The ornamental design for a paper product, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a paper product showing the new design. The broken lines shown along the borders of FIG. 1 depict boundaries of the claimed design. The broken line boundaries indicate that the product has indeterminate length and width, and that the claimed design repeats uniformly throughout the length and width of the product. The broken lines form no part of the claimed design.

FIG. 2 is a top plan view illustrating a single repeat unit of the surface pattern applied to the paper product; and, FIG. 3 is a top plan view illustrating another repeat unit of the surface pattern applied to the paper product.
