(57) **CLAIM**

The ornamental design for a cornice attachment, as shown and described.

DESCRIPTION

FIG. 1 is an environmental perspective view of a first

embodiment of a cornice attachment showing my new design;

FIG. 2 is an environmental front elevational view thereof;

FIG. 3 is an environmental right side elevational view with the left side being a mirror image thereof;

FIG. 4 is a bottom view thereof;

FIG. 5 is an environmental rear elevational view thereof;

FIG. 6 is an environmental perspective view of a second embodiment thereof;

FIG. 7 is an environmental front elevational view thereof;

FIG. 8 is an environmental right side elevational view with the left side being a mirror image thereof;

FIG. 9 is a bottom view thereof;

FIG. 10 is an environmental rear elevational view thereof;

FIG. 11 is an environmental perspective view of a third embodiment thereof;

FIG. 12 is an environmental front elevational view thereof;

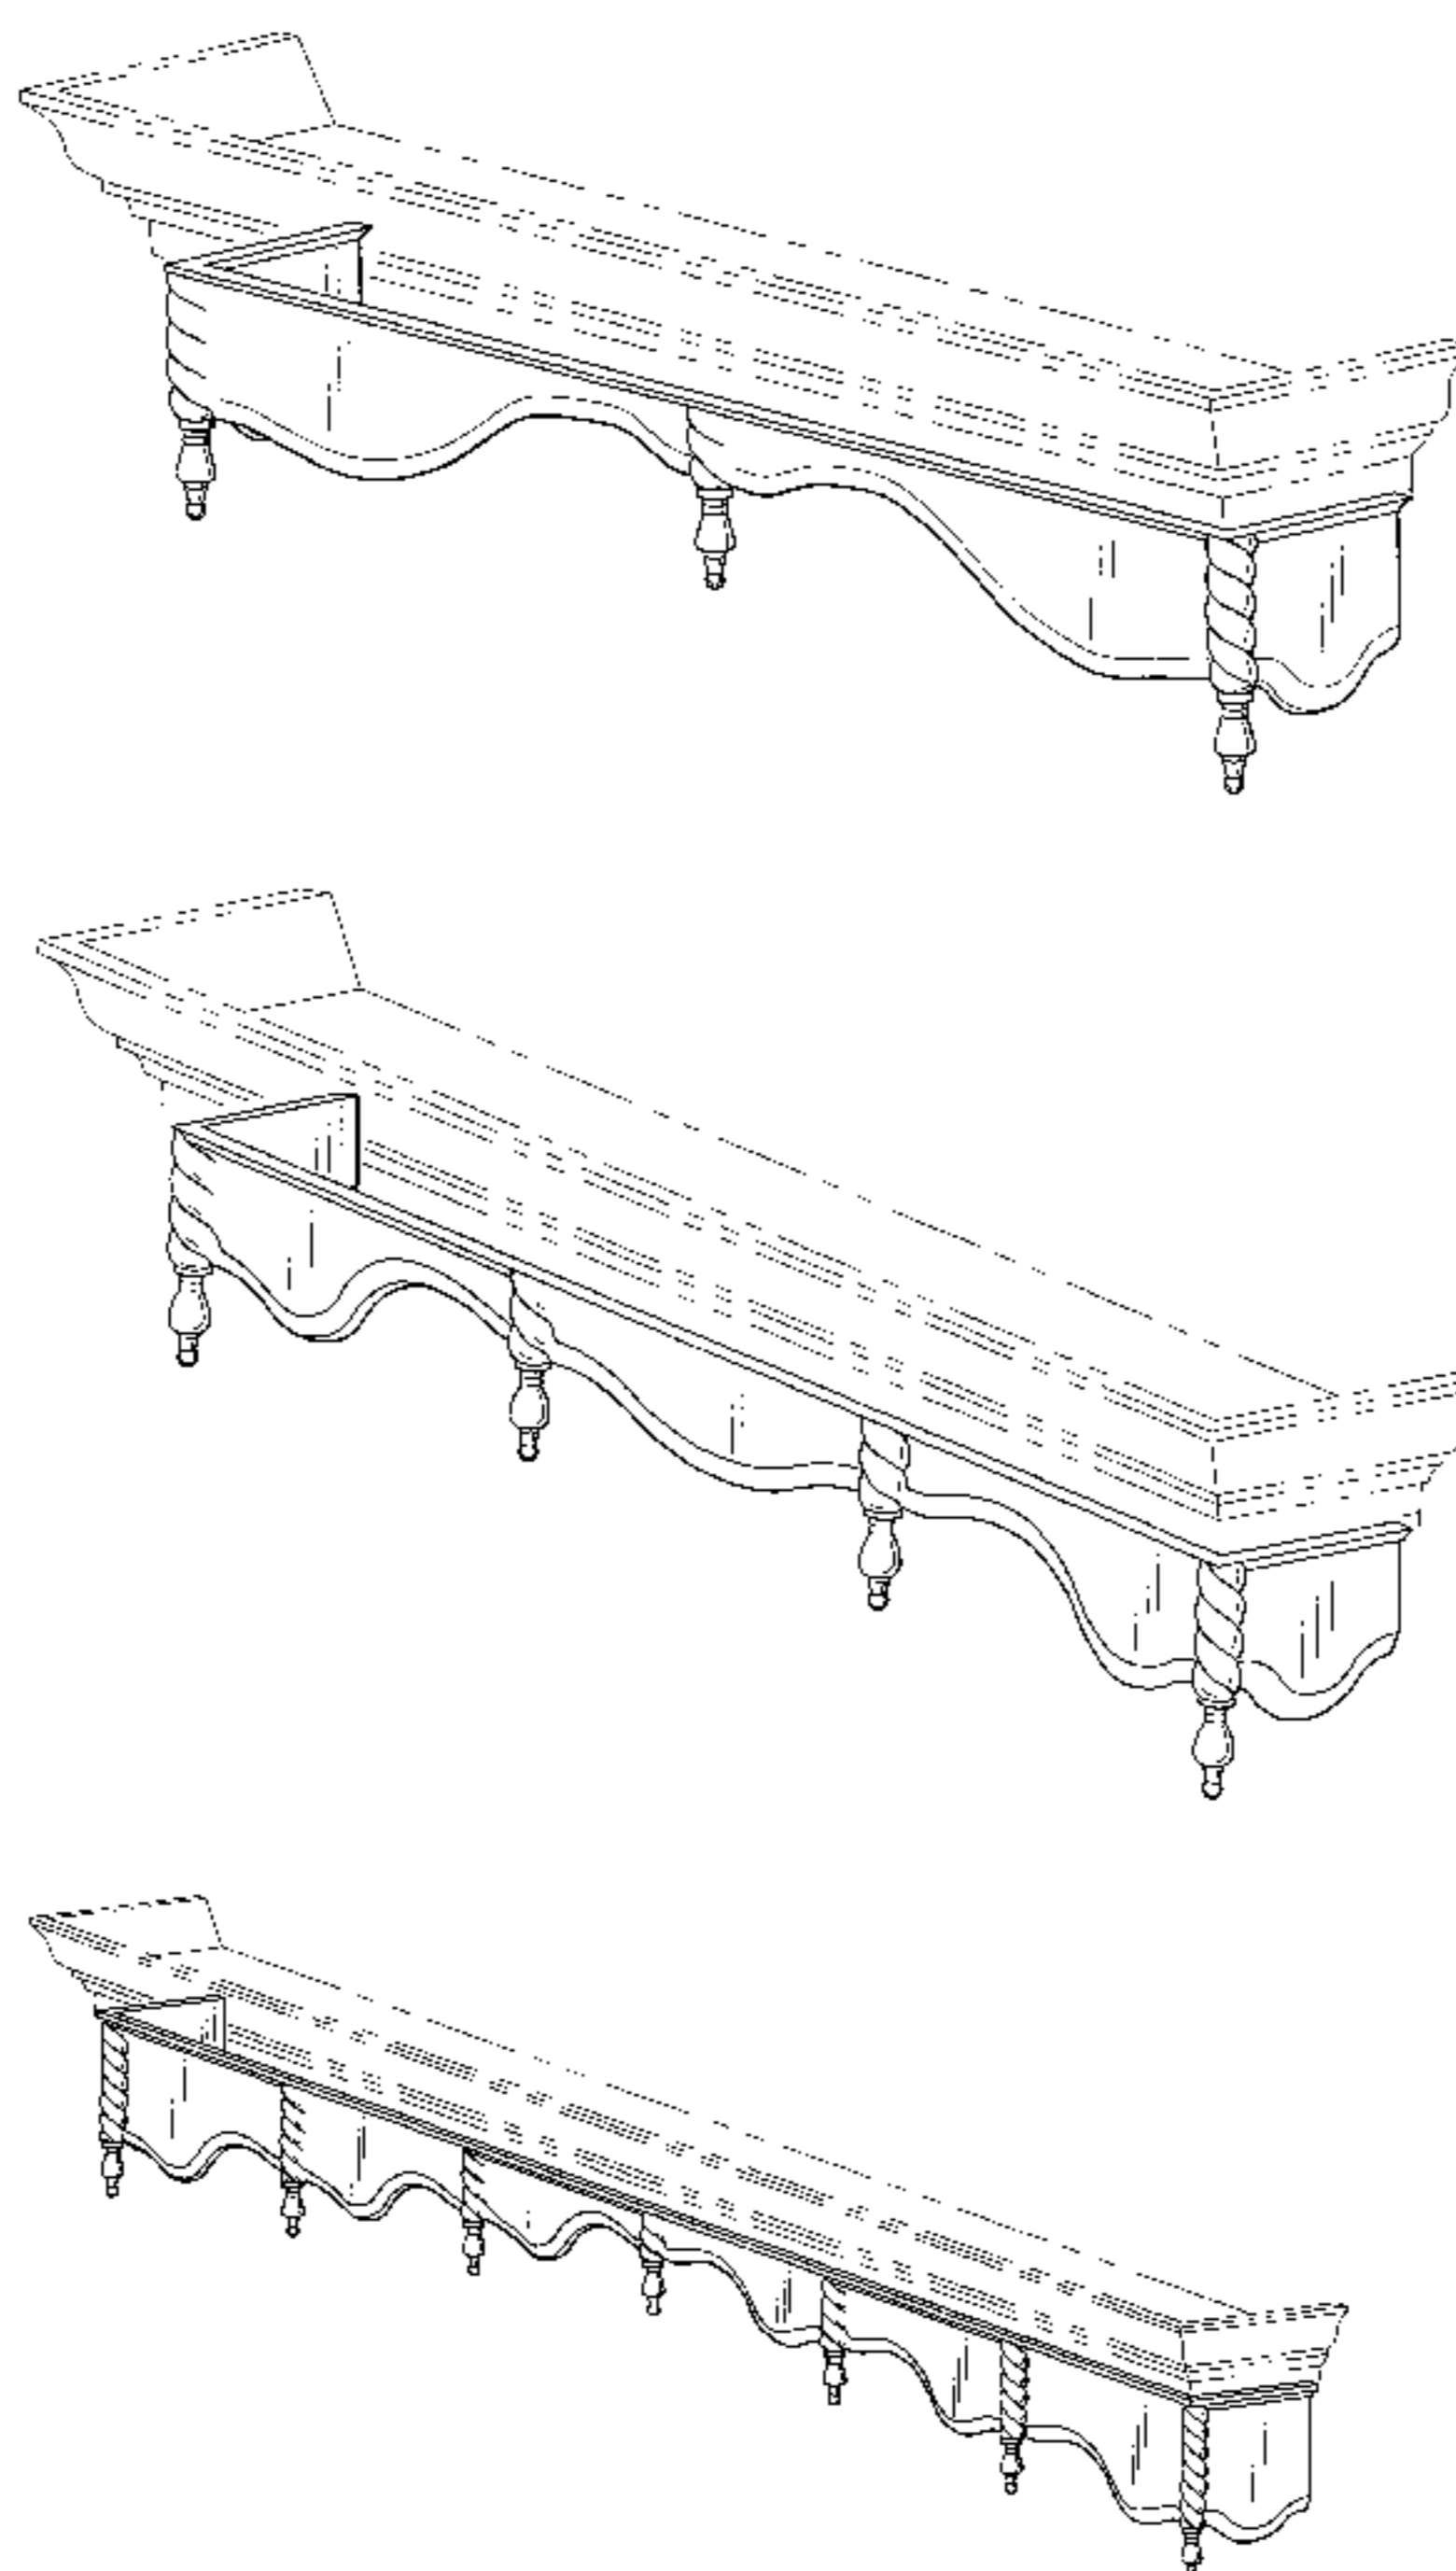

FIG. 13 is an environmental right side elevational view with the left side being a mirror image thereof;

FIG. 14 is a bottom view thereof; and,

FIG. 15 is an environmental rear elevational view thereof.

The broken line showing of the molding in FIGS. 1-15 is to show the type of molding that can be used with the present design and is for illustrative purposes only and forms no part of the claimed design.
