(57) **CLAIM**

The ornamental design for an improved timepiece, as shown.

DESCRIPTION

The patent application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawings will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a top planar view of a watch face illustrating the selectively changing background of the watch face in the color red of the improved timepiece of the present invention;

FIG. 2 is a top planar view of a watch face illustrating the selectively changing background of the watch face in the color green of the improved timepiece of the present invention;

FIG. 3 is a top planar view of a watch face illustrating the selectively changing background of the watch face in the color blue of the improved timepiece of the present invention;

FIG. 4 is a top planar view of a watch face illustrating the selectively changing texture background of the watch face in the color gray of the improved timepiece of the present invention;

FIG. 5 is a top planar view of a watch face illustrating the selectively changing texture background of the watch face in the color black of the improved timepiece of the present invention;

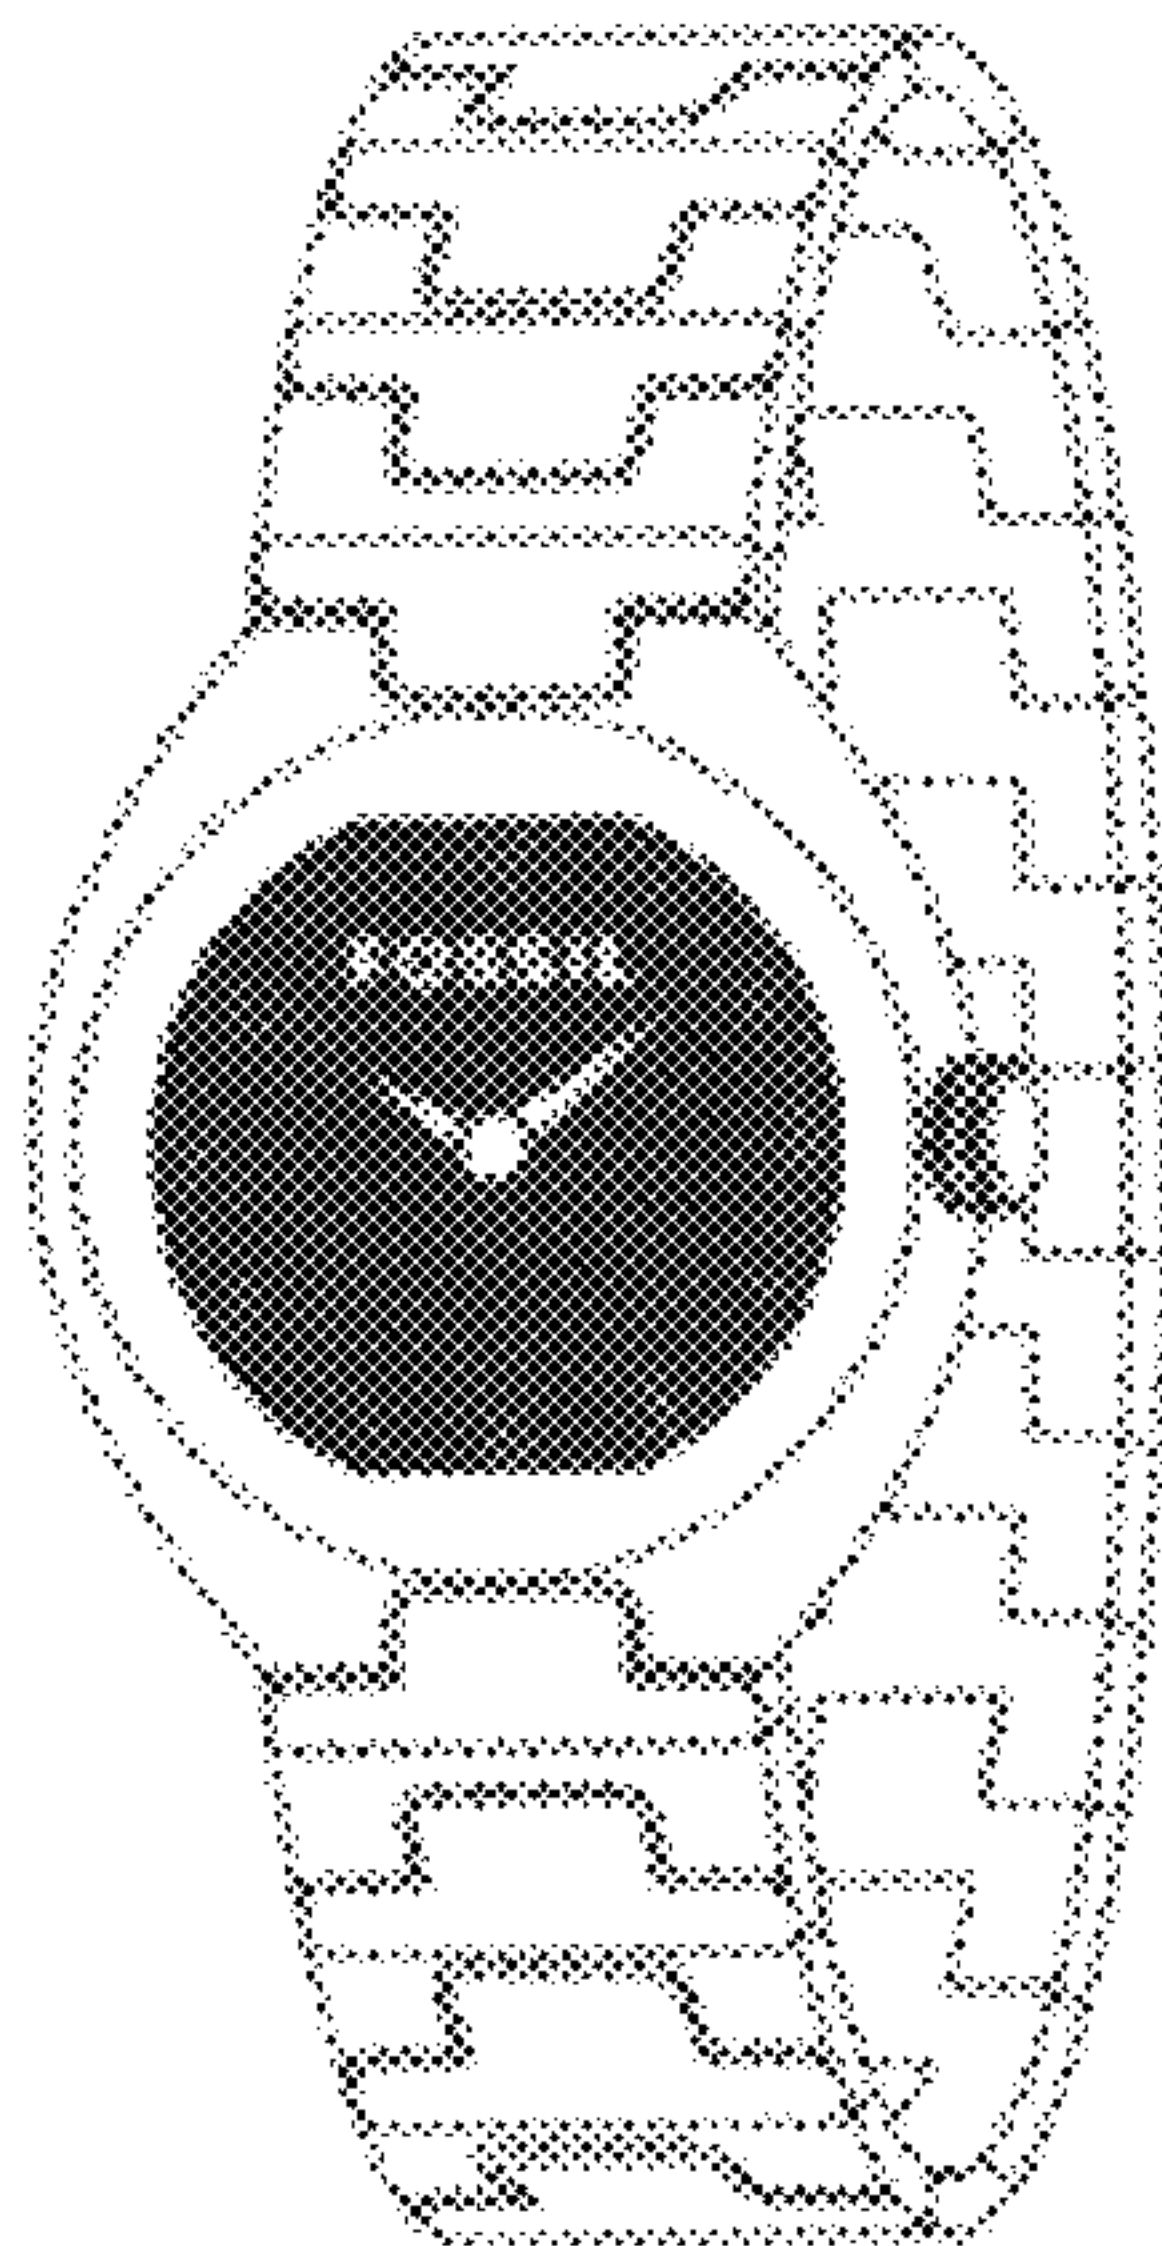

FIG. 6 is a top planar view of a watch face illustrating the selectively changing texture background of the watch face in the color silver of the improved timepiece of the present invention;

FIG. 7 is a top planar view of a watch face illustrating the selectively changing texture background of the watch face illustrating a basket weave pattern of the improved timepiece; and,

FIG. 8 is a top planar view of a watch face illustrating the selectively changing texture background of the watch face illustrating a multiple logo pattern of the improved timepiece.
