(57) **CLAIM**

The ornamental design for an action sport ramp having ornamental side vents, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view of an action sport ramp having ornamental side vents embodying the design as applied to side panels of a quarter pipe ramp.

FIG. 2 is a side elevation view of the action sport ramp having ornamental side vents shown in FIG. 1, it being understood that the opposite side is substantially a mirror image of the side shown herein.

FIG. 3 is a close-up view of the portion of the action sport ramp having ornamental side vents encircled in FIG. 2, showing the vent openings as circular. However, it should be understood that the shape of the vent openings could be other geometrical figures.

FIG. 4 is an isometric view of an action sport ramp having ornamental side vents embodying the new design as applied to a spine ramp; and,

FIG. 5 is a side elevation view of the action sport ramp shown in FIG. 4, it being understood that the opposite side is substantially a mirror image of the side shown herein.

All broken-line illustrations appearing in the drawings are only to show the environment in which the side vents appear and form no part of the claimed design.
