(57) **CLAIM**

The ornamental design for the taco holder, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of the taco holders and base showing taco holders in place—a bottom plan view would be a flat surface of equal dimension to the base;

FIG. 2 is a front elevational view of the taco holder showing taco holders in place—a rear elevational view would be a mirror image;

FIG. 3 is a top view of the individual taco holders and the base with the taco holders removed—a bottom view of the taco holders would show a flat surface of equal dimension to the individual holders;

FIG. 4 is a front elevational view of the individual taco holders and the base with the taco holders removed—a rear elevational view would be a mirror image;

FIG. 5 is a right side elevational view of a taco holder and the base with the taco holders removed—a left side view would be a mirror image;

FIG. 6 is a top perspective view of the taco holders and the base from the front right showing taco holders removed—a top perspective view from the rear left would be a mirror image;

FIG. 7 is a left side elevational view of a taco holder showing the taco holder in place—a right side elevational view would be a mirror image; and,

FIG. 8 is a front right top perspective view of the base and taco holders showing taco holders in place—left rear top perspective view would be a mirror image of FIG. 8.
