(57) **CLAIM**

The ornamental design for the display unit for wrapping paper and multiple cartridge adhesive tape using non-linear panel back, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a first embodiment of the display unit;

FIG. 2 is front elevational view of the display system shown in FIG. 1;

FIG. 3 is a rear elevational view of the display system shown in FIG. 1;

FIG. 4 is a left side elevational view of the display system shown in FIG. 1;

FIG. 5 is a right side elevational view of the display system shown in FIG. 1;

FIG. 6 is a top view of the display system shown in FIG. 1;

FIG. 7 is a bottom view of the display system shown in FIG. 1;

FIG. 8 is a perspective view of a second embodiment of the present invention shown with complementary shaped holes formed in the display board for receiving product;

FIG. 9 is a front elevational view of the display system shown in FIG. 8;

FIG. 10 is a rear elevational view of the display system shown in FIG. 8;

FIG. 11 is a left side elevational view of the display system shown in FIG. 8;

FIG. 12 is a right side elevational view of the display system shown in FIG. 8;

FIG. 13 is a top view of the display system shown in FIG. 8;

FIG. 14 is a bottom view of the display system shown in FIG. 8;

FIG. 15 is a perspective view of a third embodiment of the present invention shown with product suspended from hooks off of the display board;

FIG. 16 is a front elevational view of the display system shown in FIG. 15;

FIG. 17 is a rear elevational view of the display system shown in FIG. 15;

FIG. 18 is a left side elevational view of the display system shown in FIG. 15;

FIG. 19 is a right side elevational view of the display system shown in FIG. 15;

FIG. 20 is a top view of the display system shown in FIG. 15; and,

FIG. 21 is a bottom view of the display system shown in FIG. 15.

The broken line showing of a box and rolls are for illustrative purposes only and form no part of the claimed design.
