(57) **CLAIM**

We claim the ornamental design for a plastic fence section, as shown and described.

DESCRIPTION

FIG. 1 is a front-elevational view of a plastic fence section according to the present invention, with fence posts and a fence gate shown in broken lines for environmental purposes only, and forming no part of the claimed design;

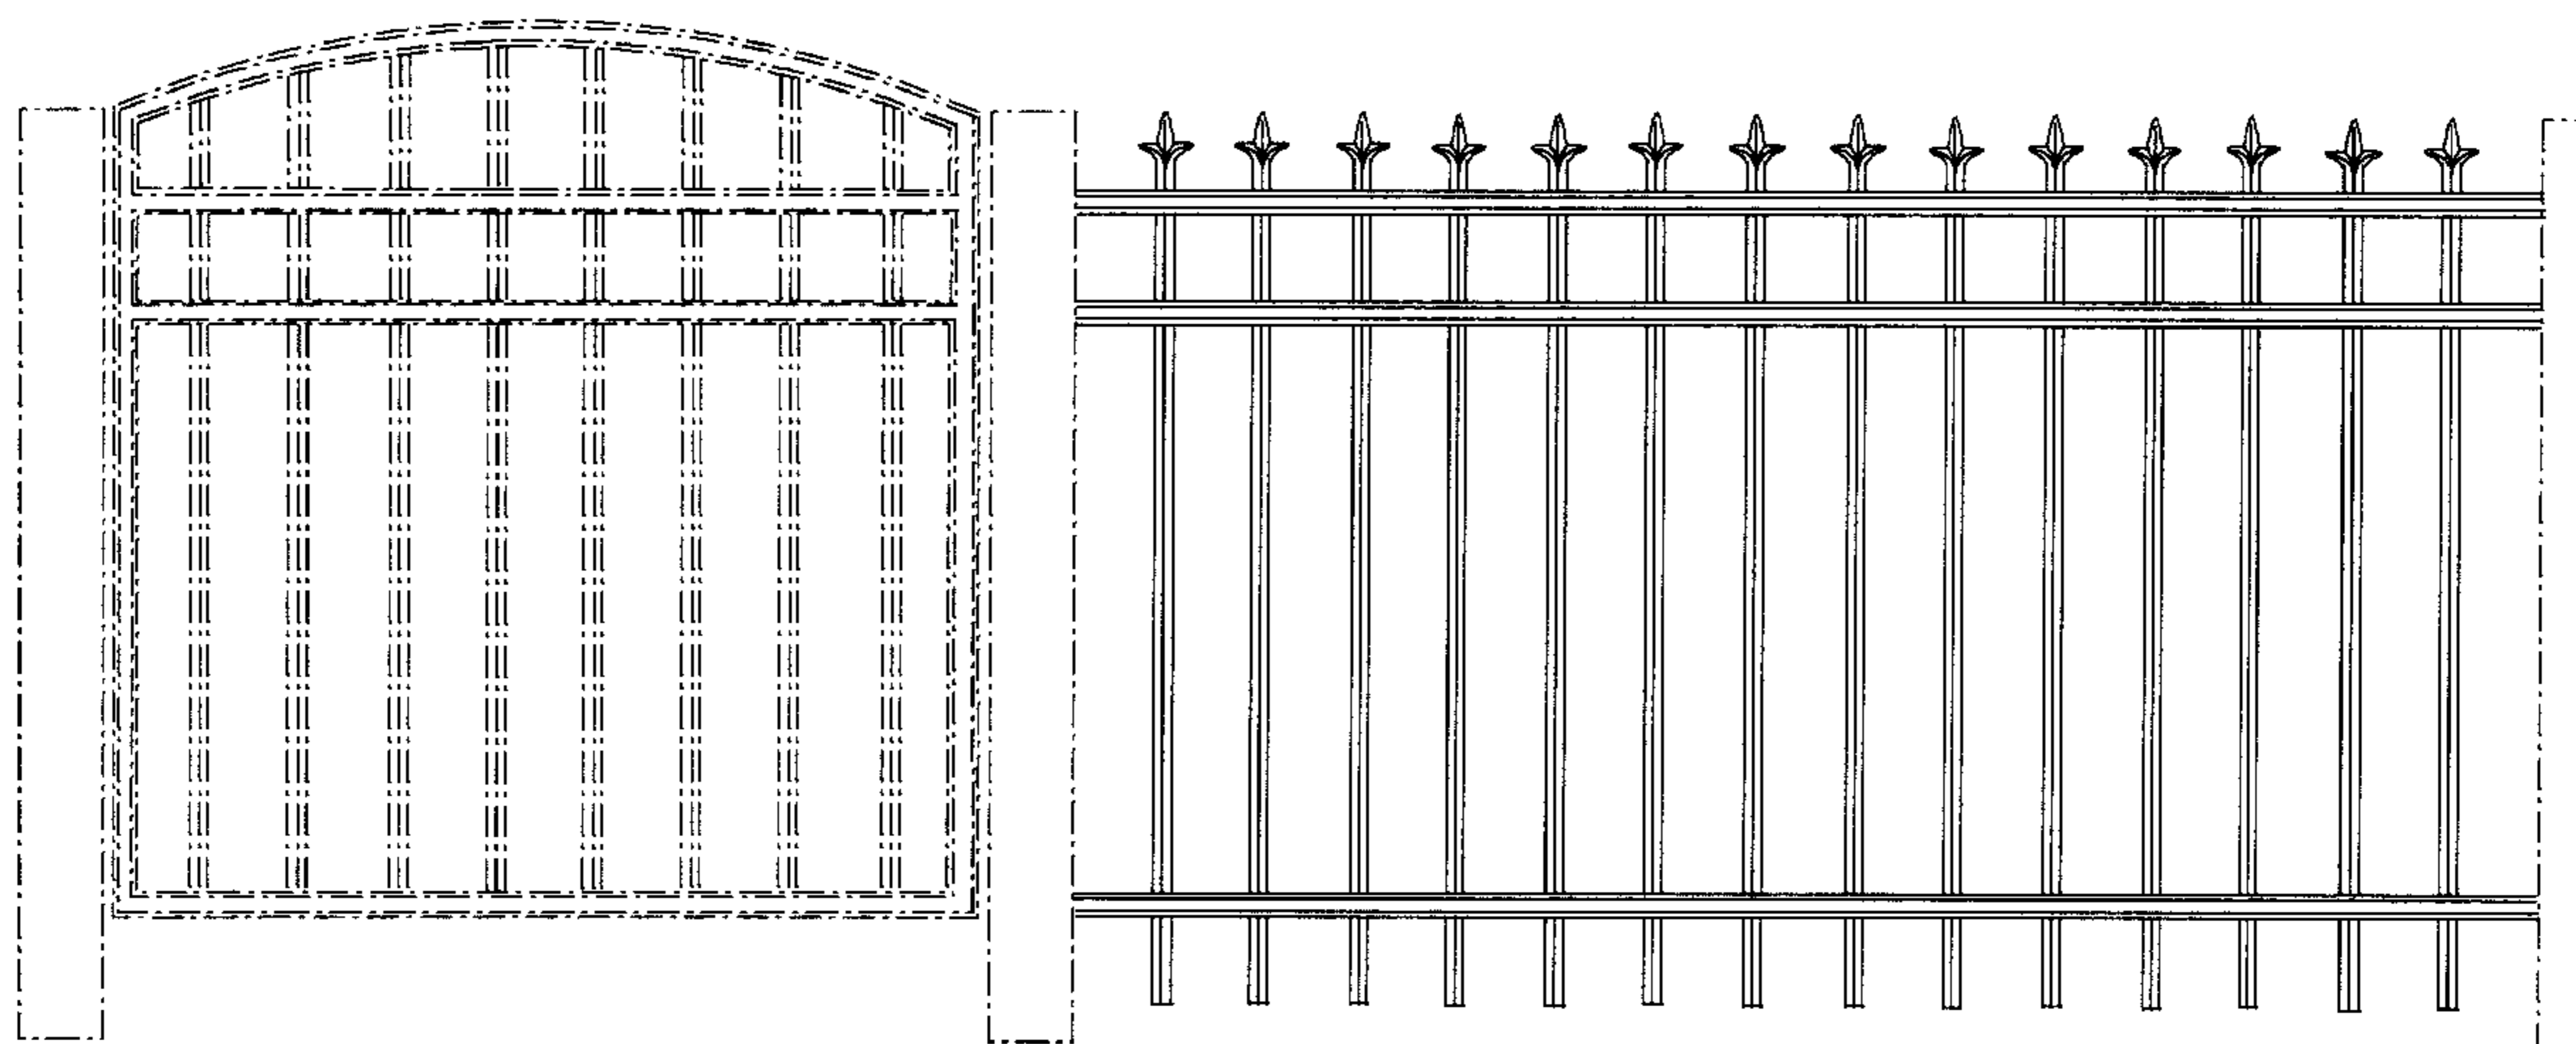

FIG. 2 is a front-elevational view of the plastic fence section according to the present invention, the rear view being a mirror image of the front view;

FIG. 3 is a top view of the plastic fence section according to the present invention;

FIG. 4 is a bottom view of the plastic fence section according to the present invention; and,

FIG. 5 is a side elevational view of the plastic fence section according to the present invention, the other side view being identical thereto.
