(57) **CLAIM**

The ornamental design for a powder measure adjustment dial, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of the powder measure adjustment dial of the present invention;

FIG. **2** is a bottom perspective view of the powder measure adjustment dial of the present invention;

FIG. **3** is a top perspective view of the powder measure adjustment dial of the present invention;

FIG. **4** is a side view of the powder measure adjustment dial of the present invention;

FIG. **5** is a front view of the powder measure adjustment dial of the present invention; and,

FIG. **6** is a back view of the powder measure adjustment dial of the present invention.

The reloading machine components illustrated in broken lines are for illustrative purposes only and form no part of the claimed design.
