(57) **CLAIM**

The ornamental design for a lavatory, as shown and described.

DESCRIPTION

In a preferred embodiment, the nature of this product is as a plumbing fixture in the form of a receptor for receiving water from a movable bowl with an open bottom and is primarily useful for washing the face and hands of humans.

FIG. 1 is a left, top, front perspective view of a receptor for a lavatory embodying our new design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a front elevational view thereof, the rear elevational view being identical to the front elevational view shown;

FIG. 4 is a left side elevational view thereof, the right side elevational view being a mirror image of the left side shown; and,

FIG. 5 is a cross-sectional view thereof taken along line 5–5 of FIG. 3.
