(57) **CLAIM**

The ornamental design for an optical display device, as shown and described.

DESCRIPTION

FIG. 1 is a side perspective view of an optical display device according to one arrangement of the present design;

FIG. 2 is a front elevation view of the optical display device shown in FIG. 1, the rear elevation view being identical;

FIG. 3 is a left side elevation view of the optical display device shown in FIG. 1, the right side elevation view being identical;

FIG. 4 is a top plan view of the optical display device shown in FIG. 1;

FIG. 5 is a bottom plan view of the optical display device shown in FIG. 1;

FIG. 6 is a side perspective view of an alternative embodiment of the optical display device according to the present design;

FIG. 7 is a front elevation view of the optical display device shown in FIG. 6, the rear elevation view being identical;

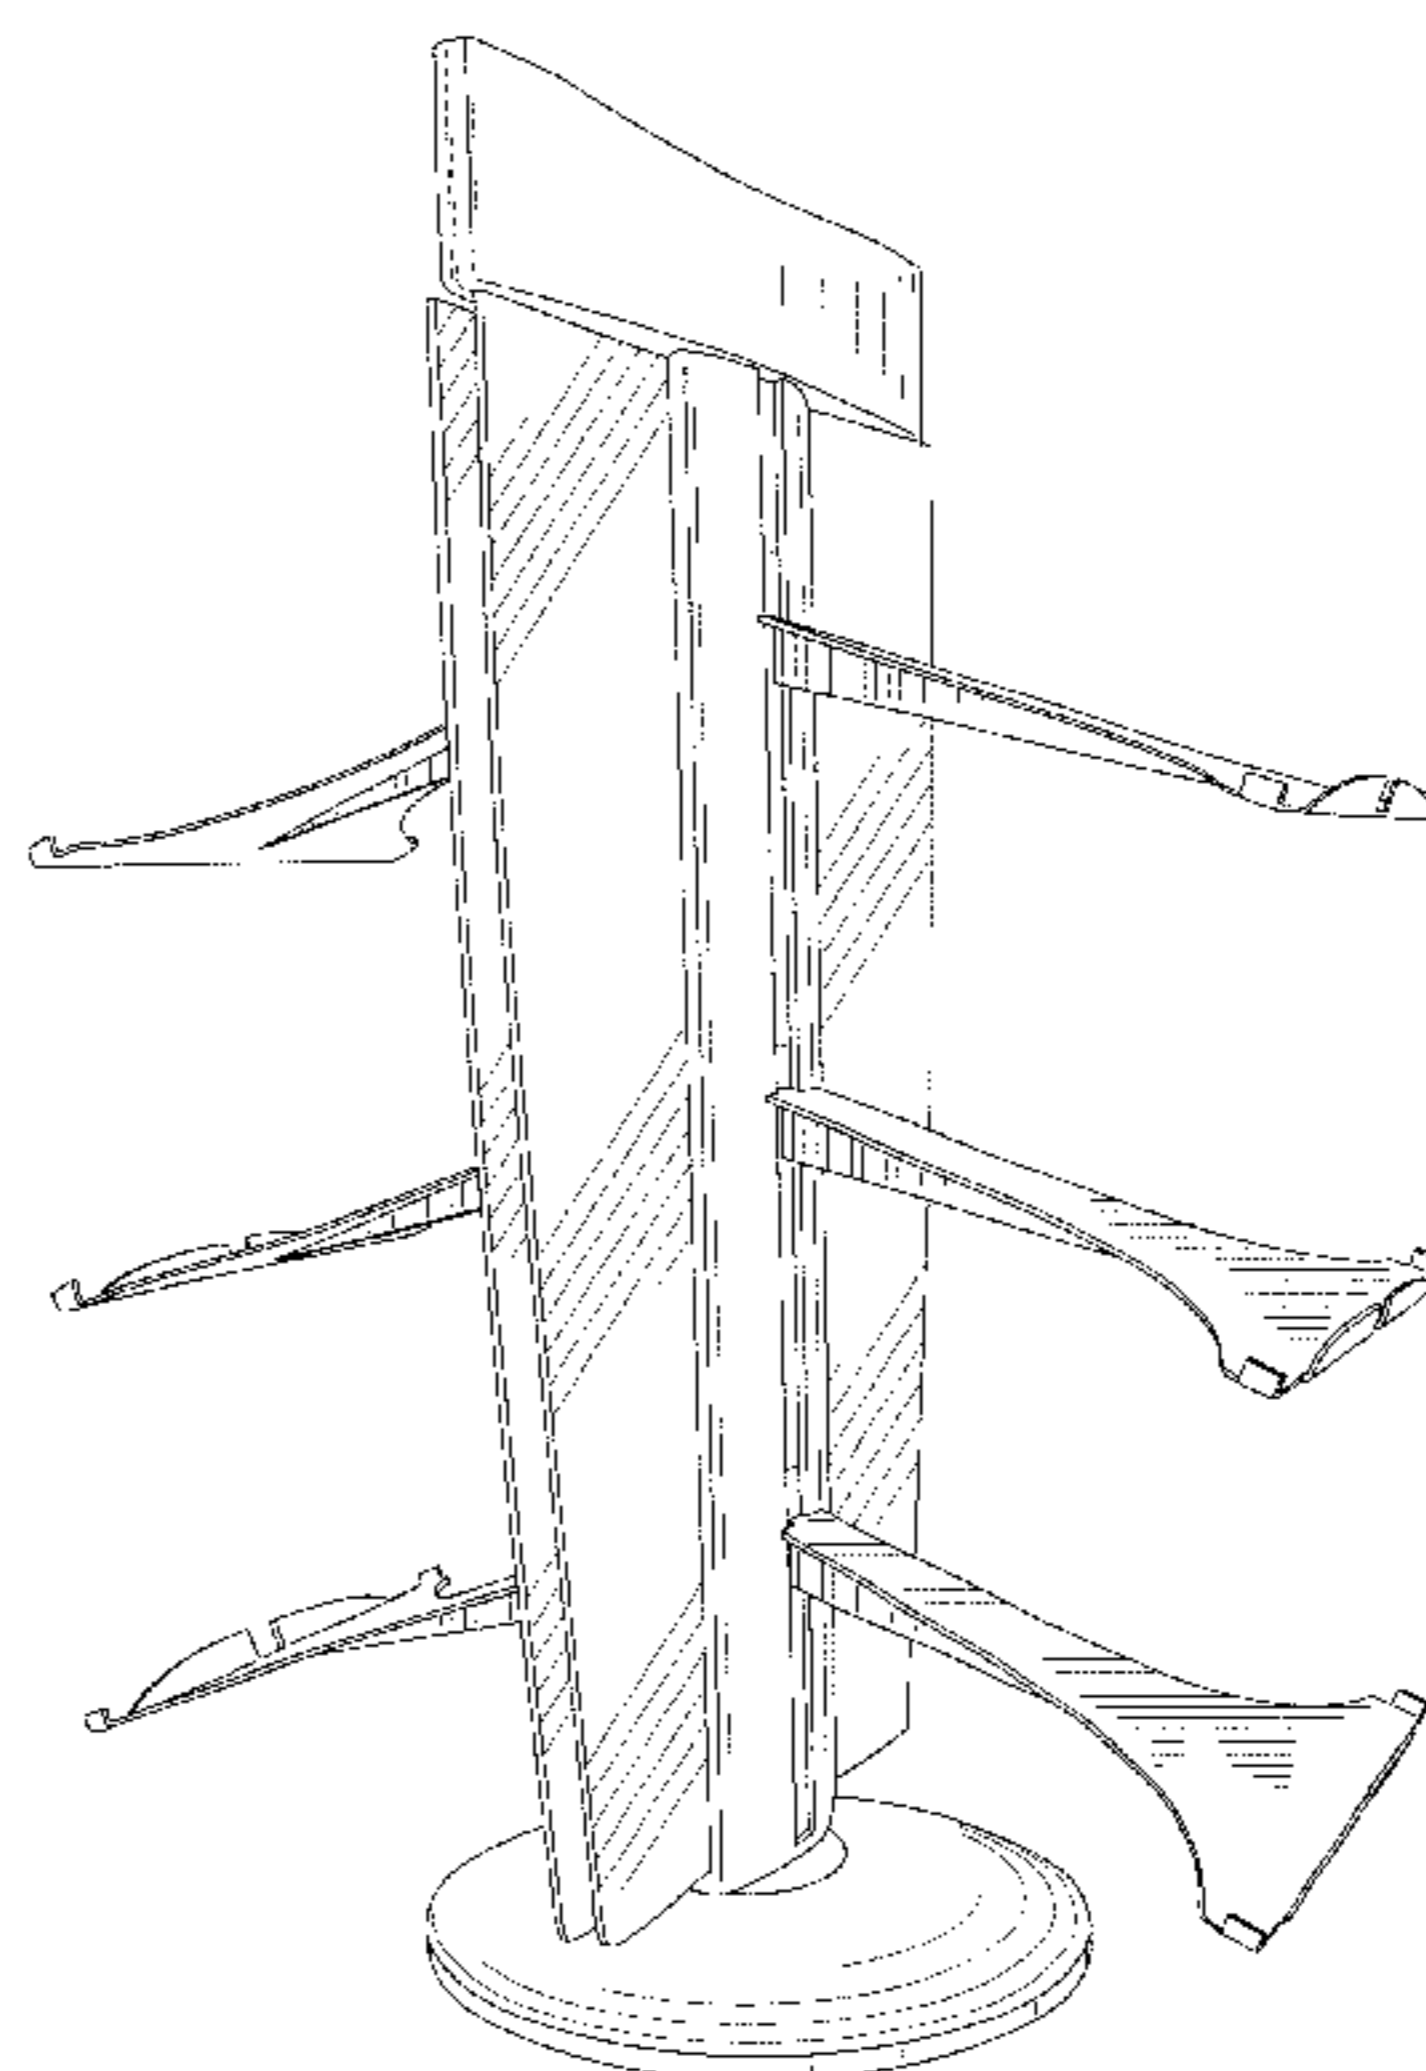

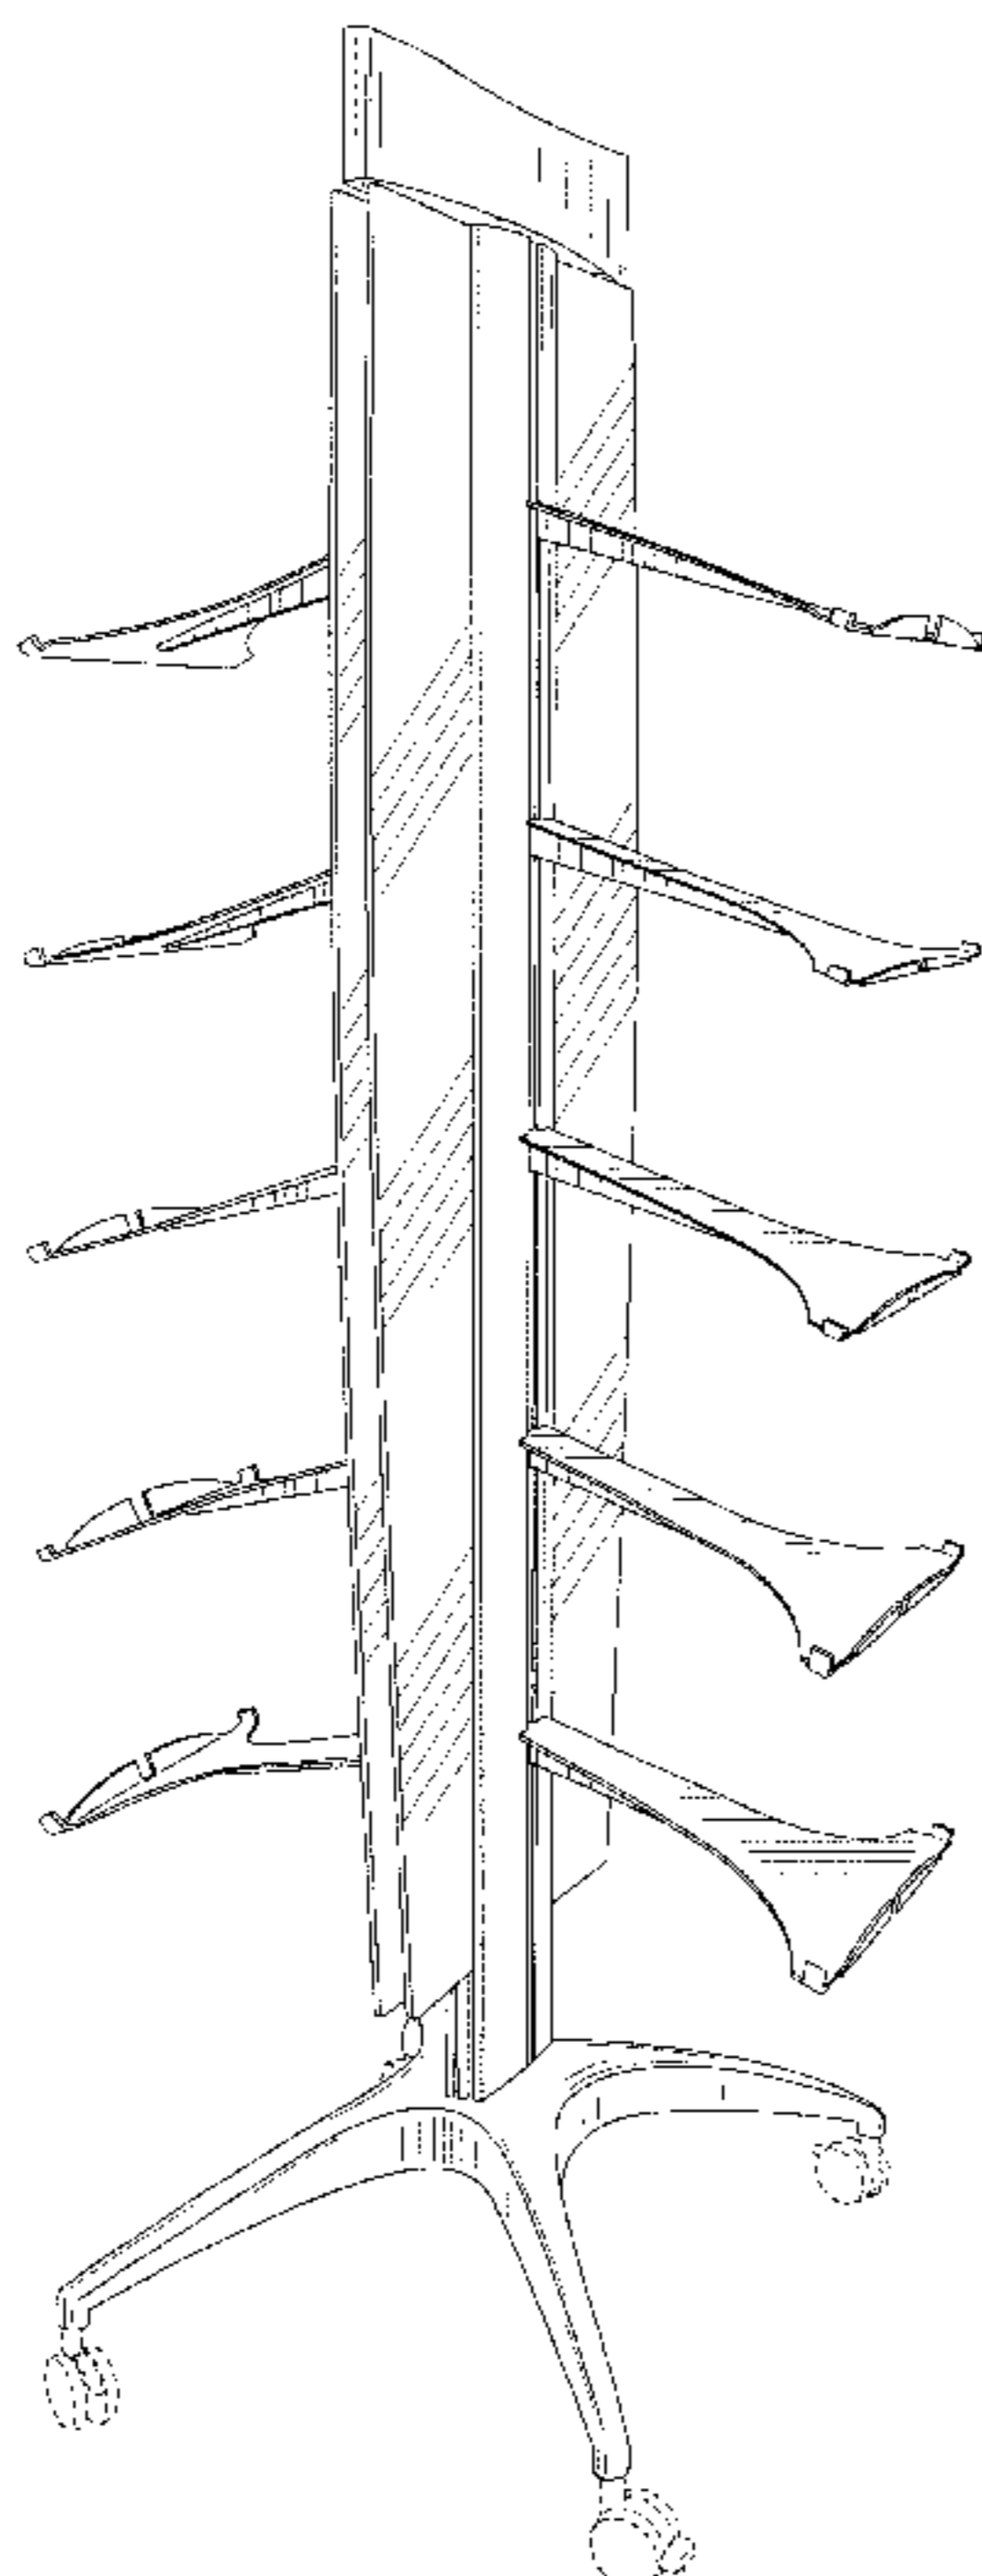

FIG. 8 is a left side elevation view of the optical display device shown in FIG. 6, the right side elevation view being identical;

FIG. 9 is a top plan view of the optical display device shown in FIG. 6; and,

FIG. 10 is a bottom plan view of the optical display device shown in FIG. 6.

The broken lines shown herein are for illustrative purposes only and form no part of the claimed design.
