(57) **CLAIM**

The ornamental design for a dispenser for solid edible foods having replaceable internal dies, as shown and described.

DESCRIPTION

FIG. 1 is a right frontal exploded perspective view of the design of a dispenser for solid edible foods having replaceable internal dies showing one replaceable internal die.

FIG. 2 is a rear elevation view of the design of a dispenser for solid edible foods having replaceable internal dies of FIG. 1.

FIG. 3 is a bottom plan view of the design of a dispenser for solid edible foods having replaceable internal dies of FIG. 1 showing an aperture in the dispensing end having one replaceable internal die therebehind.

FIG. 4 is a top plan view of the design of a dispenser for solid edible foods having replaceable internal dies of FIG. 1.

FIG. 5 is a left side elevation view of the design of a dispenser for solid edible foods having replaceable internal dies of FIG. 1.

FIG. 6 is a right side elevation view of the design of a dispenser for solid edible foods having replaceable internal dies of FIG. 1.

FIG. 7 is a front elevation view of the design of a dispenser for solid edible foods having replaceable internal dies.

FIG. 8 is a front elevation view of one internally replaceable die for the dispenser for solid edible foods having replaceable internal dies of FIG. 1 the rear elevation view being a mirror image.

FIG. 9 is a front elevation view of a second internally replaceable die for the dispenser for solid edible foods having replaceable internal dies of FIG. 1 the rear elevation view being a mirror image.

FIG. 10 is a front elevation view of a third internally replaceable die for the dispenser for solid edible foods having replaceable internal dies of FIG. 1 the rear elevation view being a mirror image.

FIG. 11 is a front elevation view of a fourth internally replaceable die for the dispenser for solid edible foods having replaceable internal dies of FIG. 1 the rear elevation view being a mirror image.

FIG. 12 is a front elevation view of a fifth internally replaceable die for the dispenser for solid edible foods having replaceable internal dies of FIG. 1 the rear elevation view being a mirror image.

FIG. 13 is a front elevation view of a sixth internally replaceable die for the dispenser for solid edible foods having replaceable internal dies of FIG. 1 the rear elevation view being a mirror image; and,

FIG. 14 is a side elevation view of the internally replaceable dies of FIGS. 8-13, the view of the opposite side edge, top side edge and bottom side edge being identical.

The internal dies are shown separately for clarity of illustration in FIGS. 8-13.
