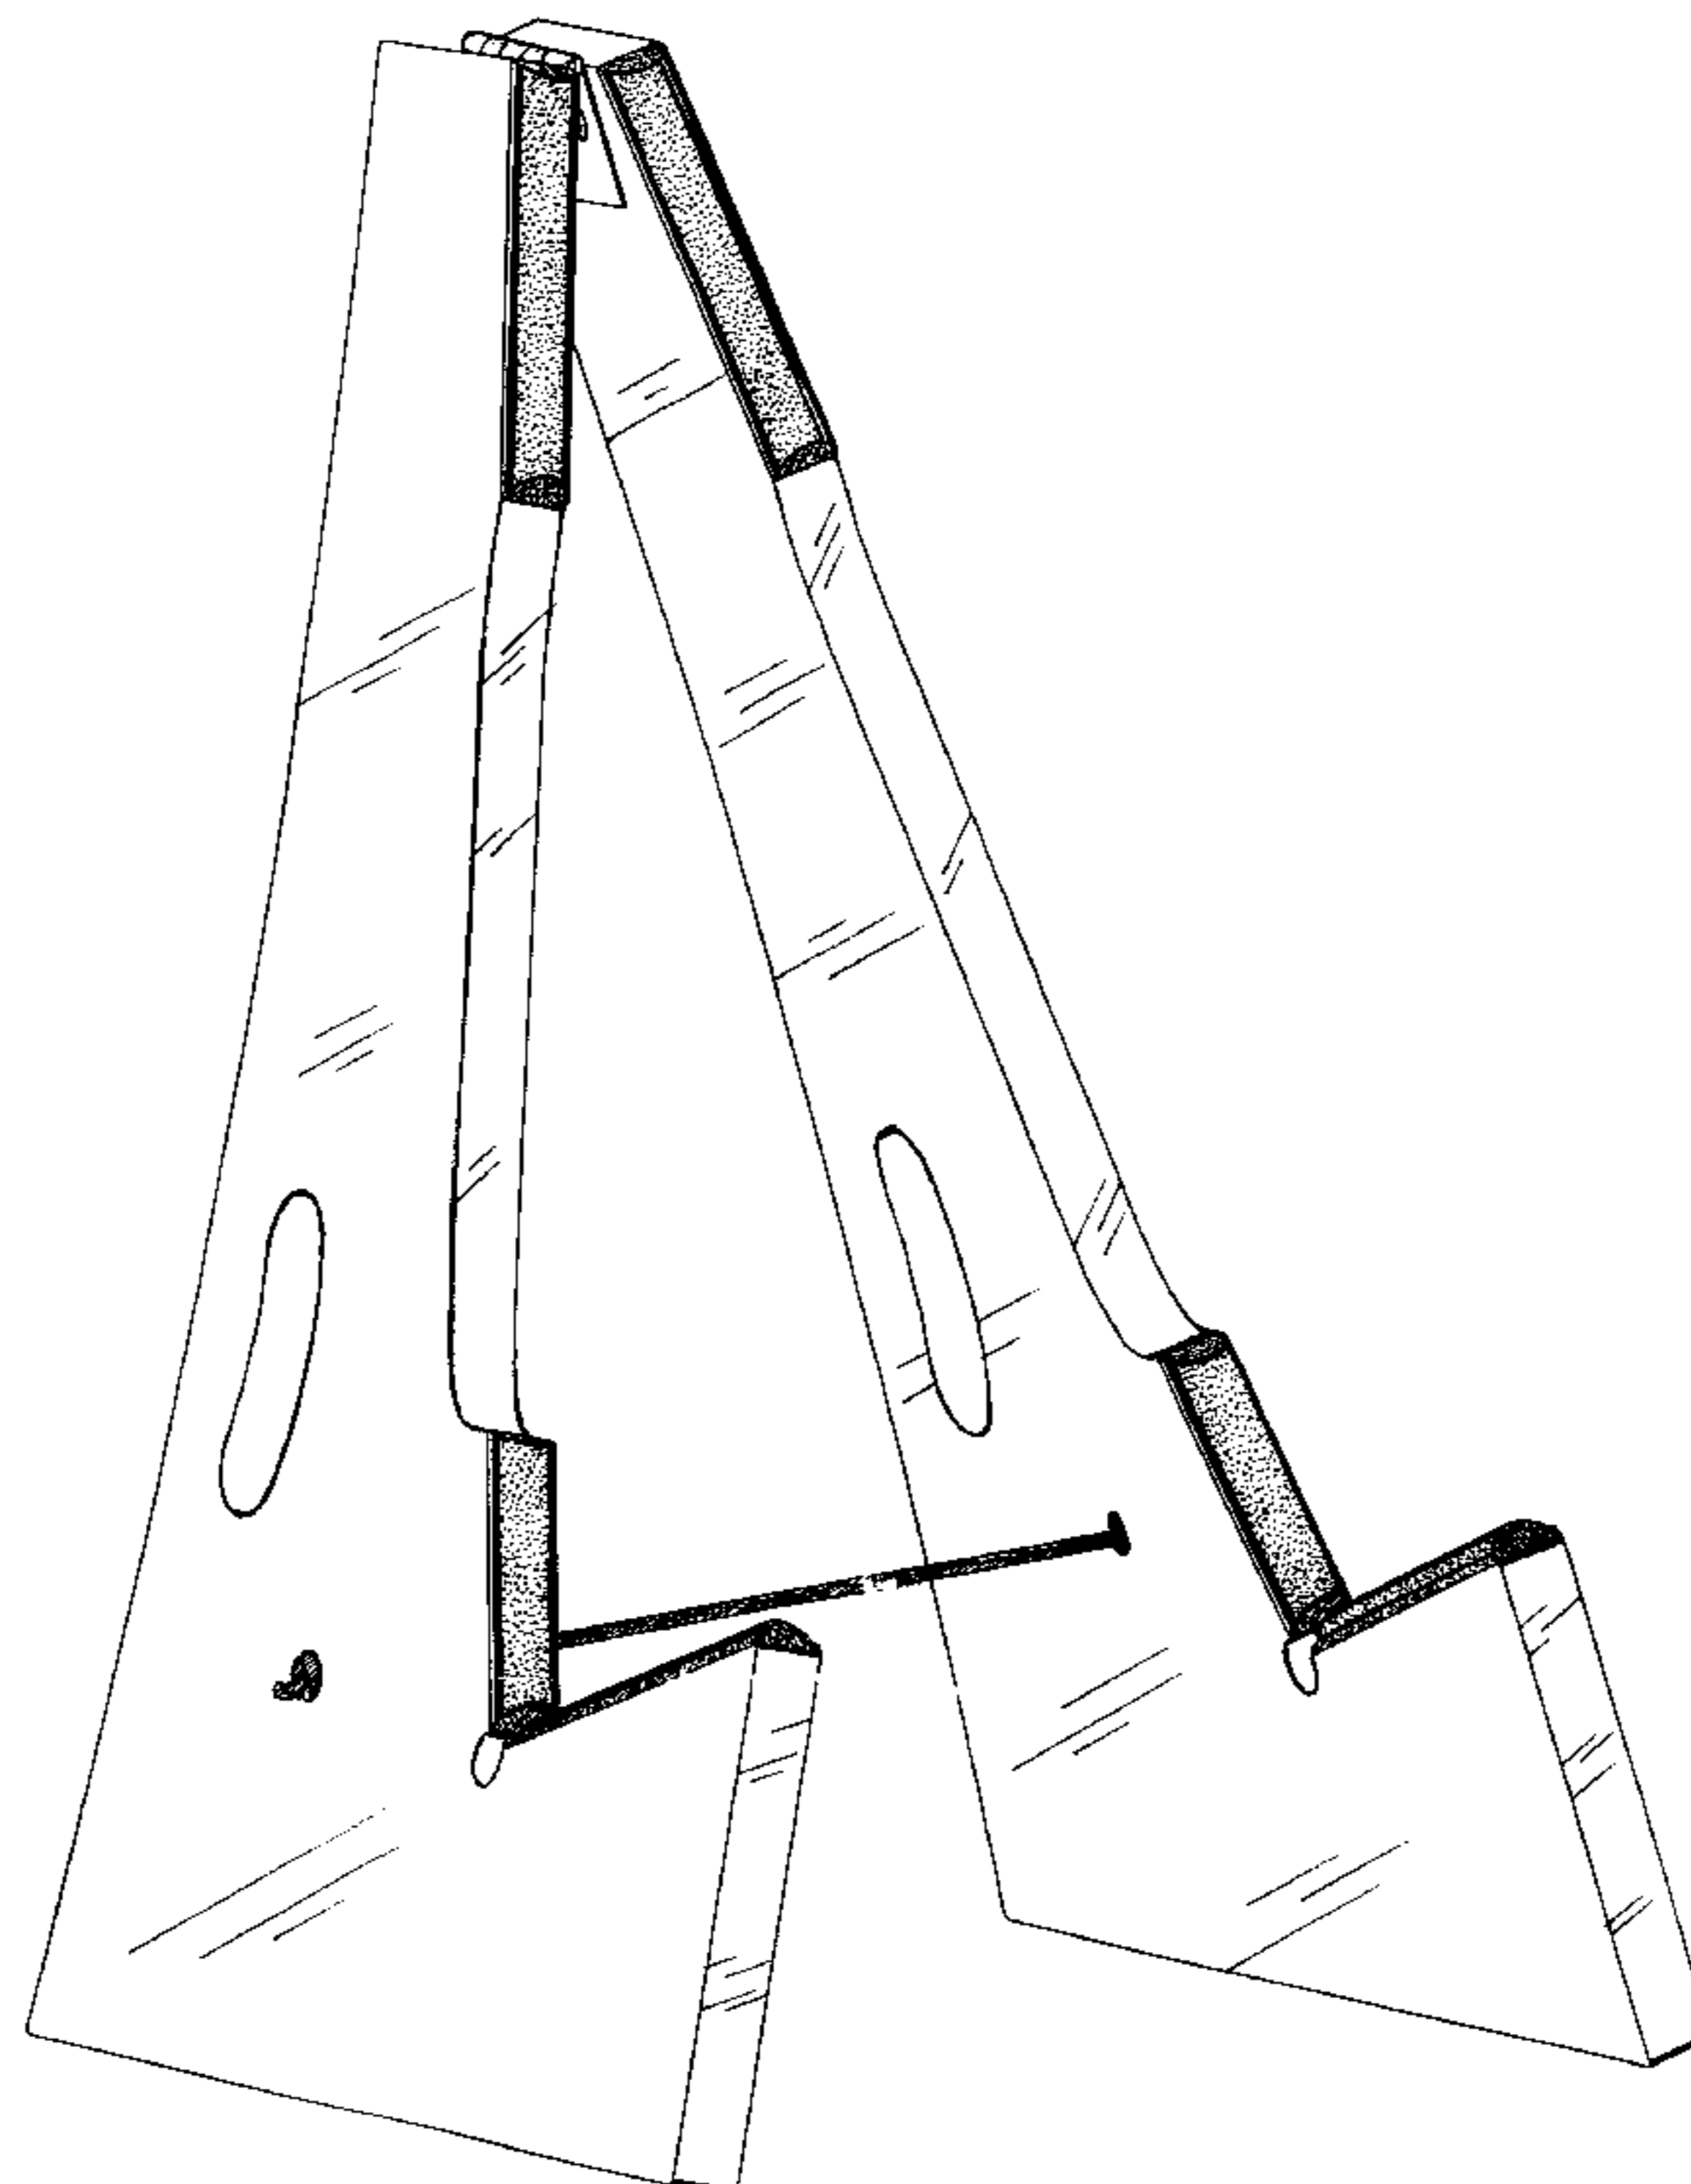

FIG. 6 is a top plan, open view of the foldable musical instrument stand of my invention;

FIG. 7 is a bottom plan, open view of the foldable musical instrument stand of my invention, which is a reverse view of FIG. 6;

FIG. 8 is a front elevational, closed view of the foldable musical instrument stand of my invention; and,

FIG. 9 is a rear elevational, closed view of the foldable musical instrument stand of my invention, which is a reverse view of FIG. 8.
