(57) **CLAIM**

The ornamental design for a translucent product holding shelf with inclusions, as shown and described.

DESCRIPTION

A product holding shelf for use in holding and merchandising products therefrom made of a translucent material wherein the translucent material includes a plurality of inclusions embedded within the material which can be seen and viewed through the translucent material. The translucent material may be of any color so long as the inclusions may be viewed therethrough.

FIG. 1 is a perspective view of a translucent product holding shelf showing my new design.

FIG. 2 is a front elevational view thereof, the side and rear elevational views being a mirror image thereof.

FIG. 3 is a top plan view thereof.

FIG. 4 is a cross-sectional view taken along line 4—4 of FIG. 3 showing the inclusions embedded in the translucent shelf structure thereof, the cross-sectional view being taken solely through the floor portion and peripheral sidewall associated therewith; and,

FIG. 5 is a bottom plan view thereof.
