(57) **CLAIM**

The ornamental design for a mailbox door assembly including a door and a door frame, as shown and described.

FIG. 1 is a front elevation view of a mail box door assembly including a door with lock and identification holder and a door frame, showing the first embodiment of our new design, the undisclosed rear is not part of the claimed design;

FIG. 2 is front elevation view of a second embodiment of our new design of a mail box door assembly including a door with lock and identification holder and a door frame;

FIG. 3 is front elevation view of a third embodiment of our new design of a mail box door assembly including a door with lock and identification holder and a door frame;

FIG. 4 is front elevation view of a fourth embodiment of our new design of a mail box door assembly including a door with lock and identification holder and a door frame;

FIG. 5 is front elevation view of a fifth embodiment of our new design of a mail box door assembly including a door with lock and identification holder and a door frame;

FIG. 6 is front elevation view of a sixth embodiment of our new design of a mail box door assembly including a door with lock and identification holder and a door frame;

FIG. 7 is front elevation view of a seventh embodiment of our new design of a mail box door assembly including a door with lock and identification holder and a door frame;

FIG. 8 is front elevation view of an eighth embodiment of our new design of a mail box door assembly including a door with lock and identification holder and a door frame; and,

FIG. 9 is front elevation view of a ninth embodiment of our new design of a mail box door assembly including a door with lock and identification holder and a door frame the undisclosed rear is not part of the claimed design.
