(57) **CLAIM**

I claim the ornamental design for an electric converter, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of an ornamental design for the electric converter of the present invention, said perspective view showing the top, the front and the right side of the electric converter;

FIG. **2** is a perspective view of an ornamental design for the electric converter of the present invention, showing the top side of the electric converter;

FIG. **3** is a perspective view of an ornamental design for the electric converter of the present invention, said perspective view showing the bottom, the rear and the right sides of the electric converter;

FIG. **4** is a top view of the electric converter of the present invention;

FIG. **5** is a bottom view of the electric converter of the present invention;

FIG. **6** is a front view of the electric converter of the present invention;

FIG. **7** is a rear view of the electric converter of the present invention;

FIG. **8** is a right side view of the electric converter of the present invention; and,

FIG. **9** is a left side of the present invention.
