(73) Assignee: **Dell Products, L.P.**, Round Rock, TX (US)

(57) **CLAIM**

The ornamental design for a computer system status display, as shown and described.

(**) Term: **14 Years**

DESCRIPTION

(21) Appl. No.: **29/178,600**

This application is related to U.S. utility patent application titled "System and Method for Displaying Computer System Status Information" by Timothy C. Dearborn and Shawn P. Hoss, U.S. Application Ser. No. 09/876,594, which is pending herewith and which is incorporated herein by reference in its entirety for all purposes.

(22) Filed: **Mar. 28, 2003**

Related U.S. Application Data

(62) Division of application No. 29/143,122, filed on Jun. 7, 2001, now Pat. No. Des. 476,009.

FIG. 1 is a front elevational view of a computer system status display wherein the computer system is shown in broken lines for illustrative purposes only and forms no part of the claimed design; and,

FIG. 3 is a front elevational view of a second embodiment of a computer system status display wherein the computer system is shown in broken lines for illustrative purposes only and forms no part of the claimed design;

FIG. 4 is a perspective view of the second embodiment of a computer system status display wherein the computer system is shown in broken lines for illustrative purposes only and forms no part of the claimed design;

FIG. 5 is a front elevational view of a third embodiment of a computer system status display wherein the computer system is shown in broken lines for illustrative purposes only and forms no part of the claimed design;

FIG. 6 is a perspective view of the third embodiment of a computer system status display wherein the computer system is shown in broken lines for illustrative purposes only and forms no part of the claimed design;

FIG. 7 is a front elevational view of the fourth embodiment of a computer system status display wherein the computer system is shown in broken lines for illustrative purposes only and forms no part of the claimed design;

FIG. 8 is a perspective view of the fourth embodiment of a computer system status display wherein the computer system is shown in broken lines for illustrative purposes only and forms no part of the claimed design;

FIG. 9 is a front elevational view of the fifth embodiment of a computer system status display wherein the computer system is shown in broken lines for illustrative purposes only and forms no part of the claimed design;

FIG. 10 is a perspective view of the fifth embodiment of a computer system status display wherein the computer system is shown in broken lines for illustrative purposes only and forms no part of the claimed design;

FIG. 11 is a front elevational view of the sixth embodiment of a computer system status display wherein the computer system is shown in broken lines for illustrative purposes only and forms no part of the claimed design; and

FIG. 12 is a perspective view of the sixth embodiment of a computer system status display wherein the computer system is shown in broken lines for illustrative purposes only and forms no part of the claimed design.
