(57) **CLAIM**

I claim the ornamental design for a radiator for a heat generating components in electronic equipment, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a radiator for a heat generating components in electronic equipment according to the present invention.

FIG. 2 is a front view of the radiator according to the present invention.

FIG. 3 is a rear view of the radiator according to the present invention.

FIG. 4 is a left side view of the radiator according to the present invention.

FIG. 5 is a right side view of the radiator according to the present invention.

FIG. 6 is a top plan view of the radiator according to the present invention.

FIG. 7 is a bottom plan view of the radiator according to the present invention; and,

FIG. 8 is a perspective view illustrating use of the radiator according to the present invention.

The broken lines in the FIG. 8 drawing view indicate environmental elements for illustrative purposes only and form no part of the claimed design.
