FIG. 1 is a top view of my new design for a male connector for a computer cable, such as a connector that is mounted on a substrate (board) of a laptop computer and connects to a cable for an LCD display.

FIG. 2 is a front elevation view of the article shown in FIG. 1;

FIG. 3 is a rear elevation view of the article shown in FIG. 1;

FIG. 4 is a bottom view of the article shown in FIG. 1; and, FIG. 5 is a right side view of the article shown in FIG. 1, which is a mirror image of the left side view.

The portion shown in broken lines in FIGS. 2 and 4 are included for the purpose of illustrating portions of the connector that form no part of the claimed design.
